CONGRESS CONVENES

Our Lawmakers Take Up Their Important Work—Large Crowds of Spectators Attend Opening Session.

WASHINGTON, Dec. 2.—The opening of the first session of the fifty-seventh congress at noon today drew to the capitol a great throng of spectators, eager to witness the scenes of animation which mark the annual reassembling of the National lawmakers. Although the actual work of the two houses was not to begin until 12 o'clock, the historic old structure, now refurbished from end to end until it shone with marble, gilt and rich decorations, was astir long before that hour.

It was an ideal day to bring out the public, sunny and warm, with just enough breeze from the south to lazily stir the flags over the Capitol, some of which were raised for the first time since the adjournment of congress nine months ago. There were no entrance restrictions and the crowds flowed uninterruptedly into the building. Many ladies were in the throng, including the wives and families of senators and members, as well as many of the feminine representatives of the cabinet, diplomatic and executive circles. Senators and members began arriving early in the day, and there was the usual handshaking among old friends and informal talk of the work ahead.

The veteran senator from Iowa, Mr. Allison, was one of the first to reach the senate wing, and resume his work as chairman of the committee on appropriations.

Senator Jones, of Arkansas, the democratic floor leader in the senate, was another early arrival, and had a circle of his democratic colleagues in the cloak-room discussing the session's programme. Speaker Henderson did not reach the house wing until shortly before the session opened, and remained in the private room of the speaker conferring with members during the formalities preceding his re-election as speaker.

Sheriff Attached a Train.
GUTHRIE, O. T., Dec. 2.—Saturday's westbound Choctaw passenger train was attached by the sheriff of Parkburg, Okla., and detained until a judgment of \$79 was satisfied. When the engineer was about to leave the station, he found that his engine was prevented from continuing on its journey because of a log chain which had been fastened to it by the sheriff. A discharged employe had secured the attachment. H. E. Yarmen, treasurer of the road, was in his private car at the rear of the train, accompanied by a party of Eastern friends. After parleying with the determined sheriff for about half an hour, Mr. Yarmen paid the judgment, then the train was released.

He Was Undoubtedly Guilty.
An old negro named Ephraim, having been sworn on the jury in a murder trial in one of the southern states, for some time stubbornly resisted a verdict of guilty for no other apparent reason than his aversion to capital punishment in general. Finally the foreman explained to him that it was a question either of hanging the prisoner or hanging the jury, and that it all depended on him. "Fo' Gawd, sub," replied Uncle Ephraim, "on dem reasonments de pris'nar am sho' guilty."—Chicago Chronicle.

Reliable as Heat Rumors.
Dykerheights—I hear Miss Peachblow held a party last night.

Bensonhurst—You are slightly misinformed. Miss Peachblow only had a single caller last night, and I was that party. It was a case in which the party held Miss Peachblow, not Miss Peachblow the party.—N. Y. Journal.

Bills Moody Will Introduce.

WASHINGTON, Dec. 2.—Representative Moody will re-introduce the double minimum land bill upon which he secured a favorable report at the last session, also a bill for an assay office at Baker City, and a bill to dispose of the uncolored portion of the Umatilla reservation. He expects to introduce a bill enlarging the Portland postoffice after consulting the supervising architect as to the possibility of enlarging on the plans that had his endorsement at the last session. As soon as the data called for by the senate resolution are obtainable, Mr. Moody will introduce a bill for the relief of the Dalles military wagon-road settlers. Mr. Moody expects to assist his colleague in the rivers and harbors committee in securing liberal appropriations for the Columbia river, and hopes the committee will indorse the canal project for overcoming the obstructions at Celilo and the Dalles.

He will take an active interest in land legislation with a view of securing assistance in that direction for Eastern Oregon. He says that if no general policy is adopted, he feels confident of securing, through the geological survey, a continuation of topographical surveys made last year in Baker county into Grant, Harney and Malheur counties and hopes to have a few experimental artesian wells sunk in the semi-arid sections of his district.

Test of Submarine Boat.

NEW YORK, Dec. 2.—The Holland submarine torpedo-boat Fulton still lies at the company's tuning up plant at New Suffolk, L. I., where the recent 15-hour test was conducted. She would have started for Washington last week, where she is to spend the winter, but her departure was postponed to give a trial for the benefit of a representative of the Norwegian government. The Fulton is to make the trip to Washington by the outside route and have a test of her seaworthiness for deep-water runs, using her own power only. She will be accompanied probably by the company's yacht Gisela or a tug.

Livestock Show Open.

CHICAGO, Dec. 2.—The International Livestock Exposition was formally opened here tonight before an appreciative throng that crowded the amphitheater. Mayor Harrison, Secretary Wilson and Governor Yates spoke. A parade of prize-winning horses and a concert preceded the speechmaking. Mayor Harrison delivered the address of

welcome. Secretary Wilson was greeted with loud applause.

His remarks were largely on the importance of the cattle business in the United States. He said that while the cattle exports from this country were worth \$8,000,000, the great market was at home, among our own people, and under our own flag. "The horse," said the speaker, "is with us tonight, and he will be with us through the ages when the automobile and bicycle are in the junk pile. No man ever rode a bicycle who had owned a horse; no man would own an automobile who understood the beauties of the horse." The audience was still applauding when Governor Yates arose and bade the visitors to the show and to the convention of the National Livestock Association welcome to the state.

Americans Buy More Ships.

NEW YORK, Dec. 2.—According to the *Fritons'* correspondent a rumor is current in Liverpool to the effect that another shipping deal, involving the sum of \$8,000,000, is under negotiation. American interests are, it is said, about to take over the large shipping business of Samuel & Co., whose Shell Line of steamers, consisting of twenty-seven vessels, is well known. The Borneo and Eastern oil interests held by Samuel & Co. are stated to be included in the deal.

Aginaldo's Treachery.

LEAVENWORTH, Kas., Nov. 30.—A letter received at Fort Leavenworth says General Chaffee has recommended that Aginaldo be brought to this country. It is stated that he has been detected in carrying on a treasonable correspondence and trying to stir up strife. Aginaldo is a close captive, but advice received here says Chaffee believes the leader's presence in the islands is responsible for the insurgents' recent activity.

Agreement Reached.

COPENHAGEN, Dec. 2.—A full agreement has been reached between Denmark and the United States for the sale of the Danish West Indies. The treaty will probably be signed this week at Washington. The price fixed is between four and five million dollars.

An Evangelist's Story.

"I suffered for years with bronchial or lung trouble and tried various remedies but did not obtain permanent relief until I commenced using One Minute Cough Cure," writes Rev. One Minute Cough Cure affords immediate relief for coughs, colds and all kinds of throat and lung troubles. For croup it is unequalled. Absolutely safe.
