## NEW RULES FOR ARMY OFFICERS

Political Influence Will Hereafter Not Be Recognized.

WASHINGTON, Nov. 15.—It was announced at the war department today, that the names of officers to fill the vacancies in the grade of brigadier-general will not be announced until congress meets.

In addition to this statement it has been deemed proper to make the following official declaration:

"The secretary of war and the president have had informal discussions on army matters, and it is understood that the president has expressed himself most positively on the use of political and social influence by officers, for the purpose of obtaining changes of stations, leaves of absence, modifications for orders, etc.

"The president has not hesitated to inform senators and others, who have applied to him, that no officer will improve his chances by sending his friends to the president in his behalf.

"It is fully recognized that the proper men, in the first instance to establish the character of an applicant for office, are the senators and representatives from their own district, but once in the public service, it is only fair to the administration that not only army officers, but all other classes of public office holders, should rely upon their own merits, and not upon the further use of political influence."

Boers Close to Cape Town.

New York, Nov. 15.—The correspondent of the London Times and the New York Times, wiring from Middleburg, Cape Colony, says that within the last two days the Boers have approached still nearer to Cape Town. Sixty men of the commando last seen at Hopefield have penetrated south of Darling (forty-eight miles north of Cape Town), but the raid must not be taken too seriously, as the British columns are already in a position to cope with it. The Boers have made the dash either to obtain fresh horses or to revenge themselves on the Dutch farmers who have not supported them as they were expected to do.

In the northeast district Commandant Fouché and six men, leaving the main body, made a raid last Saturday to Mijburg Siding. They blew up a few yards of track and shot in cold blood a Cape policeman who had surrendered. Fouché has since returned to the neighborhood of Jamestown. A patrol of district mounted troops were worsted on Monday by an insignificant force of the enemy.

Brigands Meet Easy.

New York, Nov. 15.—The Sofia correspondent of the Journal and Advertiser cables: Gregory Tsilka, Albanian missionary and husband of Mme. Tsilka, Miss Stone's companion in captivity, has arrived at Sofia. He said:

"I have received a letter from my wife saying that Miss Stone and herself are well cared for. From the first they have known that liberation would not be speedy. The brigands are satisfied with their captures, and are in no hurry. Frequently they get to eat something like bologna sausage. The letter says also that Miss Stone's active horseback life has enabled her to bear the brigand regime well. The words 'the earth, the earth,' are written where the name of the pigeon where the letter came from should be, but the Turkish officials of Macedonia have had information about the captives right along. My wife intimates that they might be freed in the neighborhood of Salonica."

## RUHLIN WAS A QUITTER

Five Rounds With Jeffries Was all He Could Stand—Left Hook on the Jaw Early in the Game Took All the Fight Out of the Akron Man.

SAN FRANCISCO, Nov. 15.—In one of the most unsatisfactory prize fights ever witnessed in this country, James J. Jeffries proved the victor tonight over Gus Ruhlin, the Akron Giant, and thus emphasized his right to the heavy-weight championship title. In the fifth round of what was to have been a 20-round struggle, Ruhlin wilted and then surrendered to his peer, to the utter amazement and disgust of the assembled thousands. No one was more surprised at the outcome than Jeffries himself, who asserted that while he had delivered one telling blow in the second round, he did not expect to win the victory easily. Ruhlin's sole explanation of the outcome of the fight is that he received a chance blow which utterly disabled him and that Jeffries persisted in fighting him low. While Ruhlin will make no absolute charge of Jeffries having committed a foul, he intimates that he was unfairly handled and injured as a result. Ruhlin received the support of his seconds, who say that he was a hopeless case after the second round.

Gathmann Gun Falls in Tests.

SANDY HOOK, N. J., Nov. 15.—The monster 18 inch Gathmann gun was given an official test at the proving grounds this afternoon. It was fired at one of the 250,000 targets erected by the

government, producing a terrific roar. The gun cotton that filled the projectile struck the target fairly and damaged it considerably.

Gateman, the inventor, fired the shot by pressing an electric button in a bomb proof shelter 300 yards from the gun. The shot unquestionably was an utter failure. The target was built of sheets of armor plate 1 1/2 inches thick, and representing a section of an armored battleship. It was still practically intact. Though it had been struck squarely in the center, the immense target was pushed back about six inches by the shot and parts of the steel work that supported the heavy armor plate were somewhat twisted, but the armor which the inventor claimed would be blown to bits was without an impression.

Islands Declared Domestic.

WASHINGTON, Nov. 15.—Commissioner of Internal Revenue Yerkes today reversed the former ruling made by himself, and held that whiskey, beer and tobacco withdrawn for consumption in the Philippines, shall be subject to the internal revenue tax, thus holding that the Philippines for internal revenue purposes, are domestic territory. The contention of the government thus far has been that in the matter of customs duties, the Philippines were foreign territory.

By the decision of Yerkes, exporters are compelled to pay a double tax. They must pay not only the internal revenue tax, but also the customs duty at Manila. The supreme court will decide which one of these taxes is legal.
