THE FORUM

June 1 Editor of The Chronicle:-This just to let the people of Wasco counup about good roads and The Dalles-California highway. I will say that I am a firm believer in good roads and highways and it would be a very good idea for every voter in Wasco county to use his very best judgment and thought before he goes to cast his vote. I have several good reasons for writing this letter.

Now that automobiles and trucks have come to stay, we are unable to build roads of dirt that will stand up. We have got to look for some thing better. The Dalles-California highway will mean the main outlet for the county. After it has been built, as I understand to law, the state will keep up the road. This will leave the money previously spent on the main trunk to be applied on other branch roads, and we may be able to gravel these, I am very much in fa vor of this improvement.

Respectfully submitted C. H. GILPIN. Road Supervisor, Dist. 18, The Datter

Wapinitia, June 1 Editor of The Chronicie: "Important" is the heading of an anonymous letter cent out to the voters of Was co county to destroy votes for The Dalles-California highway bond issue -I say anonymous because it is sign. ed "Citizens' Welfare League of Wasco county." There is no such animal. If this letter was fair and its instigators were clean purposed they would have complied with the law and have signed by their officers as provided by the corrupt practices act.

It has been stated by men who are working heart and soul for Wasc county in this road fight as well a for other county improvements that Marcus A. Mayer, a Portland retired capitalist, with orchard property hold ings in Wasco county, is the prime! over, the dark horse in this attack on Wasco county's much needed high

The people are entitled to know about this letter and this Citizens Welfare League scheme. People can be fooled often and it seems that the framers of this plot desire to ali:

without giving time to answer-but we are on the job. First read The Dalles-Wasco County Chamber of Commerce ads in the county papers

Mark A. Mayer owns a palatial farm mansion and valuable orchard east of Mosier. I'll not state how the dear was arranged that the Columbia highway happens to go right through his property for about a mile and that \$400,000 or more was spent for the first four miles of Wasco county Columbia highway that parses his door. This \$400,000 includes the pavingcoment as this is written. What does of Central Oregon or of Wasco comty? He has his highway. What if the broken link in The Dalles-California highway by failure of our bond issue would cripple Wasco county, and Sherman county would get our highway? He is well taken care of.

What if responsible and desirable American farmers, pioneers of our mmonwealth, are isolated by the suited. mpossible winter roads—even to the exclusion of the doctor's visit of times? not now want to help the farmers to get even a graveled market road,

Edward C. Pease, a responsible The Dalles pioneer business man, made a public statement at Maupin to a great throng of taxpayers, that can be re lied on as true and carefully checked by the assessor. I would look with purpicion on a letter that does not conform with these statements of Mr. Pen e-since the letter is not signed as by law provided.

Times come in the affairs of com ies as well as men when the flood ide mus be taken to move with sucess-today Wasco county stands a the threshold of its first and great est opportunity with the entire state schind it and it teems vicious that tome outside resident in order to save few coppers would attempt to side-'rack 6000 voters.
