Gorgeous Mt. Rainier

Mount Rainier is 14,408 feet above the sea-level—the second highest mountain peak in the United States. It is the center of Rainier National Park, Washington—and is situated about seventy-five miles by road east of Tacoma.

This remarkable mountain is of volcanic origin and is now crowned with snow and ice, having the most extensive glaciers to be found in the United States.

The National Park Highway leads directly from Tacoma to Rainier National Park, and at Longmire Springs—within the Park boundaries—is a Standard Oil service station ready to serve motorists with Red Crown Gasoline.

Wherever you tour in Washington you will see the Red Crown sign on service stations and garages. It is the sign of quality in gasoline.
