COMMUNITY SERVICE

From time to time, certain schemes are put forward by good men to make the world's people better and happier. Indeed a history of life is a history of agencies tending to further human progress.

The church, lodges, social organizations, welfare movements—these are some of the uplift agencies which are refining the dross in human nature into the pure metal of worth.

Just now there has arisen a new movement to salvage humanity, a movement so remarkable in its scope as to be assured of success. It is the Community Service organization.

Community service goes into the several communities of the United States and directs the energy of people. The Community Service heads realize that men are not good or bad, but are mixtures of good and bad and that it depends upon the interests at hand which set of characteristics will predominate.

This organization emphasizes the do, eliminates the don'ts.

It realizes that men and women go wrong not because they are inherently bad, but because they have no interests. Give a man or a woman some wholesome interest to occupy the mind and that man or woman will become so wrapped up in what they are doing that he or she will have no time to do things which qualify for the downward route.

The Community Service emphasizes self development. One of the greatest crimes in the world, it seems, is the ignoring of latent forces in one's own being. God gave us these talents for use. They were not given to be wasted. He who wastes qualification, is guilty of a grave sin.

The Community Service organization takes into consideration the big fact that men and women go wrong very often from their own physical condition. A lot of physical steam and no safety valve on the human engine is dangerous. There is very likely to be an explosion and wreck.

So the Community Service takes this steam and works it off in healthful play. In this play, sportsmanship is taught, square dealing is acquired, courage is developed, strength is obtained. Often, too, the players become so proud of their splendid physical powers that they will do nothing to lessen their prowess. This means that they lead normal and wholesome lives.

But the very fact that the physical energy is directed and utilized in play precludes it being turned to evil account.

The Community Service organization through crystallizing the interest of any community upon one set of interests, levels factional lines and coalesces the community into a unit of action, thought, and friendship.

The Community Service movement is one of the finest things which has ever entered American life to make it better.

MONOGAMISTS

Let's consider the parrots. These almost human birds dwell in the tropic regions of the earth. In the cool of evening after the blazing sun has dashed below the horizon and night comes on swiftly, these beautiful birds make flight, through the sky, talking in a queer jargon and laughing shrilly. They fly two and two. Once in a

while one lone parrot wings his way. But the birds do not come in flocks. Two is the unit, male and female.

Observers declare that parrots do not change mates. Two start life together and fly side by side to the end of their days. They literally take each other for better or worse. Yes, and more—when one of the family dies or is killed, the surviving mate does not haste away in quest of another partner. No, to the end of his or her days, the bird flies alone.

The parrots teach us a true lesson in monogamy. It is refreshing at this time when there is so much clamor over divorce proceeding the ground for which is infidelity.

Evidently there are no Stillmans and no Stokes among the parrots.

—The Best Big Sister

LOOKING BACKWARD

(From The Chronicle, April 9, 1896) Mr. August Buchler is now boring for water near the brewery. A five-inch hole has been bored to a depth of 70 feet. Rock was encountered 24 feet below the surface, and still holes out. Work on the Kelsay well has been temporarily discontinued, after boring down 134 feet.

The Goldendale Telephone company has made a proposition to The Dalles Commercial club to construct a telephone line from Goldendale to The Dalles to be connected with the Condon-Seufert system. The club is asked to guarantee \$250, half when the poles are put up and half on completion of the line.

No pleasanter evening has been spent among the young folks than that at Miss Hilda Beck's last night. The evening was spent in playing games and singing until a late hour, after which a delicious luncheon was served. Her many friends wish her many more happy birthdays. Those present were as follows: Misses Clara and Julia Nickelsen, Edith Randall, Nettie Fredren, Lizzie Bonn, Christine Nickelsen, Martha and Constance Wheelton, Iva Boston, Katie Sargeant, Minnie Sandrock, Mrs. Jensen and Hilda Beck; Messrs. Clyde Riddell, George and Charles Campbell, Frank Wood, Ed Hill, Homer Angell, I. J. Thomas, Freas Saunders, Christ Schwabe and Ernest Jensen.

Mr. and Mrs. A. H. Jewett and daughter, Mrs. Thompson of Portland, and Miss Southwick of Salem went to White Salmon on the boat this morning.

Mrs. Julia A. Gault of McMinnville, grand chief of the Degree of Honor, and Mrs. Kate J. Young of Portland, past grand chief, returned to their homes this morning on the Regulator. They were accompanied to the Locks by C. F. Stephens and Mrs. Captain Waud.

Mrs. George Ernest Stewart left this morning for a three weeks' absence to his old home in Hillsboro. Mr. Stewart's back was injured when he fell from a bicycle some time ago, resulting in peritonitis, and he will undergo a surgical operation performed by the family doctor at Hillsboro.

BODIES OF THREE MISSING HUNTERS FOUND IN POND

By United News—SARANAC LAKE, N. Y., April 9.—Another mystery of the Adirondacks was solved Thursday when the bodies of A. D. Perkins, Joseph F. Sharpe and William T. Perkins, of Cortland, N. Y., three men who disappeared last November, while on a hunting expedition, were discovered near Long Lake, in Third Pond.

Guides and friends had searched the woods for weeks without finding a trace of the lost men. It is thought they lost their lives while attempting to cross the pond in a shallow duck boat during a windstorm.

CHRONICLE TELEPHONES ARE CHANGED

To improve its telephone service The Chronicle has installed departmental lines in its office. For the business office, circulation and advertising departments, call Red 111. Editorial rooms, call Black 111.

CHRONICLE CLASSIFIED ADVERTISEMENTS

SALTS OF KIDNEYS OR BLADDER BOTHER

Harmless to Flush Kidneys and Neutralize Irritating Acids. Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again there is difficulty in voiding it. Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever. Here you have a pleasant, effervescent lithiawater drink, which quickly relieves bladder trouble.—Adv.
