

MID WEST MORALS ENGROSS REFORMERS

"BLUE MEN" WOULD KNOCK OUT MOVES, DANCES, MEDICAL BEER

By Alexander F. Jones
(United News Staff Correspondent.)
CHICAGO, April 2.—The West, plodding along in its stupid, provincial way raising corn, and babies, has not been paying a darn bit of attention to its morals.

The West does not even know that there is a moral crisis in these United States.

Why, people in Kansas City, it is said, go to the movies and laugh right out loud at the most vulgar antics of certain unmentionable persons.

Young girls in Sioux City have been seen dancing, it is reported, in public dance halls, with young men they did not even know 10 years ago.

And as for Milwaukee—although this is unconfirmed gossip—it is stated on highest authority that persons there who claim to be respectable citizens intend to take undue advantage of the expected ruling on "medicinal beer" by feigning physical distress.

Within a fortnight, however, these conditions, which are causing civilization to totter on its throne, are to be changed.

A flying squadron of famous eastern reformers, headed by Dr. Wilbur F. Crafts, Washington, D.C., executive leader of the international reform bureau, arrived in Chicago Thursday, conferred, and scattered to the North, East, South and West, to educate the folks in the hinterland.

By the time congress convenes, Dr. Crafts declared, "the west will be aroused to the moral issues at stake." Senators and congressmen will be flooded with telegrams from the west asking passage of reform measures.

"First we want to arouse the people to the vicious possibilities of this 'medicinal beer' ruling," said Dr. Crafts. "We will have a bill ready for the opening of congress, asking for the amendment of the Volstead act to make medical dispensation of beer impossible. I have been advised that this beer ruling will be ready by April 11 and we want the people to know what this portends."

Then the reformers will instruct the middle west and far west about the vicious tendencies in the movies.

"We have our bill all ready for the opening of congress that will provide for federal regulation of the movies," said the doctor. "It provides that all producers of motion pictures shall be licensed and that they will not get a license until they agree to our 14 points governing subject matter. There were 13 points we insisted on, but we have heard that Clara Smith Hamon is intending to get into the movies and so we added a provision stopping her and everyone like her. Our bill prohibits all pictures being put in interstate commerce showing sex appeal, white slavery, illicit love affairs making virtue odious and vice attractive, bedroom scenes, prolonged expressions of passionate love, underworld pictures of crime and vice, derision of religion and law, or the featuring of notorious persons."

To be sure that the west knows what is a good picture and what is a bad one, the reformers will send "recreation commissioners" into the cities who will make secret reports on all picture houses showing risqué films. Then a report will be made and the city informed of its infamous conditions. Dr. Crafts said that the secret investigations put each town on its guard.

"Then we want your people to know our plans to get a constitutional amendment on divorce through this congress," he said. "The amendment will make the divorce laws of the country uniform. No person will be able to get married while intoxicated. A week's notice will be necessary before marriage."

Besides this the West will be educated on the proposed prohibiting race track result being carried interstate and since from the interstate gambling machines and further restrictions on the use of dope.

"We must arouse the importance of these things," said the reformer. "We start agitations for the abolition of public dance halls."

"Will you attempt to orderly governed dance halls?" asked.

"No; dancing is unbecom- should not be indulged in."

the privacy of the home or among old friends at a home party," he said. "Our recreation commissioners are going to appear before municipal organizations to tell of the benefit of public reading classes and other educational pursuits. Most people don't know what recreation is. They think they are enjoying recreation when as a matter of fact, they are dissipating."

Brown's Dufur Stage Time Table
Two round trips daily. Leave Bank hotel, 9 a. m. and 4 p. m. Leave Dufur 7:30 a. m. and 1 p. m.

TOMORROW AT THE CHURCHES

CHRISTIAN SCIENCE SOCIETY—Seventh and Case streets. Services 11 a. m. Sunday and 8 p. m. Wednesday. Reading room maintained by the society in room 507 First National bank building is open to the public daily, except Sunday, from 8 a. m. to 6 p. m.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system, thereby destroying the foundation of the disease, giving the system strength by building up the constitution and assisting nature in doing its work. The promoters have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials, address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, Etc.

colle University, Forest Grove, will address the club.

UNITED BROTHERS CHURCH—Elm and G streets. Sunday school, 10. Morning service, 11. Subject, "The Greatest Bible Preacher." Reception of members. Junior Endeavor, 3 p. m. Intermediate Christian Endeavor, 6:20 p. m. Witnessing service, 7 p. m. Evening worship, 7:30. Subject, "The Good Samaritan." Conference Superintendent, The Rev. G. E. McDonald, speaks morning and evening. This will be the climax of the revival services. Rev. G. K. Hartman, pastor.

CALVARY BAPTIST CHURCH—Union and Seventh. Regular preaching services, 11 a. m. and 7:30 p. m. Short interesting gospel sermons. Bible school meets at 10 a. m. B. Y. P. U., 6:30 p. m. Rev. John L. Bogue, pastor.

GERMANY IS DUMPING GOODS IN BELGIUM

By R. M. Sheffield
(United Press Staff Correspondent)
BRUSSELS, (By mail).—In a formal note addressed to the Belgian government, the Belgian Federation of Contractors charges Germany with perfecting a gigantic system of dumping. This is declared to be so formidable that no industry outside of Germany can fight against it unless determined and rapid action is taken at once.

It is further charged that the whole financial power of the German state has been placed at the disposal of German industries, enabling German firms to grant the most liberal kind of terms in the way of long time credits. This is protection the Belgian contractors declare.

This incident arose between the Belgian government and the Belgian Federation of Contractors, when the government recently accepted a German proposal to supply rolling stock for the Belgian State Railways.

Incorporated in the protest is a denunciation of governmental policy in ordering German goods at an apparent savings of 18,000,000 francs when it is declared, Belgium will in the long run stand to lose 21,000,000 francs by reason of unemployment and so on.

The protest declares it is a false policy to consider solely and wholly the mere question of lowness of price and quickness of delivery and makes a plea for governmental assistance for strictly national industries, now suffering from scarcity of foreign orders, thereby making local business all the more valuable.

By awarding governmental orders to a foreign country, the protest points out, Belgium is deprived of a valuable source of revenue at a time when it is badly needed.

GAME LAW PROVISIONS

For the benefit of many persons who are not familiar with the new fish and game law, as passed by the last session of the state legislature, The Chronicle prints a brief resume of the law as it affects the district, east of the Cascade mountains:

Trout over six inches—April 15 to November 30. Bag limit, 30 fish or 20 pounds in one day, and 60 fish or 40 pounds in seven consecutive days. Un-

lawful to have more than 60 fish or 40 pounds in possession at any time.

Catfish, crappies, perch and sunfish—open season all year. Bag limit, 30 fish or 20 pounds in one day.

Bas—June 15 to April 15 of following year. Bag limit, 30 fish or 20 pounds in one day, and 60 fish or 40 pounds in seven consecutive days.

Yanks—January 1 to October 15. Can be taken in Wallowa Lake and tributary streams only.

HIGH SCHOOL COMMERCIAL DISPLAY IS NOTEWORTHY

The commercial students of the local high school are putting on a remarkable display in the windows of the Wasco County bank and Donnell's drug store, showing the work they are doing in bookkeeping, stenography, and business law.

The work that the student is now doing is placed beside that done at the beginning of the year, bringing out by forceful contrast the improvement made. The bookkeeping and stenography exhibits are the finest of their kind and have excited considerable comment among local business men.

The display is representative of the general work being done in the business department, according to B. E. Tatro and Edith M. Bugger, teachers. Mr. Tatro has been teaching commercial work in the high schools of the state for eight years and is recognized as a leader in his profession. He aims to teach more than the mechanics of the machine and pen. Loyalty, honesty, and force of character are first essentials to business success, he believes, and at regular times the click of the typewriters is silenced and pens are laid aside, while attention is called to the importance of character and loyalty in business.

Notice To The Public

We are now operating a Columbia river motor ferry regularly between Grants, on the Columbia river highway, 20 miles east of The Dalles, and Maryhill, Washington.

Running regularly between 7 a. m. and dark. Special trips may be arranged for at all hours.

This is the best route to Goldendale from points in Oregon. The roads between The Dalles and Grants are in good condition, and the road between Maryhill and Goldendale is paved.

tion of the Einstein theory of relativity with a scientific scenario prepared by a group of internationally famous scientists.

Quite lucidly this graphic reel explains the complex reasoning of Professor Einstein for the enlightenment of the average lay mind. There are many animated drawings alternating with natural photographs, illustrating the complicated movements of the planets, lights and atmospheres. All the stock tricks of the studio are requisitioned to explain a theory which

the public has so far been unable to grasp from lectures or the printed page.

The only element which may be construed as exploitation of the sex appeal is that pertaining to the attraction of bodies, but as they are astral bodies, Professor Nicolai confidently hopes the censors will let this part of the production stand.
