WILL ACCEPT LESS MONEY

Kidnapers Who Hold Miss Stone Now Willing to Accept \$50,000.

SOFIA, Nov. 12.—The brigands who captured Miss Stone and Mme. Tella have reduced the amount of ransom they demand to 20,000 (Turkish) pounds. Coincident with this intelligence is the information that the leaders of the band, if convinced that this is more than Mr. Dickinson will give, would accept 15,000 pounds sterling. Even this sum is greatly beyond the cash at Mr. Dickinson's disposal. Therefore, unless the captors of the missionary further abate their demands, there is no hope of an immediate settlement.

An agent who is in touch with the brigands report that they recognize they made a mistake in kidnaping Miss Stone. They would, however, consider it worse than a blunder to release her without an adequate ransom. There is no longer any fear regarding the brigands' intentions toward the captives. They declare themselves to be not robbers, but patriots performing an honorable task in the interests of their country. The majority of the brigands are Armenians and their actions directed by a secret committee to execute its decisions.

Kept Her as Married Man.

PENDLETON, Or., Nov. 15.—Papers are prepared ready to file in a suit against a woman in Pendleton who has, it is alleged, written weekly letters to married women here, in which she tells them of actions of their husbands which she affirms she knows to be false.

mitted, of questionable character. She makes a specialty of keeping tab on married men, while their wives are absent in the mountains or at the seashore, and reports their escapades alleged to have been indulged in during the summer months.

One of the men who received a letter instructing a prominent attorney to commence suit, and also asks that criminal prosecution be commenced against the author of the letters, under a statute that makes such offense punishable with imprisonment in the state penitentiary. It is understood that proceedings are withheld for the time, but that the papers may be filed within a few days, unless there be a decision to the contrary.

O. R. & N. Branch Road to Oil District.

BAKER CITY, Nov. 16.—It is said on good authority that with the first evidence that oil exists in the Malheur region, which is now being exploited by promoters as a fine prospective oil field, the O. R. & N. Co., will begin construction of a line to the section. It is declared that once started such a road would be carried on into Harney and perhaps Lake counties. These counties are now more distant from rail communication than any other points in the United States. This country is now in a primitive stage of development, and a railroad would improve all interests. At present the railroads say the prospect of remunerative business is not good enough to justify building a road into the country, but the discovery of oil will change the aspect of conditions.

CHOATE GUEST AND ORATOR

England and America Can Not Quarrel He Said.

New York, Nov. 16.—Ambassador Choate was the guest of the Lotus club tonight at a dinner and reception given in his honor. The keynote of the speeches was the "friendliness existing between England and America and the desirability of its continuance. Mr. Choate expressed it by saying that whatever differences that may arise between the two countries will be harmoniously, honorably and amicably adjusted. He said:

"After all that I have seen in other countries it seems to me absolutely clear that the cardinal principle upon which American institutions rest, the absolute political equality of all citizens, with universal suffrage, is the secret of American success. Introduced by the comprehensive system of education which enables every citizen to pursue his calling, it puts the United States upon that plane of success which it has reached. It passes my comprehension how any man can go abroad and not return a warmer lover of the institutions of his native land."

Andrew Carnegie followed Mr. Choate, and referred to the way he came to be quoted as saying New York was "one of the best governed cities in the world," a remark that was brought in in the recent municipal campaign. A gentleman mentioned him for getting so much money from the city as New York. Mr. Carnegie replied: "Look at your

London, buying its water from companies whose shares were originally sold at only \$2100. Look how New York prepares for the future in the matter of parks? It takes a hand to do this. I don't care what party is in power. New York's progress is not to be impeded."

Fighting the Duty on Tea.

New York, Nov. 15.—The Tea Duty Repeal Association has just issued an appeal to wholesale grocers, jobbers and importers of the United States, urging them to co-operate in a movement to secure, if possible, the repeal of the war revenue tax on tea. In part this appeal says:

"The Tea Duty Repeal Association has been formed for the purpose of giving organized expression to the strong sentiment throughout the United States in favor of the repeal of the tax of 10 cents a pound on tea. The tax was imposed as a Spanish-American War revenue measure, so that there is absolutely no reason for the continuance of this onerous and grossly unjust burden. It is a matter of common knowledge that the tax (which amounts to 75 to 80 per cent on the average) has proved unreasonably burdensome to merchant and customer alike."

Attractive Women.

All women sensibly desire to be attractive. Beauty is the stamp of health because it is the outward manifestation of inner purity. A healthy woman is always attractive, bright and happy. When every drop of blood in the veins is pure a beautiful flush is on the cheek. But when the blood is impure, meanness, bad temper and a sallow complexion tell the tale of sickness all too plainly. And women today know there is no beauty without health. Wine of Cardinal cures women with beauty and attractiveness by making strong and healthy those organs which make her a woman. The Wine of Cardinal is a woman's friend. Your friends will hardly know you.
