Hard Facts and Plain Truths

Concerning

The Proposed \$800,000 Bond Issue

A Financial Maelstrom

Vote "NO"

Adoption of the \$800,000.00 bond issue goes beyond the margin of safety.

In five years the taxes of Wasco County have increased 95 percent.

In the same period the assessed valuation of Wasco County has increased only 17 percent.

The \$800,000.00 bond issue will mean an annual interest account at 6% of \$48,000.00 and an annual sinking fund for amortization necessitating a levy of 5 mills.

Does the limited resources of Wasco County, present business conditions and future outlook warrant the assumption of such an enormous, staggering, stupendous indebtedness as the \$800,000 bond issue and the consequent increase in taxation?

Taxes must be paid. Taxes are confiscatory. If taxes are not paid, property is sold to satisfy the delinquency.

Have you any assurance that the proceeds of the \$800,000.00 bond issue will not be wasted as was the money raised by the former \$260,000.00 bond issue?

The \$800,000.00 bond issue is a plunge into the maelstrom of financial ruin from which there is no escape.

A negative vote is evidence of financial sanity and notice that reason still prevails.

Is not the \$800,000 bond issue going beyond the margin of safety? Are not your present tax burdens almost to the breaking point and will you voluntarily assume a burden that presages bankruptcy and ruin?

Vote on June 7th and give notice that you regard the security of your property and your home of paramount importance and that you are not to be cajoled into placing your hard earned competency in jeopardy.

VOTE "NO" ON THE \$800,000.00 BOND ISSUE.
