

AFTER 31 YEARS MOTHER FINDS LOST DAUGHTER

STORY TOLD BY MRS. OHLEGSCHLAGER RIVALS WORKS OF FICTION.

GIRL IS STOLEN

FIRST HUSBAND WREAKS REVENGE ON WOMAN WHO LEFT HIM.

A mother's heart, for 31 years longing for a lost daughter was almost overwhelmed with joy last Sunday when an automobile drove up to the home of Mrs. R. H. Ohlegschlager of this city. For sitting in the front seat of the automobile, Mrs. Ohlegschlager recognized her lost daughter, last seen by her 31 years ago in Denver Colo.

The story, as told by Mrs. Ohlegschlager rivals in its pathos many of the modern works of fiction.

Thirty-one years ago, Mrs. Ohlegschlager lived in Denver. She was then Mrs. J. Mathwig. This marriage was unhappy, and she finally left her husband, going to work. During the day, while working, she would leave her two children, an infant son and a slightly older daughter, in the care of another woman.

The husband, in a spirit of revenge, one day stole the children while the mother was at work, placing them in the care of a boys' and girls' aid society.

The baby boy, being very young, was returned to the mother for care, but the society gave the girl to a family for adoption. Although she pleaded many times with the superintendent of the institution to tell her the name of the family that had adopted her baby daughter, this information was always refused her.

Never quite giving up hope, Mrs. Mathwig searched the long years for her daughter, running advertisements in papers, writing letters and trying in every conceivable manner to find some trace of her baby girl.

Her husband dying, Mrs. Mathwig married R. L. Ohlegschlager and came to The Dalles to live. The baby boy, Harry Mathwig, grew into manhood and other sons and daughters came to receive the mother's love. Sickness and death claimed five

WHITE RIVER WATER CASE, MANY SIDED

PACIFIC POWER & LIGHT COMPANY PRESENTS ITS TESTIMONY.

With six Portland attorneys and virtually every legal light in The Dalles handling various angles of the case, nearing of the many water right claims on White river was today continued in the local circuit court room, before George T. Cochran, representing the state water board. More than 200 farmers were interested spectators and witnesses today.

Yesterday the Pacific Power & Light company produced five witnesses in support of its claim for 250 second feet of water from White river. Additional witnesses of the power and light company, presenting largely technical evidence as to the machinery used in generating power at the White river plant and the amount of water necessary to successfully operate this machinery, were put on the stand this morning.

Another large claimant for White river water, the Wapinitia Plains Irrigation company, is laying claim to approximately 400 second feet of water, secured through what it claims to be 15 separate water rights. The Wapinitia Irrigation company contends that the power and light company failed to comply with the Oregon law when it acquired its water rights on White river and its tributaries.

PEACE TAKEN UP BY COMMITTEE

KNOX RESOLUTION PROBABLY WILL BE ADOPTED NEXT WEEK.

By I. C. Martin
(United Press Staff Correspondent)
WASHINGTON, April 21.—The foreign relations committee today took up Senator Knox' resolution to restore a technical peace between the United States and the central European powers.

When the committee met there was no indication of any hitch in the administration program, which contemplated an early report on the resolution and its adoption by the senate after a short debate, probably next week. The probable attitude of the democrats, however, had not been made clear when the committee met.

The resolution as it now stands repeals the war declaration against Germany of April 6, 1917, and the declaration against Austria.

It then provides for safeguarding American rights by withholding a settlement with Germany of the alien property now held by this government until Germany has ratified a treaty of peace with the United States and has made arrangements for liquidating all American claims against German nationals. This involves the settlement of all American claims for losses of ships through the U-boat warfare; loss of cargoes; loss of lives and every other loss sustained by Americans as individuals, firms or corporations.

The resolution also reserves to the United States all the rights it would have had under the treaty of Versailles had the senate ratified it.

QUAKE ROCKS ANGEL CITY

By United Press
LOS ANGELES, Cal., April 21.—A slight earthquake shook Los Angeles at 7:37 a. m. today. No damage was done.

U. S. MAY HEAR SEAMEN'S CASE

IF OWNERS CUT WAGES; STRIKE MAY 1 IS INEVITABLE.

By Harold D. Jacobs
(United Press Staff Correspondent)
NEW YORK, April 21.—American shipping will be completely tied up on May 1, if the owners persist in their efforts to reduce wages, Andrew Furuseth, president of the International Seamen's union declared today.

Furuseth, a typical "old salt," said the seamen "will not recede one inch" from their present stand and predicted that a strike would involve every member of the union on both coasts and the Great Lakes. There are 110,000 members, of whom about 35,000 are now idle because of shipping depression.

Winthrop L. Marvin, the president of the American Steamship Owners association, declared he was confident the seamen would come to terms before expiration of the present wage agreement at the end of this month.

Both sides were willing for the United States government to act as intermediary providing they are unable to settle the dispute themselves. Furuseth already is making daily reports to Secretary Hoover. Representatives of two government departments will participate in the conference of seamen and owners, which will be resumed Monday.

SAN FRANCISCO, Cal., April 21.—With most of their leaders in the East, attending or watching conferences in progress there, Pacific coast seamen today were anxiously awaiting every word working its way west which might indicate what decision is to be reached with regard to the present effort of shipowners and the shipping board to reduce wages.

While, in the absence of the leaders, no formal statement was made, the position of the coast seamen

BILL HAYWOOD, I. W. W. HEAD, FLEES TO RIGA

UNDER FEDERAL SENTENCE TO SERVE 20 YEAR PRISON TERM.

CAN'T BE EXTRADITED

DEPARTMENT OF JUSTICE AGENTS SEARCH NATION TO FIND LEADER.

By United Press
CHICAGO, April 21.—District Attorney Charles Clyne today ordered a sweeping search for "Big Bill" Haywood, leader of the Industrial Workers of the World.

Reports reached Clyne that Haywood, under a federal sentence to serve 20 years for violating the espionage act, had arrived at Riga, Russia, a fugitive from justice.

Clyne refused to divulge the source of his information, but telegraphed every department of justice agent in the United States to search for Haywood. He believes that someone may have secured a passport for Haywood or that he may have escaped under a fictitious name.

NEW YORK, April 21.—The steamer Oscar II, on which "Big Bill" Haywood is said to have been a passenger, did not carry the name of the I. W. W. leader on the passenger lists, it was learned today from officials of the Scandinavian-American line.

WASHINGTON, April 21.—The extradition of "Big Bill" Haywood from Russia will be impossible, as the United States has no extradition treaty with the soviet government, it was announced today.

Department of Justice officials admit the possibility that Haywood could have been smuggled out of the country.

THREE PERSONS FREEZE TO DEATH IN MOUNTAINS

By United Press
DENVER April 21.—Search was today begun for three persons believed to have frozen to death in the mountains during last week's blizzard. Albert Stark, his wife and their nephew, Henry Stark, left Denver in an automobile April 13 for Doloros, Colo.

MAN WANTS GIRL; CAME FROM SALEM

CRAZY PERSON ELECTRIFIES WAPINITIA SCHOOL BY FRANK REQUEST.

Pupils and teachers of the Wapinitia school were thrown into a high state of excitement yesterday afternoon when a small, mild-mannered man appeared at the school and quietly informed one of the teachers that he "wanted a girl."

He was not particular what kind of a girl she was, he explained, saying that he felt the need of female companionship in his life. Refusal of his request did not seem to particularly disappoint him and he seated himself and awaited developments.

In the meantime, the teachers had got into communication with Deputy Sheriff Gus Reeder, who placed the strange man under arrest. He gave his name as Oscar Baker.

Baker was brought to The Dalles this morning, where he was placed in the county jail. Telephonic communication with the state insane asylum at Pendleton revealed the fact that Baker is wanted there, having escaped from his guards about a week ago. He is perfectly harmless, the asylum officials assured Sheriff Chrisman.

Baker will probably be taken back to Pendleton tomorrow.

INCOME STOPS; CUDAHY BLOWS OFF HIS HEAD

MARITAL TROUBLES BELIEVED TO HAVE INFLUENCED SELF-DESTRUCTION ACT.

UNDER NERVE STRAIN

KIDNAPED AS CHILD—MUTILATED LILLIS, FOUND WITH WIFE.

By United Press
LOS ANGELES, April 21.—After learning yesterday that his income of \$100,000 a year had stopped by a Chicago trust company in charge of the Cudahy estate, John P. (Jack) Cudahy, son of the late multi-millionaire Chicago packer, committed suicide here late yesterday by shooting his head off with a double barreled shotgun.

According to detectives who were called to the Cudahy home in Hollywood immediately after the tragedy, Cudahy sat in a chair with the shotgun between his knees and pulled both triggers. The charge blew off the top of his head.

Yesterday, according to Detective McMahon of the Los Angeles police department, Cudahy received a telegram from a Chicago trust company stating that the company was forced to stop the payments of his income of more than one hundred thousand dollars a year which he had received from a trust fund created by his father, because the payments were not sanctioned by his sister, Clara, who is said to be the executor of the late Michael Cudahy's estate.

Coupled with his financial difficulties it is believed that his marital troubles had been affecting his reason, the police, who investigated, said.

Friends declared that he had been acting peculiarly for the last month and he had been under the care of a neurologist here. He was recently released from a sanatorium where he had been taken because of a threatened mental breakdown.

Two months ago Cudahy left his paternal home and family in Hollywood and disappeared. Several weeks later he reappeared under unusual circumstances. He engaged an expensive suite of rooms at a downtown hotel

SENATE RATIFIES COLOMBIAN PACT

\$25,000,000 TO BE PAID IN SETTLEMENT OF CANAL DIFFERENCES.

By United Press
WASHINGTON, April 21.—The senate has at last ratified the treaty with Colombia, under which that country will receive from America \$25,000,000 in settlement of differences that arose through the acquisition of the Panama canal strip.

Five million dollars are to be paid within six months and the remainder in four annual equal installments.

This disposes of a controversy that has been in progress since 1902 and of a matter that has been before the senate since 1914.

The treaty was ratified late Wednesday with no other changes than those proposed by the committee on foreign relations. Numerous amendments were offered by opponents of the pact, who hoped in this way to defeat ratification by reopening negotiations, but these were voted down. Republicans in the main followed the wishes of President Harding, who recommended the treaty's adoption in a special message. Democrats likewise gave their support, because the treaty was negotiated by

SUSPECT IN BOMB OUTRAGE IS MUM

DEFENSE ATTORNEY SAYS ACCUSED IS HARD WORKING COAL MINER.

By United Press
SCRANTON, Pa., April 21.—The Ligi, 27, arrested on suspicion of complicity in the Wall street bomb plot, maintained grim silence today as detectives pried him, with questions.

His lawyer, John Memolo, today started a fight to free him. Memolo insisted that Ligi be arraigned before United States Commissioner Ellis on the charge of evading the draft—the technical charge on which he is being held. The arraignment was to take place today.

Memolo declared the suspicion that Ligi had a hand in the Wall street bombing was ridiculous. He said his client was a hard working coal miner. Police, however, claimed to have found much anarchistic literature in Ligi's house and also to have discovered in a nearby vacant lot window weights such as were used for slugs in the Wall street bomb.

GLENN LOUISIGNOUT BURIED

Funeral services for Glenn Dale Louisignout, infant son of Mr. and Mrs. John Louisignout of Center Ridge, were held this afternoon at the Crandall Undertaking company. The baby died yesterday morning after a brief illness.

DEMPESEY'S RUGGEDNESS WILL WIN SISKLER

By United Press
ST. LOUIS, Mo., April 21.—George Siskler, American league batting champion:

"Dempesey will win. Carpenter is a clever boxer, but he lacks the physique. Dempesey is rugged and a powerful hitter. He's fast and his blows carry more weight. The bout may go the limit, being as it is only 12 rounds. Carpenter might be clever enough to stay away that long, but it will be Dempesey's fight all the way."

COLD WEATHER PUTS CRIMP IN BASEBALL

GAMES POSTPONED, PITCHERS MADE INEFFECTIVE BY UNFAVORABLE CONDITIONS.

By Henry L. Farrell
(United Press Staff Correspondent)
NEW YORK, April 21.—Due to the wide assortment in the weather man's repertoire, the major leagues have had a tough time getting away and some of the clubs with old blood are back almost where they were before they went south.

In the first week of the 1921 jaunt, the Pirates, the Robins, the Reds, the Braves and the Senators were the only ones to get in seven games. The White Sox and the Tigers were able to labor only four days.

Brooklyn is perched next to the last hole in the National league because the chilly weather has put all of Robby's hurlers on the ineffective list.

Miller Huggins has his Yankees on top of the America league pile, but he's there chiefly because Carl Mays is in form. Shawkey and Hoyt, two of his reliables, are waiting for hot weather.

Several days of hot sun would also help the veteran pitchers of the Giants. McGraw is holding the front line but he will have to get better pitching to keep back the Pittsburgh pirates, who have a trio of hurlers working in mid-season form.

Along with his fragile infield, Tris Speaker is also having pitching troubles. Coveleskie and Bagby are not in form and Duster Mails, expected to be a big winner, is having trouble getting started.

Connie Mack is also having pitching troubles. George McBride, however, probably will wish the affliction to become permanent on Mack because the Senators copped the series from the Athletics and are holding forth in second place.

BOND ELECTION PETITIONS ARE HELD ILLEGAL

WITH REQUIRED SIGNATURES SECURED, WORK GOES FOR NAUGHT.

TO VOTE ON JUNE 7

MATTER OF ANTELOPE CONNECTING HIGHWAY IS INCORRECTLY STATED.

With nearly enough signatures already placed on petitions asking the county court to call a special election for the passage or rejection of Wasco county's \$800,000 road bond issue, County Judge Adkisson today discovered that the petitions were incorrectly drawn up and as a consequence illegal. A total of 730 signatures of registered voters is required by state law before the county court can call a special election.

No attempt will be made to hold a special election, now, according to Judge Adkisson, who explained that new petitions will be drawn up, this time legal in every detail, and the issue placed before the voters at the state-wide special election, to be held June 7.

The original petitions were drawn up by the state highway commission's own attorney, it is pointed out. In the agreement entered into between the Wasco county court and the highway commission, a lateral highway connecting Antelope with the main highway was agreed upon, Wasco county to bear the entire cost of constructing this road.

In drawing up the petition, however, the highway commission's attorney stipulated that the Antelope connecting road was to be built on the same 50-50 basis as the Dalles-California highway.

That the bond issue will carry by a safe majority, even with the election postponed until June, is the opinion of many local business men who circulated the illegal petition in the city and county. Most all voters are in favor of the measure, not more than five percent of those asked to sign the petitions refusing to do so, it is set forth.

BLOW-UP AND FIRE DAMAGE PLANT

OVEN FIREMAN SERIOUSLY INJURED—85 MEN OUT OF JOBS.

By United Press
PORTLAND, Or., April 21.—Lester Conger, mill fireman, is in the hospital, the plant of the North Portland Box company is damaged to the extent of \$25,000 and eighty-five men are out of work today, as the result of a fire following an explosion at the plant last night.

Gas accumulation of a "Dutch oven" caused the blast which may cost Conger, the oven fireman, his life.

MRS. GUY CHAMNESS FUNERAL TOMORROW

Funeral services for Mrs. Guy Chamness will be held tomorrow afternoon at 3 o'clock at Wasco, under the direction of the Crandall Undertaking company.

FIVE BANDITS ROB BANK OF \$25,000

By United Press
CHICAGO, April 21.—Five bandits held up and robbed two officials of the Amberg State bank today of \$25,000 which was being taken to the Union Trust company for deposit.
