## HEARST'S EDITORS ARE IN JAIL

Three of the Chicago American Staff Were Sentenced Yesterday.

CHICAGO, Nov. 12.—On a charge of contempt, Judge Haney today sentenced Andrew M. Lawrence, managing editor of Hearst's Chicago American, to forty days in the county jail. The sentence of H. S. Canfield, who wrote the article objectionable to the court was fixed at thirty days in jail. The cases against S. S. Carvalho, financial manager of the paper, and John C. Hammond, assistant city editor, were dismissed. Judge Haney declared that cases against W. R. Hearst, majority stockholder of the paper; Homer Davenport, cartoonist, and Clare Briggs, also a cartoonist, would pend until such time as these respondents could be brought into the court by the sheriff.

Former Governor Altgeld, one of the counsel for the respondents, entered a formal exception to the decision. "This case, I may say," the court remarked, "is not appealable. You may file a bill of exceptions for a writ of error, however. I am willing to delay the serving of papers on Mr. Lawrence and Mr. Canfield until you have drawn up the bill."

"We do not feel that we have any favors coming from this court," Mr. Altgeld answered. "We are much obliged."

The courtroom was crowded to the limit where Judge Haney read the decision. The article in the American upon which the proceedings in contempt were based was a criticism of the court's decision on an application for the forfeiture of the charter of the People's Light, Gas & Coke Company. Judge Haney said if the matter published were allowed to go unnoticed by the court, it paved the way for other attacks, and that the judiciary, if not held in respect, would fall with all democratic government. The article, the court declared, was not merely an attack on the people and on the court, but a bold threat to every other court. It should, therefore, not go unpunished.

A few minutes after the rendering of the decision and the imposition of the sentences as to Lawrence and Canfield, Judge Dunne, upon application, issued a writ of habeas corpus as to them, returnable immediately.

### Convicted of Treason.

New York, Nov. 12.—The Berlin correspondent of the London Times and the New York Times says the trial of Polish students has just ended at Poznan. The court found that a league of Polish students was in existence, with the ultimate object of re-establishing the kingdom of Poland. Its operations were therefore treasonable. The court based its conclusion on the fact that the so-called "Polish National Treasury" existed in Switzerland, and that contributions for this fund were collected from the students.

### Testimony for the Defense.

SEATTLE, Nov. 12.—The defense today continued the presentation of its testimony in favor of John W. Conisidine. Nineteen witnesses were examined, making a total of forty-two who have so far been heard in Conisidine's behalf. The more important parts of the testimony related to threats against the life of Conisidine, alleged to have been made by Meredith both prior and subsequent to his resignation as chief of police. Several more witnesses testified to the number of shots they heard at the time of the fatal affray, none having heard more than five. Detective Lane, who has secured nearly all the evidence for the state, was called by the defense, and made his witnesses today as to a conversation he had with Meredith a short time prior to the shooting, in which Meredith is said to have asked about the effect of buckshot on the human body. Lane explained that Meredith wanted to know what was the result of experiments he had undertaken in connection with the Simpson murder case, in order to ascertain if the locality of a man firing a shotgun could be determined by the scattering of the shot.

### Played Out.

It is certainly a wonderful remedy and we sell every bottle on a positive guarantee. Blakeley, the druggist.

### England's Edge of Canada.

New York, Nov. 12.—O. W. Bengough, introduced by Sir Charles Rivers Wilson,

delivered an interesting lecture on Canada at the Imperial Institute last night, says the Tribune's London correspondent. British ideas on many Canadian subjects were, he maintained, more or less vague, for instance, misconception with regard to climate was deep-rooted in England, where everybody was familiar with Kipling's "One Lady of the Snows." The lecturer laid stress on the value of the dominion to England as a field for immigration, and the profitable investment of capital. A solution of the British food problem was, he said, to be found in the development of the colonies.

### White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 25c. Sold by G. C. Blakeley, the druggist.

### Enormous Railway Speed.

New York, Nov. 12.—The Berlin correspondent of the Daily News reports that a speed of 105 miles an hour has been attained on an electric railway between Marlenfelde and Zossen, says the London representative of the Tribune. Engineers are even convinced that this speed can be increased. Running at this rate the air pressure was found to be equal to a wind force of twelve feet a second, a force which, on the German coast, has only been registered once, namely in the hurricanes of February 1, 1894.
