## ON HER DRESS-ING TABLE

"Every sensible woman understands that duty to herself demands that she keep herself young and attractive as long as possible. The time has long gone by when women were content to drift into premature old age while there remained a chance of prolonging freshness and beauty. Complexion, eyes, hands, teeth and hair should be scrupulously cared for, particularly the latter, and no pains should be spared to aid nature in retaining a beautiful head of hair. A preparation for retaining and giving a beautiful head of hair is now being introduced in this country and has the strongest merits of any which I can recommend. Should the scalp be in a bad condition, the hair falling out, brittle and harsh in character, or if you have dandruff and your hair is turning gray, I should use this excellent treatment "Arieto Hair Food" which has wonderful hair growing properties and acts upon the poor dried-up scalp in such a way that it rapidly regains its normal health, leaving the hair in a soft, fine condition. Within the first ten days the hair will cease falling, dandruff will disappear and in an incredible short space of time a new growth of hair will return."—Mme. Corinne in July's Vogue.

Arieto is the name of the most powerful and effective hair and scalp preparation on the American market today. Thousands use the name Arieto on other kinds of goods but there is only one kind of Arieto Hair Food and to convince those that have thrown away good money on so called hair tonics and have received no benefit therefrom, Professor Bertell, representing the Arieto Hair Food Co., will give free scalp treatment and teach you how to preserve your hair free of charge and convince the most sceptical that Arieto Hair Food is the only true hair and scalp preparation. Thomas Kelly residence, hours 9 a. m. to 5 p. m. For sale exclusively by the Postoffice Pharmacy, Clarke & Falk, proprietors.

### Danish West Indies.

New York, Dec. 9.—A dispatch from Copenhagen to the London Times and New York Times says the economic situation in the Danish West Indies is bad owing to the fall in the price of sugar, but St. Thomas has an excellent harbor which would be strategically and commercially valuable to the United States.

It is significant, says the correspondent, that in 1867 the United States offered for the two smallest islands nearly double the sum now offered for all three.

The Danish party which is opposing the sale points out that it would be unwise to sell the best harbor in the West Indies just when the isthmian canal is about to be built, but the majority of Danes have only agrarian interests and have therefore no special interest in retaining the islands.

### Fish Hook Poisoned Him.

New York, Dec. 9.—Father William J. O'Kelly, rector of the Catholic church of Our Lady of Good Counsel, is reported at the rectory attached to the church as dying from blood poisoning. While at Rockaway beach several weeks ago Father O'Kelly carelessly handled a fishhook which entered his thumb. A little later it was discovered that blood poisoning had developed, and that it would be necessary to amputate the thumb.

Father O'Kelly protested against the amputation, stating that if his thumb were removed he would be unable to celebrate mass, his church requiring that priests shall not be maimed. At his earnest request it was postponed until it is feared that the operation took place too late to save his life.

### Saved Cut in His Heart.

St. Louis, Dec. 9.—A case that is interesting local physicians is that of Eli Daniels, a patient at the city hospital, who is convalescing from an operation of the heart. Daniels is a negro constable about the steamer City of Chester. He was stabbed in the heart at Chester, Ill., and Dr. H. L. Nietert, superintendent of the city hospital, where Daniels was taken twenty-four hours after being cut, sewed up the wound, taking several stitches, and the patient is now well on the road to recovery.
