John McClaskey Injured—The sudden snapping of an automobile steering gear yesterday evening resulted in serious injury to John McClaskey, son of Patrolman James McClaskey, when an automobile he was driving east on the Brewery grade ran over the embankment, overturned and came to rest about 15 feet below the road. In overturning the automobile top crushed in on young McClaskey, breaking his collar bone and resulting in possible internal injuries. The accident occurred near the top of the grade, at a point where there is no stone barricade, such as extends along the lower part of the road. Passersby extricated McClaskey from the wreck and rushed him to the hospital where his injuries were treated. He was later taken home.

COLUMBIA RIVER UP 1.9 FEET; NOW AT 32.4

The Columbia river continued on its rampage today, with little indication of immediate abatement. The river now stands at 32.4 feet, having climbed 1.9 feet during the last 24 hours. Virtually the entire beach below the city is now under water, with an eddy lapping at the concrete foundation of the Umatilla house. All squatters, a number of whom had been camping on the beach during the winter, have now moved to higher ground. Old river men who have viewed each spring freshet, explain that the present high water is nothing to be alarmed about as long as the weather continues cold. A few days of hot weather, however, would swell the river with water from melted snow in the mountains, they say.

The state did not begin to collect fees on automobile registrations until 1907, and in that year the total receipts were \$708. Until 1904 motorcycles were included with motor vehicles in registration and licensing.

Big Jump Shown

Chauffeurs were not licensed until 1911 and dealers not until 1914. In that year, the first when motor vehicles, motorcycles, chauffeurs and dealers were all registered and licensed, the fees jumped to \$77,592 from \$56,873 the previous year. Annual registration, however, was not required for motor vehicles prior to 1911, and in that year fees jumped to \$27,316 from \$7479 the year before.

OPPOSE UNION OF PROTESTANT CHURCHES

By United Press WINONA LAKE, Ind., May 20.—On the eve of the opening of the Presbyterian general assembly it was apparent that the million and half members of this denomination have voted against organizations of all protestant churches in America into one creed.

The question of church amalgamation was put up to the rank and file of Presbyterians by last year's assembly. The result of that vote is in the hands of Dr. J. Ross Stevenson, dean of Princeton theological seminary and head of the committee on church amalgamation.

The protestant Churches may, however, through close cooperation obtain the advantages of economy and efficiency that is looked for by advocates of the Amalgamated church.

Others of the assembly said that church members think too much of their particular doctrine to abandon it.

The committee of which Dr. Stevenson is chairman has recommended a union of all five branches of the Presbyterian church. His report will be made Friday.

The assembly opens with the address of Dr. S. S. Palmer, retiring moderator.

42 VETERANS TAKE FARMING AT O. A. C.

OREGON AGRICULTURAL COLLEGE, CORVALLIS, May 20.—The number of wounded ex-service men receiving training at O. A. C. from the government to act as managers of their own farms is proving that the old A. E. F. song, "How You Gonna Keep 'Em Down on the Farm—After They've Seen Poree"—is all wrong.

Forty-two men are receiving this training and all of them either own farms now or have definite prospects for obtaining a certain piece of land. Most of this "back to the land movement" is to take place in Oregon, for the ratio of men in this training is about the same in the whole college, 240 of the 325 "trainees" being Oregon men disabled in the war.

These men are interested in diversified farming, which covers all phases of agriculture. A definite course is mapped out for farm managers when they report for training.
