

TO SUPPRESS ANARCHY.

Congressman Ray, of New York, has introduced in the House a bill to suppress anarchy. The fact that Mr. Ray is chairman of the House judiciary committee and also chairman of the sub-committee on anarchy, to which committees all measures on this subject have been referred, gives currency to the belief that his bill will be reported favorably to the House for discussion and form the basis for legislation against anarchy.

The second section of the bill provides penalties for the spread of anarchy by teaching or advising the right or duty to assault, injure or kill the president, declaring that such doctrine should be considered a felony punishable by imprisonment for from ten to twenty years.

A foreigner convicted of any of these crimes shall be deported after his term of imprisonment.

A jail sentence of from one to five years is provided for persons convicted of advocating or teaching disrespect for organized government.

The bill closes with a section applying the same penalties to persons who shall, within the jurisdiction of the United States, conspire against the lives of foreign sovereigns.

The special committee on anarchy will take up the bill immediately after the holiday recess.

SAME THING OVER AGAIN.

Secretary Long has approved the findings of Admirals Benham and Ramsey and has practically disapproved of the findings of Admiral Dewey. He agrees with the majority of the board that Schley's conduct was "characterized by vacillation, dilatoriness and lack of enterprise;" that the commodore did not move with dispatch and failed to maintain effective blockades; and that the matter of command at the battle of Santiago is something that has not been brought into question.

This action throws the controversy back to where it was three years ago. The navy department discredits Schley while the majority of the people support him, and are backed by the hero of Manila. It is not clear that anything more may be done officially. The department has practically declared the incident closed.

So far as Schley is concerned, about all he can do is to leave his reputation with the American people, who have pretty generally expressed their opinion of his conduct in the Cuban campaign. The country and the world at large will accept the Dewey verdict as one that properly covers the matter, and this was a distinct acquittal.—Spokesman Review.

Christmas brought this year a lavish wealth of prosperity and good cheer, and bleaded with these bless-

ings were good health, peace and kindly weather. Yet something was lacking—the usual winter setting—a snowy landscape, stars gleaming through a frosty air, and the merriment of sleighbells. For Christmas is never so delightful as when ushered in with a dash of wintry weather. It is essentially a festival of the northland, and through all literature pertaining to the sublime festival is heard the voice of the north wind and the song of the hearthfire. The home lights are never so precious as when they gleam out on a snowy landscape; the bells ring never so cheerily as when their vibrations roll afar upon a frosty atmosphere.

A Berlin paper wants Uncle Sam to interfere in the Boer war and to march on Canada. It is as kind as the patriot who was willing that his brother-in-law should enlist in the army.

The poet, who wrote that he hated the hollow sounding drum, may have had experience in a household where the small boy received a drum as a Christmas gift.

Health and Beauty. A poor complexion is usually the result of a torpid liver or irregular action of the bowels. Unless nature's refuse is carried off it will surely cause impure blood. Pimples, boils and other eruptions follow. This is nature's method of throwing off the poisons which the bowels failed to remove.

Attractive Women. All women sensibly desire to be attractive. Beauty is the stamp of health because it is the outward manifestation of inner purity. A healthy woman is always attractive, bright and happy.
