THE SHIP SUBSIDY BILL

Frye Gives Notice That He Will Press It at the Coming Session.

Boston, Nov. 22.—The chief guest at a banquet given by the Commercial Club at the New Algonquin Club tonight was Senator William P. Frye, of Maine. His address was upon "National Legislation Concerning Steamship Subsidies and New England's Interest in the Country's Increasing Foreign Commerce." He said in part:

"Our country is great, prosperous and powerful. For a few years it has moved forward with the strides of a young giant and today ranks with the foremost nations of the world. This result has been attained under the policy of protection. Nearly every industry has been protected and has prospered. One alone has been handicapped by adverse legislation at home and protection of its competitors abroad, namely, our ships engaged in foreign trade. The theoretical free trader ascribes the condition to our policy of protection. It is not protection which has harmed, but the entire lack of it, the compelling of our ships to compete with those of other maritime nations protected by subsidies, by much lower wages in shipyards and on ships and by a less expensive manner of living.

"There are some Americans utterly devoid of sentiment or of patriotic impulse, who can travel the world over and without regret never see the Stars and Stripes in any foreign port. They say, 'Why not employ foreign ships to carry and foreign agencies to find markets for our surplus products if they will do it cheap? Do they suppose that such agencies will have the slightest interest in extending our trade?'"

"During the congress about to meet I shall persist in my efforts to secure legislation for our merchant navy, and I bespeak for such attempt the support of the business men of Boston."

Arms Among Her Cargo.

New York, Nov. 22.—The precise circumstances which have induced the customs authorities to detain the steamer Banrigh in the Thames are now known, says the Tribune's London correspondent. Parts of field guns were found

among her cargo, and it has been argued that they were to be sent to the Transvaal. The documents in the possession of the customs authorities show, however, that the vessel was destined to take an active part in what is described as the resolution between two South American states, with which England is at peace and the officials, recalling the Alabama case, detained the vessel under the foreign enlistment case.

Von Hatzfeldt is Dead.

LONDON, Nov. 22.—Count Von Hatzfeldt-Wildenburg, who a few days ago retired from the post of German ambassador of Great Britain, died at the embassy this morning.

Count Von Hatzfeldt returned from a holiday six weeks ago, and since that time has only been able to leave his house once or twice, and then in a bath chair. He suffered greatly from asthma, and on Sunday his malady developed into congestion of the lungs. From this attack Count Von Hatzfeldt never rallied, but died peacefully this morning in the presence of his wife and son.

He was conscious up to last night, when he received the last sacrament of the church and then lapsed into a state of coma. His body will be buried in the family vault in Germany.

Lynch is a Winner.

New York, Nov. 22.—Commenting upon the election of Mr. Arthur Lynch over Mr. Plunkett, in the parliamentary election at Galway, Ireland, the London correspondent of the Times says:

"Arthur Lynch, who has been elected to parliament from Galway, led the so-called Irish contingent against the British flag in South Africa. It seems impossible that he should attempt to come to England to take his seat. He is a handsome, young Irishman, impulsive, emotional and sentimental. The apparent indisposition of the London press to make light of his South African venture is suggestive."

Favor Annexation of Cuba.

New York, Nov. 22.—Francisco Gamba, president of the Cuban commission sent by the merchants, business men and agricultural associations of Cuba to the United States with petitions for the improvement of relations between the two countries, has just been interviewed on Cuban affairs. When asked if it was his opinion that the United States should annex Cuba, he said:

"As a member of this commission, representing all classes and political

parties of Cuba, I do not feel myself at liberty to express an individual opinion. But, were you to say that 90 per cent of the business people and property-owners of Cuba favored annexation, you would be correct."

Important Patent Granted.

BOULDER, Colo., Nov. 22.—Dr. William Duane, professor of physics at the state university, has just been granted a patent for an invention by which a large number of telegraph messages can be sent over one wire and each return at the same time. In the physical laboratory at the university, it is said, he has had as many as eighteen circuits working on the same wire and return all at the same time. On any of these circuits the Morse instrument can be placed and used exactly as with the single wire now in use.

Mr. Duane's invention is based on the principle of synchronizing motors.

Riots in Athens.

ATHENS, Nov. 22.—The turbulent development growing out in the proposal to translate the gospel into modern Greek were continued today in the streets, especially in front of the chamber of deputies and before the university. There were many ugly rushes. The militia are finding difficulty in controlling the rioters.

The meeting of the chamber of deputies today was marked by a series of violent altercations.

Woolgrowers Organize.

ONTARIO, Or., Nov. 23.—Organization of the Malheur and Harney County Woolgrowers' Association was effected here yesterday. Thomas Turnbull was elected president and E. H. Test, secretary and treasurer. Hereafter the wool of these two counties will be controlled by this association, and auction sales will prevail. Heretofore the wool has

been held here for months until the buyers could be given their time to look into the matter.

Grover Cleveland Ill.

TRENTON, N. J., Nov. 23.—Reports come from Princeton, N. J., that ex-President Grover Cleveland is ill at his home at that place. Mr. Cleveland recently returned from a gunning trip, was taken ill with a chill, and was threatened with pneumonia. Inquiry tonight elicited the information that he was very much improved. His condition is not believed to be dangerous.

Fighting Against Boers.

New York, Nov. 22.—According to the London representative of the Tribune, the Standard's South African correspondents are authority for the statement that General Andries Cronjé, a brother of the famous Boer leader now a prisoner in St. Helena, is among the ex-Burgers who are enlisting men against their former companions in arms and in favor of the British.
