## HENRIETTA SUNK IN ASTORIA HARBOR

Went on a Reef and Sank to the Bottom—Anchors Forced Through Vessel's Hull—Captain Blames the Tug Wallula for Disaster.

ASTORIA, Dec. 27.—The French bark Henriette, laden with redwood lumber for England, toppled over in the upper harbor last night, and this afternoon is nearly submerged, only the tops of her masts being above water edge at high tide. There is a hole in the vessel's bottom, but the extent of the damage has not yet been definitely ascertained.

The Henriette arrived down the river several days ago and was taken to anchorage just east of the O. R. & N. docks. During the storm of Christmas night she dragged her anchor, drifting to a point near shore. As the bark drew very little water, there was no concern for her, and she was immediately towed back into deep water.

Last night the tide was very low, and about 10 o'clock the Henriette grounded. Fearing she would capsize when the tide fell still further, the captain sent for a tug, and Captain Keating went to his assistance with the Eagle, taking the crew ashore. The captain remained aboard, a skiff having been provided for him.

As the tide fell, the bark settled either on her own anchor or on a rock. A hole was stove in her bottom and she began to fill at once. By midnight there were three feet of water in the hold. As the water came up in the vessel's hold she slipped out into greater depth, and before daylight was hull down in water. She rests on an even keel upright. The owners have been communicated with, but pending the receipt of advice from them, nothing will be done.

### Railways Will Reduce Their Rates.

ST. PAUL, Dec. 27.—The Northern Pacific will soon announce a revision of its present freight tariffs covering the territory between St. Paul and the Pacific coast, and establishing through rates. Similar tariffs covering the territory between St. Paul and the Pacific coast and establishing lower through rates will be announced at the same time by the Great Northern.

Northern Pacific freight clerks have been at work on the revision for more than two months. It is stated semi-officially that the important feature of the new tariffs will be the removal of discriminations that have gradually grown for several years, and radical changes, especially in local rates, that will adjust many subjects of complaints from shippers. The new Great Northern tariffs will be constructed on similar lines. Both roads it is asserted, will make voluntary reductions in rates, based upon the increased earning capacity of their lines and the growth of revenue.

### Declares That God Restored His Sight.

NEW YORK, Dec. 27.—Religious circles in the city are interested in the announcement by Rev. Dr. Charles M. Herald, pastor of the Bethesda Congregational church, Brooklyn, who was recently attacked with blindness while in the night, that he had recovered. Dr. Herald appeared at the council of Congregational ministers at the Emmanuel Congregational church, called to sanction the resignation of the Rev. Dr. E. P. Ingersoll, who had accepted the position of secretary of the American Bible Society.

In speaking of his recovery, Dr. Herald declared that God had restored his sight. He said:

"When the surgeon performed the operation he said there was no hope of my eyes recovering the sight. I then fought the battle, the most stubborn and most trying battle I have ever known in my 18 years' experience as a preacher of the gospel. The enemy of my soul then appeared and looked at me, saying: 'How do you believe that the grace of God is sufficient to recover your sight?' 'I believe that God will do what He pleases.' 'I believe that God will do what He pleases.' 'I believe that God will do what He pleases.'"

## OPENING THE COLUMBIA

The Dalles Celilo Project in Better Favor Than Ever—Portage Road Plan is Unsafe—If Urged Too Persistently, Congress May Recognize Only the Latter Scheme.

WASHINGTON, Dec. 27.—The necessity for permanently overcoming the obstructions in the Columbia river between The Dalles and Celilo is generally recognized and acknowledged, both by engineer officers and by members of the rivers and harbors and commerce committees, and the canal project of Captain Hart is regarded as by far the most sensible scheme yet proposed. It is now out of the question to get further consideration for the old boat railway project, the choice therefore resting between the canal and a portage road.

After a careful canvass of the situation among the engineers and members of the committee handling the rivers and harbors bill, it is concluded that to carry out the suggestion of the Portland Chamber of Commerce, asking for a portage road while a canal is being built, would be an unwise, if not a very unsafe step. If these committees see that the delegation will favor a portage road under any considerations, they are likely to take a diplomatic way to place them in the position of accepting the portage road or nothing and it is feared that if the portage road is asked for in addition to the canal, the portage road, and not the canal, will be recognized. It is pointed out that probably both committees would consent to the insertion in the bill of provisions for the canal and portage road, but when the bill goes to conference, the provision for canal and locks would be stricken out and the portage road alone would survive. If this is done there is little probability that an appropriation for the canal could be had for many years to come, as the opinion yet prevails in some sections that the commerce of the upper river does not warrant the expenditure of \$4,000,000 on a canal.

Yet engineers and many members of the committees have come to realize that a canal only can fully develop the commerce of the Upper Columbia and Snake rivers. They admit that a portage road would not develop this commerce to such proportions as a canal, and that the only way to develop that commerce is to construct the canal. There is also a most general realization of the necessity for a water outlet from the great inland Empire, as pointed out in the memorial of the Portland chamber of commerce.

Generally speaking, the Dalles-Celilo project now stands in better favor than ever before, but there is unquestionably danger in urging a portage road project simultaneously with the canal.

### Depew Is Married.

NICE, Dec. 27.—The civil ceremony of the marriage of Senator Chauncey M. Depew and Miss May Palmer took place at 3 o'clock this afternoon in the United States consulate. The bride's witnesses were Baron von Andre and Baron de Cantalane. The bridegroom's witnesses were James Gordon Bennett and Count Sers.

Among others present were Mrs. Palmer, Countess de Sers and Baroness von Andre.

Senator Depew was in excellent health. The bride was charmingly dressed.

The bride, being a Catholic, there will be two religious ceremonies. The first will take place at Notre Dame and the second at the Episcopal church, at 11 o'clock in the morning and at noon tomorrow, respectively, when bluejackets from the United States cruiser Albany will form a guard of honor.

### Swallow Dead.

CAMDEN, N. J., Dec. 27.—United States Senator William J. Sewall died at his home here at 9:30 a. m. today. He suffered from diabetes, complicated with stomach and heart trouble.

## A. M. WILLIAMS & CO.

### Brain Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutrition is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. C. Green's reliable remedies at Blakeley's drug store. Get Green's Special Almanac.

### Your Face

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, Pimples and Skin Eruptions. If you are feeling weak and worn out and do not have a healthy appearance you should try Acker's Blood Elixir. It cures all blood diseases where cheap Sarsaparilla and so called purifiers fail; knowing this we sell every bottle on a positive guarantee. Blakeley, the druggist.

When your hair appears dry and to have lost its vitality it wants something to give it life and vigor. We have what the hair needs when it gets in that condition. We have the Crown of Science Hair Grower and Coconut Cream Tonic. They will cure dandruff and all scalp diseases. For sale at Fraser's barber shop. Price 50c and 75c a bottle.

### Of Benefit to You.

D. S. Mitchell, Fulford, Md.: "During a long illness I was troubled with bed sores, and advised to try Dr. Williams' Pink Pills. I was perfectly cured. It is the best cure on the market." For sale at Fraser's barber shop. Price 50c and 75c a bottle.

**Miller's Photos Never Fade.**

### Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boechae's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. C. Green's reliable remedies at Blakeley's drug store. Get Green's Special Almanac.

### Information Wanted.

The manufacturers of Banner have always believed that no doctor or medicine can cure in every case, but never having heard where Banner had failed to cure croup, sore, tetanus, eczema, or piles, as a matter of curiosity would like to know if there are such cases. If so they will gladly refund the money. Clarke & Falk.

### A Ragged, Hearing Fisted.

Washed down a telegraph line which Chas. O. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had Consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all throat and lung troubles by G. C. Blakeley, the druggist. Price 50c.

During the next two months Louis Comial will sell every monument in his yard at a discount of 20 per cent below regular price. The monuments must be sold as he needs the money to pay his debts. 431-44

Final notice will also be given concerning the estate of the late J. J. Williams.

## THE CELEBRATED COLUMBIA BREWERY

AUGUST BUEHLER, Prop.

Of the product of this well-known brewery the United States Health Reports for June 15, 1900, says: "A more superior beer never entered the laboratory of the United States Health reports. It is absolutely devoid of the slightest trace of adulteration, but on the other hand it contains the best of malt and alcohol of hops. Its tonic qualities are of the highest and it can be used with the greatest health and satisfaction by old and young. Its use can conscientiously be recommended by the physician with the certainty that a better, purer or more wholesome beverage could not possibly be found."
