

TRAVEL, TRANSPORT

Bad roads must go! This is the ultimatum of people living in Dixie. That they are alert to urgent need of good roads is attested by the tremendous sums voted in recent state and county bond issues. Over \$278,000,000 is now available for good roads expenditure in the south. Texas leads with \$97,772,000 and Virginia is second with \$50,000,000.

Chronic squeaking in the braking system is generally due to dirt that

has been imbedded in the lining and is pressed against the drum when the brakes are operated. Usually this dirt may be washed out with kerosene, but if it is so firmly entrenched that it refuses to come out with this treatment a little rosin mixed with castor oil and applied to the bands will cure the trouble.

Bullet-proof armored motor trucks are rapidly becoming common sights on city streets. To provide safety and service in the transfer of pay rolls and money banks, public utilities and other concerns of size are purchasing them in increasing numbers.

They reduce the number of guards and operate an insurance for the property they protect. Heavily armed guards ride on the inside.

Our weekly DON'T—Don't allow oil to leak out at main and connecting rod bearings. The oil gauge on the dash may often be employed as a rough check on the tightness of the bearings of the engine, if the crankshaft is hollow and oil is delivered through it from the main bearings to the connecting rod bearings. When the bearings are tight, the leakage will be small and the pressure of the gauge will be normal, but as wear oc-

curs the leakage will become greater, the pressure on the gauge will drop slightly.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat Less Meat if Kidneys Feel Like Lead or Bladder Bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need flushing occasionally, else we have backache and dull misery in the kidney region, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avert serious complications.

A well known local druggist says he sells lots of Jad Salts to folk who believe in overcoming kidney trouble while it is only trouble.
