

OREGON WATERS TO ATTRACT FISHERMEN

ROGUE RIVER AND CRATER LAKE ARE VERITABLE TROUT PARADISES.

(Chronicle's Washington Bureau.)
WASHINGTON, May 10.—According to information reaching the national bureau of parks, fishing will be better than ever before this year at Crater Lake and on the famous Rogue river, and it is expected that they will be visited during the season by anglers from all over the country.

Trotting is the method employed at the lake, and with the right kind of tackle the limit of five a day has been easily caught in past seasons. The trout range in weight from one and one half to four pounds.

While good results are also often obtained by the use of the fly, the anglers who always get the limit generally use a spinner, copper on one side and silver on the other.

The Rogue river enjoys national renown as a fishing stream, for it is one of the exceptionally few streams in the world where steelheads will strike at a fly.

Improvements Expected.
Although fishing on the Rogue for several seasons past has not been as good as of old, owing to cannery operations at its mouth, regulations adopted a year ago as to these operations resulted in the restoration of the steelhead run last fall, and this spring. According to information received here there was a phenomenal run last fall, and it is expected the run this year will be even better.

The season opened April 15, and continues until November 30. June and July are the best summer months for fishing and September and October the best fall months.

In addition to steelheads the Rogue is reported this year to be teeming with cutthroat trout.

In anticipation of the rush of tourists to the lake this year elaborate preparations are being made for accommodating and entertaining them. The hotel at the lake is being enlarged and put in first class condition by a new company that recently acquired the concession. Its capacity is being doubled, and when complete it will provide accommodations for as many as 300 people.

An entirely new scenic feature in connection with the resort will be the new automobile driveway around the rim of the lake. The new management has also acquired launches and other boats for operation on the lake. The hotel will open July 1.

Fishing also promises to be one of the great sports in the other national parks this summer.

Brown's Dufur Stage Time Table
Two round trips daily. Leave Bank hotel, 9 a. m. and 4 p. m. Leave Dufur 7:30 a. m. and 1 p. m.

There's A Difference
If you've been a "ready made" man in the past, be a "made to order man" in the future. First class hand tailored suits to measure, \$35.00 and up. W. R. Webber, one block east of post office.

GIRL INCONSOLABLE ON MOTHERS' DAY, KILLS SELF

By United News
NEW YORK, May 10.—Helen Fielder, an attractive young singer, brooded over the loss of her mother, and just before she was due to start to church on Mothers' day to participate in a procession for everybody's best friend, she ended her grief by dropping out of a fifth floor window. Men with white carnations in their lapels rushed to aid her but she died in a few minutes.

Mrs. Thomas De Giacomo, a girlhood chum of Miss Fielder, said the young woman had been inconsolable as Mothers' day drew near and the

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy. It is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

RED CROWN GASOLINE

The Grand Canyon of the Colorado

Here is an unparalleled spectacle—a sight never to be forgotten—one of nature's most stupendous wonders.

The Grand Canyon is about 250 miles long—with a width at the top varying from 5 to 12 miles. At some places it descends to a depth of a mile below the plateau surface. Its best effect, as revealed by extreme depth and brilliancy of coloring, is from a point opposite the Kalbar Plateau—about 65 miles northwest of Flagstaff, Arizona.

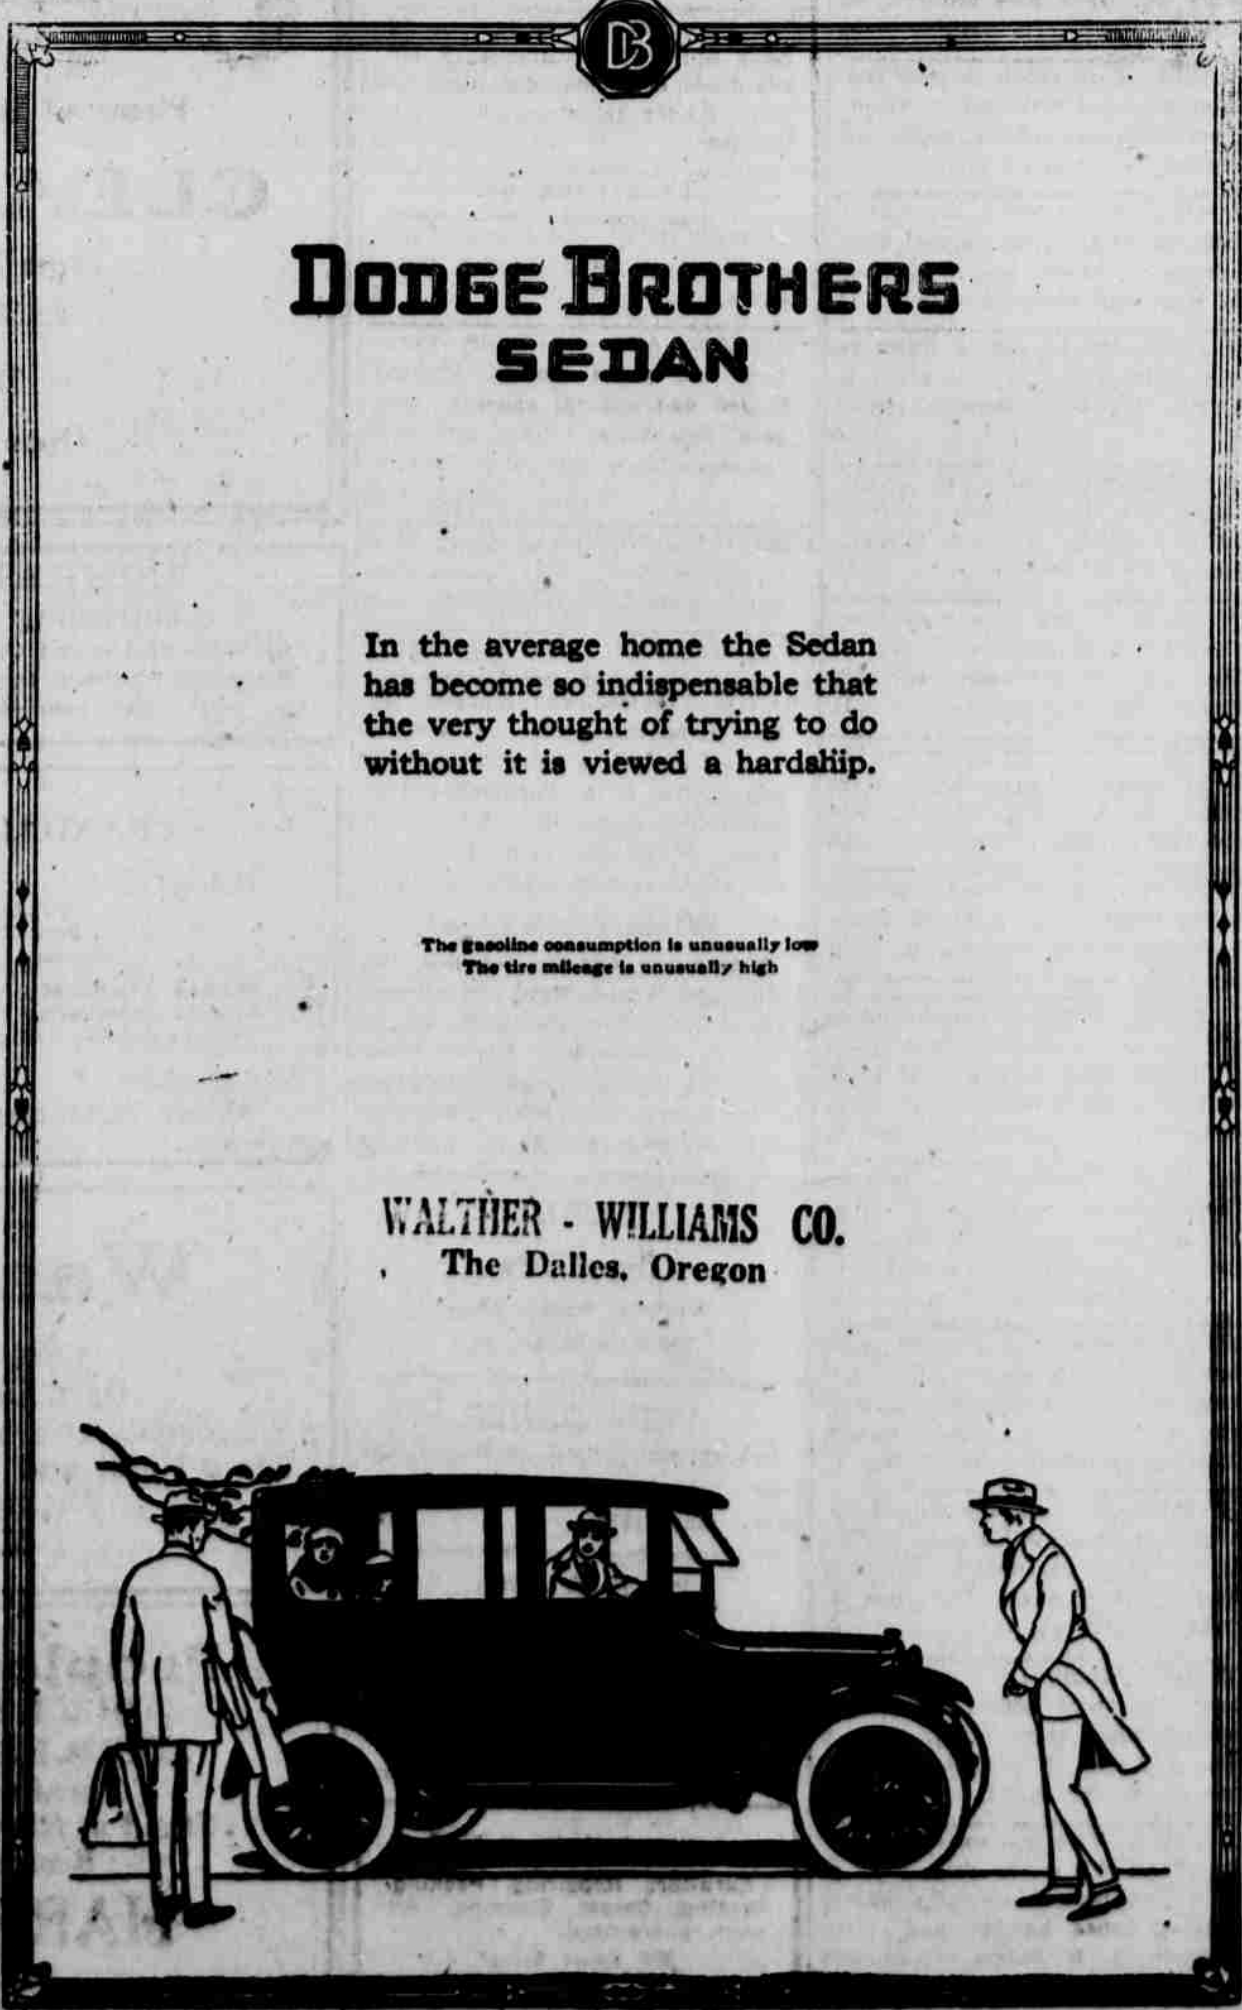

Motor roads lead to the Grand Canyon through Ashfork, Williams and Flagstaff, Arizona—and all the way you can get "Red Crown," the all-refinery gasoline.

You'll be glad if you make your Grand Canyon trip a "Red Crown" trip.

Look for the "Red Crown" sign on service stations and garages.
