KEEP your baking costs down

HERE'S THE BEST WAY TO USE CALUMET BAKING POWDER

THE first thing you want in foods and the all important thing is purity.

Foods should be nourishing. That's what they are for—to build up strong, sturdy bodies.

Calumet Baking Powder is pure in the can. It is made in the largest, cleanest, most modern Baking Powder Factories on earth—only of such ingredients as have been officially endorsed by United States Food Authorities.

It's pure in the baking. Calumet never fails to produce the sweetest and most palatable of nourishing foods.

It has more than the ordinary leavening strength. You use less of it. That's one reason it is the most economical of all leaveners.

Another reason is—it is sold at a moderate price—you save when you buy it.

Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Waffle Recipe
2 1/4 cups sifted pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 teaspoon salt, 1 1/2 cups milk, 1 tablespoon sugar, 2 tablespoons of melted butter, 2 eggs beaten separately. Then mix in the regular way.
