AMERICA RESUMES PLACE AT ALLIED COUNCIL TABLE

ALL DELEGATES DELIGHTED TO SEE U. S. AGAIN REPRESENTED.

H. WALLACE SITS IN

FIRST PARTICIPATION SINCE PRESIDENT ACCEPTED INVITATION TO COMMISSIONS.

By United Press
PARIS, May 9.—America resumed her place in allied councils today when Ambassador Hugh Wallace sat with the ambassadors' conference at the Quai d'Orsay.

Wallace was welcomed to the meeting but without special ceremony. Jules Cambon, French member of the conference, declared after the session that all the delegates were delighted to see the United States again represented.

Wallace's appearance at the conference was America's first active participation in allied affairs since President Harding accepted the invitation to send representatives to the conference, the supreme council and the reparations commission. Wallace will sit as "unofficial observer" in the conference but will have equal rights with the other members.

It was not officially known what the conference discussed today, but it is occupied with the German settlement and it was believed to be considering the proposed invasion of the Ruhr valley and other penalties which may be exacted.

BIG BOUT WON'T LAST SIX ROUNDS

NOT POSSIBLE FOR THE HUMAN FRAME TO RESIST PUNISHMENT—DESCAMPS

By Francois Descamps
Manager and trainer of Georges Carpentier.

(Written for United Press)

(NOTE—This is one of several articles written for the United Press by Descamps before he sailed for America.)

LA GUERCHE, France (By mail)—The Dempsey-Carpentier world's championship fight cannot last more than six rounds.

By that time either one of the two principals will be hors de combat.

It is not possible for any human frame to resist the punishment both Carpentier and Dempsey will be giving each other, for more than eight minutes.

Personally, I expect the end before the sixth round.

Whoever lands the first real blow will win. Both have a punch heavy

BOND THIEF IS GIVEN SIX YEARS

DOUGHTY, MISSING MAGNATE'S SECRETARY CAUGHT AT OREGON CITY.

By United Press
TORONTO, Canada, May 9.—John Doughty, former secretary to Ambrose Small, missing theatrical magnate, was sentenced to six years in the Kingston penitentiary today for the theft of \$105,000 in Victory bonds, the property of Small.

OREGON CITY, May 9.—John Doughty, who was sentenced at Toronto today, was captured here by a constable who found him working at a paper mill under an assumed name. The constable recognized him from a picture in a police circular.

Doughty was returned from here to Toronto for trial.

BROKEN AUTO PART AND TWO CHECKS LEAD MAN TO JAIL

GEARY WILL BE HELD FOR ACTION OF GRAND JURY.

A broken automobile transmission Friday night demonstrated that Bobby Burns was correct when he wrote that little line about the "best laid plans of mice and men." For if the transmission of Charles Geary's car had continued to operate properly on that night, Geary would now be in Idaho, local automobile dealers would be "out" \$30.30 and the local county jail would have one less prisoner than it now has.

The whole affair started Friday, when Geary drove up to The Dalles garage, purchased some gas and oil and submitted a \$10 check in payment, receiving \$7 in change. Becoming suspicious of the check, James Sharp Saturday morning telephoned Hotel Dalles, asking if Geary was still there. Upon being informed by the clerk that Geary had "just checked out," Sharp called the police. The check was on a Palo Alto, Cal., bank and Sharp had no means of ascertaining on short notice whether it was good or not. The police explained that they could not arrest a man on mere suspicion, whereupon Sharp continued his investigations. Geary's car had been stored in the garage for a short while Friday, at which time the car number had been taken. Sharp next looked up this number, finding that it belonged upon a White car, owned in Eugene. Geary was driving a Chandler.

His suspicions confirmed that there was "something wrong," Sharp again called the police, this time asking Geary's arrest upon a charge of driving with incorrect license plates. The officers consented to make this arrest, but "the bird had flown."

Geary got only as far as the Deschutes river, however, where he was stopped by the breakdown of his car. Coming back to The Dalles, he ordered a new transmission from

CARNIVAL'S USE OF STREET PROTESTED

SHOWS OPEN TOMORROW NIGHT ON LOT NEXT TO JOHN STON'S GARAGE.

Residents in Court street, between Third and Fourth, thought for a while this morning that they were going to be "entertained" for the remainder of the week, when the Boucher-French Carnival company arrived in the city and started putting up its tents along this street.

The original agreement between the carnival company and the local Knights of Pythias lodge, under whose auspices the carnival is being put on, specified that the carnival should be staged on the beach, below the city. Learning of this agreement to hold the shows on the beach, Court street residents, headed by Dr. O. D. Doane, protested holding it on the street to Mayor P. J. Stadelman. The mayor immediately called a special meeting of the city council for consideration of the question.

Heavy wind which often blows in The Dalles, was given by officials of the carnival company as the reason for wishing to use the streets instead of the specified location on the beach. A hard wind during the week would blow over all of the carnival tents, it was pointed out.

Mayor Stadelman announced that he was unalterably opposed to the holding of any more street carnivals in The Dalles. He was backed up in this stand by members of the city council.

After considerable discussion, it was finally decided that the carnival company could either use the beach or the vacant lot next to W. A. Johnston & Son's garage. If the latter location is chosen, the amusement company may use part of Federal street, the council decided.

The carnival starts tomorrow night

GERMANS FIGHT BESIDE BRITISH AND ITALIANS

BITTER FIGHTING CONTINUES IN UPPER SILESIA AGAINST POLES.

CONCESSIONS SOUGHT

FRENCH REFUSE TO SUPPRESS POLISH UPRISING IS ACCUSATION.

By United Press
BERLIN, May 9.—Bitter fighting continued in Upper Silesia today.

German troops have joined the small detachments of Italian and British soldiers sent to preserve order during the plebiscite. One body of these troops succeeded in driving the Polish insurgents from Kreuzberg. In other portions of the plebiscite area Poles held their gains along the "Korfanty line."

Dispatches here accused the French forces of fraternizing with the Poles and refusing an attempt to suppress them.

LONDON, May 9.—Germany is determined to make acceptance of the reparations ultimatum contingent upon concessions in Upper Silesia, according to press dispatches here today.

A Berlin dispatch to the Daily Chronicle said that 1,000 members of the reichswehr had started for Upper

TARIFF RATES TO BE TREBLED

FREE LIST VIRTUALLY ELIMINATED—CALCULATED TO DOUBLE DUTIES.

By Herbert W. Walker
(United News Staff Correspondent)

WASHINGTON, May 9.—Republican congressional records for high protective tariffs will be equalled and probably broken by the new permanent tariff bill which has been virtually completed by the republican members of the house ways and means committee today.

A survey of the schedules thus far agreed to by the sub-committee reveals that the rates may average slightly above the schedules of the famous Payne-Aldrich bill of 1909, which caused a serious split in the party.

The rates in general in the new bill will be nearly three times the present democratic rates as provided by the Underwood law.

In the new bill which is now being framed the free list, on which are now many food products, has been virtually eliminated. One member of the committee estimated that it would not contain more than 15 or 20 items in place of more than 200.

Representative Fordney, Michigan, chairman of the ways and means committee, believes the new bill will double the amount now being received from tariff duties, which is about \$350,000,000.

Others members of the committee believe because of the general business depression imports will be greatly decreased by the higher duties and the yield will not be more than \$500,000,000 a year.

Fordney said today that he expects to have the bill before the house by June 1.

"It will be a thoroughly republican and protective measure," he said.

Wool, the famous schedule K which caused friction between President Taft and congress in the Payne-Aldrich days, has been taken from the free list and the following duties imposed on it:

In the grade 11 cents a pound; washed 23 cents; scoured 23 cents.

SKELETON AND RING CLEAR UP MURDER MYSTERY

MABEL ENGRAVED ON CORRODED CIRCLER FURNISHES WORKING CLUE.

2 WARRANTS ISSUED

MACEONIANS IMPLICATED THREATENED TO GET GIRL FOR DOUBLE-CROSS.

By United Press
PORTLAND, Ore., May 9.—With nothing more to work on than the discovery of a skeleton and a corroded ring several weeks ago, police detectives were believed to be near the solution of a seven-year-old murder mystery when they issued warrants today for the arrest of two Macedonians for complicity in the killing.

The skeleton was discovered by wrecking and excavation crews removing an old dance hall building in the outskirts of the city. A ring engraved with the name "Mabel" was the only clue.

Police, however, believe they have identified the skeleton as that of Mabel Phillips, daughter of Mrs. Laura Clune of Hawthorne, Cal., who disappeared mysteriously seven years ago.

All available information concerning the girl has been fitted together piece by piece, and warrants were today issued for the men actually charged with the murder.

Revenge is said to be the theory

DALLES GUNNERS WIN CHAMPIONSHIP

DEFEAT HOOD RIVER BY SCORE OF 399 TO 322.

Breaking a record of 50 clay pigeons with keen accuracy, a 10-man team of Dalles Rod and Gun club yesterday morning at the Hood River traps, defeated the scatter gun artists of the Apple City in a shoot to decide the championship of the mid-Columbia by 399 to 322.

The Dalles gunners are undefeated this year having met and vanquished the best teams in central Oregon.

Despite the wind that made the clay birds leap unexpectedly, the local marksmen emerged from the long line with a team average of 80 percent, a truly remarkable score.

A large crowd of persons witnessed the match which was thrilling, owing to the excellent shooting which obtained.

Indicating the high class work of the local trap shooters every member of the 10-man team made better scores, with one exception, than did the highest marksman of the Hood River team.

The complete score follows:

The Dalles			
	Shot At	Hit	P.C.
E. Fitzgerald	50	36	72
L. E. Dawson	50	38	76
A. P. Ingram	50	43	86
C. G. Vogel	50	48	96
C. G. Hedges	50	42	84
B. Manning	50	43	86
W. R. Staples	50	38	76
Huls-Schanno	50	49	80
E. B. Thompson	50	31	62
H. T. Stoneman	50	40	80

TARIFF BILL TO PASS IN 2 MONTHS

PROTECTION FOR AGRICULTURAL COMMODITIES ASSURED BY PERMANENT MEASURE.

(Chronicle's Washington Bureau)

WASHINGTON, May 9.—Oregon will have more to do with the final figures in the agricultural schedule of the permanent tariff than any other state, Congressman W. C. Hawley, as chairman of the sub-committee on the agricultural schedule of the ways and means committee, has completed his work and reported the findings of the sub-committee to his associates on the general committee.

It is the expectation of all the members of the ways and means committee that the completed tariff bill will be reported to the house some time this month. Unless there is some unforeseen fight on the bill on the floor of the house, it is expected the measure will be passed and sent to the senate early in June. Barring wide discrepancies between the action of the house and the senate, the permanent tariff could be in the hands of the president for signature by the middle of July.

When the permanent tariff bill is introduced in the house, a joint resolution will be introduced at the same time providing that the rates of tariff in the permanent bill shall take effect on and after the date of introduction and that whatever rates are finally enacted into law shall govern all importation from the date the bill is introduced and final adjustments made in accordance with the figures contained in the bill signed by the president. This means that if a higher rate is agreed on than contained in the original draft submitted by the ways and means committee, the im-

HELP STARVING ON COLD BASIS OF FINANCIAL GAIN

B. F. IRVINE TELLS GRAPHIC STORY OF HUMAN NEED.

"Five hundred, seventy-five thousand square miles of people are living on roots, leaves, grasses and bark. And those people have for their ideal the American people. We have had their respect since the days of the Boxer rebellion and on the basis of dollars and cents, let alone the higher and holier basis of Christian purpose, let us figure what it will be worth to make the friendship of several hundred million people who will in years to come prove a market for the grains and fruits of our country." This was the challenge given last evening by B. F. Irvine, editor of the Oregon Journal, speaking on the Near East and China relief to an audience of 400 persons in the high school auditorium.

The service was a union of the evening congregations of several of the Protestant churches of the city and Mr. Irvine had been requested by the ministers of the city to present the facts of the situation as seen by the editor of one of the leading northwest newspapers. In opening his address, Mr. Irvine stated that the press of the United States was absolutely with the pulp in the great appeal being made for assistance for the people of Asia Minor and those of the famine stricken district of northern China. The story of grief and starvation in the Near East was graphically depicted by the speaker when he told of a cable received this spring telling that the refugees in a certain place were compelled to dig through two feet of snow in order to secure grass roots upon which they were depending for subsistence. Referring to a cablegram of May 5 received from Adrianople, Mr. Irvine said, "Eighteen thousand orphans are now placed on half rations for 30 days and after that there is nothing that can be promised them. Last year half rations for a person consisted of less than two ounces of rice per day."

Concerning the pressing need in the

GERMANY WILL ACCEPT ALLIED TERMS, CERTAIN

PRIME MINISTERS OF ALL GERMAN STATES CONSIDER REPARATIONS.

U. S. URGES MOVE

CONFERENCE'S DECISION WILL BE CARRIED OUT BY CABINET.

By United Press
BERLIN, May 9.—Germany's acceptance of the allied reparations ultimatum appeared certain late today.

By Carl D. Groat
(United Press Staff Correspondent)

BERLIN, May 9.—Prime ministers of all German states were summoned to Berlin today to deliberate over the allied reparations terms.

It was indicated that the conference's decision on rejection or acceptance of the ultimatum would be followed out by the new cabinet which is to be formed.

By A. L. Bradford
(United Press Staff Correspondent)

WASHINGTON, May 9.—The United States government desires Germany to accept the allies' reparations demands, it was learned here today on the highest authority. Officials of the government would not say whether or not this attitude of the government

(Continued on Page 2.)

HUGHES GRAPPLES WITH SIX PROBLEMS

MEXICO, PANAMA, JAPAN, HOLLAND, GERMANY, SANTO DOMINGO, CONCERNED.

By United Press
WASHINGTON, May 9.—With the question of American representation in European councils settled, Secretary of State Hughes will now turn his attention to six other problems, vital to affecting the United States, it was learned today.

The problems are:

Recognition of the Obregon government of Mexico.

Panama's defiance of the White award.

Japan's protest against the California anti-alien land law.

The Dutch government's action in barring American oil interests from participating in the exploitation of the Sumatra oil fields.

Final disposal of former German cables.

Withdrawal of American military occupation of Santo Domingo.

GIGANTIC AIR LINER CRASHES TO EARTH

HITS TREE ON TRIAL TRIP—PROVES ITSELF MECHANICALLY PERFECT.

By United Press
LAWSON FIELD, MILWAUKEE, Wis., May 9.—A. W. Lawson, inventor and builder of air liners, was down at his field shortly after dawn today salvaging his wrecked plane and directing his crew to make hurried repairs.

Lawson's forty-passenger air liner, the largest ever built, smashed to earth yesterday after it hit a tree on its trial trip.

Damage to the air monster can be repaired in two months, Lawson said. "I'll just have to start over again," he said. "This does not discourage me at all. It is the first wreck I've had in 14 years. Those who saw the plane fly know it was mechanically perfect. The short running field caused the wreck."
