

**NEWS NOTES**

**Pipe Repairs Roll Water**—Persons residing in the lower part of the city this morning thought for a while that Mill creek was on the rampage, when they turned on their water faucets and viewed the muddy stream which poured forth. The cause of the dirty water was nearer at hand, however, being the result of the water main being torn up for repairs on Washington street, near Third. Clear water is promised for tomorrow, when it is expected that all repairs will have been completed, workmen said.

**Congregational Vaudeville Pleases**—“Scenes in Union Station,” the comedy rendered at the high school auditorium last night under the auspices of the Congregational Ladies Aid society, was a decided success from the audience's point of view. The costumes were of an earlier date, and in most cases emphasized the eccentricities of the characters. The station was the scene of a successful courtship, the pranks of unruly children, various embarrassing situations and an elopement. Musical numbers generously applauded were selections by the high school orchestra, a gypsy character number consisting of a song by Miss Edith Dugger and a dance by Helen Williams, solos by Lynn Roycroft; and songs by the high school quintet.

**Vandals Tamper With Flag-Pole**—City Superintendent of Schools R. L. Kirk is proud of the new high school flag pole, and because of this fact, he naturally resents any disfigurement of it. The first act of “vandalism” to the new flag pole occurred several days ago, when a number of “unknown persons” decorated the pole with a red brick dust solution, doubtless supposed to enhance the natural beauty of the pole. The brick dust was washed off, and all went well until Tuesday, when it was found that the flag pole halyards were missing. As everybody knows, a flag cannot be raised without a halyard, and as a result the high school pole has been flagless during the last two days. A new halyard is being installed however, and Prof. Kirk is now awaiting eventualities.

**Skeletons, Those of Whites**—Another corner of the veil of mystery covering the death of six persons near the Deschutes river, the skeletons of whom were found several days ago by workmen engaged in surfacing the Columbia River highway, was lifted today when further finds were made, establishing almost beyond a doubt that the bones are those of white persons. The first find was a corroded brass field glass, such as used by military officers stationed at Fort Dalles in the early days. The lenses of the glass were in perfect condition when found. Digging a little further, a rusted military compass was uncovered, together with a small glass hypodermic syringe. Previous finds brought to light an army saddle, a small copper kettle, a rusted frying pan, a woman's silver thimble and a number of stone Indian beads. It was first thought that the bones might be those of Indians, but the finding of additional articles such as were only used by early white settlers, causes highway officials to believe that the bones are those of a party of white persons, possibly killed by bandits or massacred by the Indians.

**Your Favorite Place** to dine, “Hotel Dalles”—If moderate prices, quality of food, service and surroundings are considered. Try our evening and special Sunday dinners, \$1.00. You'll be surprised. 23

**FARM LOAN ASSOCIATION HAS MONEY TO LOAN**

The Dalles Farm Loan association now has a limited amount of money, which it will loan to Wasco county farmers under the federal farm loan act. C. L. Pepper, local manager of the association, said today. Because of the low condition of the bond market, farmers will now be compelled to pay six percent interest upon all loans, he explained. According to the present plan, Pepper will accept all applications for loans, sending them to the Federal Land bank at Spo-

kan, where the merits of each application will be passed upon. Because of the limited amount of money available, it is planned to loan no money for the purchase of new property. All money will be loaned to prevent foreclosure upon mortgages or in case of proved dire financial need, Pepper explained.

**Brown's Dufur Stage Time Table**  
Two round trips daily. Leave Bank hotel, 9 a. m. and 4 p. m. Leave Dufur 7:30 a. m. and 1 p. m.

A business man's wife could not sew, or read without sharp pains in her eyes. For years her eyes were red and weak. Finally she tried simple with hazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. The result produced by a single bottle amazed everyone. We guarantee a small bottle Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. A. E. Crosby, druggist, 218 E. Second St.

**BOY TALKS WAY OUT OF CAPTIVITY**

**DOZEN TONGUES TOO MUCH PUNISHMENT FOR SOPHOMORE LOW-BROWS.**

By United Press

NEW YORK, April 21—The modern version of that pen and sword proverb—that the highbrow is mightier than the roughneck—was exemplified here today by Edward Rochie Hardy, Jr., 12-year-old Columbia university phenom.

Turning loose a verbal battery of the dozen odd languages he is versed in, Edward talked himself out of captivity in darkest Long Island, where he had been spirited by six lanky sophomore kidnapers.

Edward is cast in the star role of the 'varsity show, "You'll Never Know," which opens tonight. He is supposed to stand around and kidnap the performance with his ambidextrous tongue. No freshman had ever before participated in the 'varsity show. The sophomores were outraged. They planned to kidnap the prodigy. The freshman learned of the plot.

A battle royal was staged on the campus yesterday afternoon in front of Edward's home with the boy as the prize and his mother a witness. The sophs won and Edward was carried away in a taxi.

At some point in Long Island—Edward doesn't know where—he languished in captivity while the 'varsity show producers wept and wailed last night at a dress rehearsal. His parents, both college professors, yawned in ennui. It was old stuff to them.

The usual blandishments failed to move the low-brow sophs.

Then Edward began pleading in Latin. The harangue switched to Hebrew, then French, German, Russian, Swedish, Spanish and other tongues followed in linguistic avalanche.

No third degree was ever more effective. The sophs wilted one by one. Their tympanums ached, their heads ached, they ached all over. Human endurance could stand no more.

Shortly before dawn today, Edward was deposited at his door. After greeting his bored parents the boy permitted himself one of his rare lapses into colloquialism. "Pretty soft," he said.

**MAN FINDS BROTHER AFTER 18 YEARS' SEARCH, IN JAIL**

By United News

SAN FRANCISCO, April 21—Eighteen years ago James and Harry O'Neill lived together in Boston. James left Boston and came west to make his way in the world. Harry stayed in Boston and continued his work for a contracting company.

After James arrived in San Francisco he lost track of his brother, Harry. After trying for several months to get in touch with him by mail he put the Boston police upon the trail. They reported that no trace of the missing man could be found.

A reward was offered, private detectives were hired and descriptions

**LADIES! LOOK YOUNG, DARKEN GRAY HAIR**

Use the Old-time Sage Tea and Sulphur and Nobody Will Know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young!

Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through your hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.—Adv.

of the man were sent out all over the world.

Today James O'Neill has found his brother. He is an inmate of the state prison at East View, New York.

According to the warden of the eastern prison, Harry O'Neill will soon be out of jail and will come here to meet his brother after their eighteen years' separation.

**DEVELOPING CAMP SITE**

H. E. Burdett, landscape architect, has been busily engaged in The Dalles during the last 10 days in laying out the new city auto camp ground, decided upon by The Dalles chamber of commerce before it was reorganized into a county-city body. More than 100 shade trees of various kinds, all selected because of their ability to grow on rocky soil, have been set out. Burdett is peeved, however, at the loss of one of the best of the few trees already on the camp site. The tree in question, a beautiful big pine, was cut down for use as

**Catarrhal Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc. F. J. CHENEY & CO., Toledo, O.

fuel, by squatters camping on the city property. A count of the tree's rings revealed that it was about 50 years old. Burdett was planning upon

using the big tree as one of the central figure of his decorative plan and places the loss to the city by its destruction at \$150.

**We Know How To Skillfully Compound Prescriptions**

It has been our work for years. We guarantee to ably supplement the work of your physician. The purest of drugs are used. All standard proprietary medicines.

Columbia Graphonolas and Records.
