

THE SCHOOL LIEU LANDS.

The East Oregonian hopes that the state administration will not neglect to clear up the rumors that pass over the country regarding the alleged scandals in connection with the school lieu lands. Charges are made by persons who are worthy of credence, that what amounts to \$2 an acre is exacted from all who are given the privilege of buying these lands, and that it is virtual robbery. Anyone can see the possibilities of the state land commissioner's official power in this matter, and that people have been compelled to pay this extra \$2 an acre before they could purchase state school lieu lands is not right. It is no wonder that charges of corruption attach to the administration of that office. Governor Geer cannot afford to ignore the subject. He is in a position to cause close investigation, and this he should do. He is a candidate for re-election, or for renomination. Before he again stands for that office, he ought, in all good conscience, to purge his administration from charges such as those now being made. The people of the state will watch with deep interest his course of conduct in the matter. They will wonder if he do nothing, and if all be well at the state school land office, then he will strengthen himself and his record will be brighter if he repel with proof and argument the allegations that are made against him and his appointees. It is to his interest that the matter be thoroughly investigated. He should order careful inquiry, and see that everything connected with the land matters at Salem be opened up to the gaze of the public, and if wrong have been done, then punish the wrong doers. If not, then hurl back into the teeth of all accusers the defense of an honest man with clean hands and white record.

When the East Oregonian talks of persons having to pay \$2 an acre for lieu lands that the state of Oregon gets \$1.25 an acre for, and no more, it talks in the guileless simplicity of a child. THE CHRONICLE can, at any time, furnish Governor Geer with the names of gentlemen in Wasco and Sherman counties who have been compelled to pay \$4 and \$1.25 for the same lands that the state is authorized to sell for \$1.25; the difference going to middlemen, the chief of whom, presumably, as in Penneyer's time, are men in the pay of the state at Salem. If Governor Geer, as well as the East Oregonian, doesn't know these facts he can know them any time he wants to.

Of course we want a change. The country is altogether too prosperous. Employment is too plenty, wages are too high and the reward of human effort in every department of business activity is making the American masses ridiculously rich and contented. The present infernal tariff laws, under which we have suddenly risen to be the greatest exporting country on earth, ought to be repealed. We ought to give other folks a show. Charity ought never to begin at home. Of course not.

Brain Food Consensus.
Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. C. Green's reliable remedies at Blakeley's drug store. Get Green's Special Almanac. 1

Located by Vision.
Portland, Aug. 16. (To the Editor).—Homer de Morrison, occultist, located by vision the billion stolen from the Selby Smelting Works. In behalf of occult science he immediately communicated by letter the facts to Mr. A. J. Ralston, owner of the Selby Works. The reports received last night prove his statements correct.
MRS. FRANCIS PARTLOW.
"It is pleasing to be assured that the gold stolen from the Selby Smelting Works was located by vision" by a Portland occultist. This proves that the story of the confession of the thief and that his assistance was required in recovering the gold was a base California invention for the purpose of depriving Oregon of just glory."—(Editor Portland Oregonian.)
