ORIGINAL DEFECTIVE

The Weekly Enterprise.

TOWN AND COUNTY.

—Circuit Court adjourned on Thursday. There will be a special term, commencing May 10th.

—A goodly number of the temperance people of this city paid Portland a visit on Thursday evening.

☞ People that advertise only once in three months forget that most folks cannot remember anything longer than about seven days.

—Mr. J. L. Barlow of this city, has been appointed local agent for the Phœnix Insurance Co., said to be one of the best companies doing business on this coast.

—Messrs. J. R. Ralston & James Winston have formed a business co-partnership. At the old stand of Ralston & Myers. Mr. McCarver is now clerk with Sheriff Myers.

—Sheriff Myers disposed of the Wallamet Steamboat Co.'s sheds several days ago—but they have not yet been removed. Attention of the Council is directed to this fact.

—As there will be a meeting of the City Council soon we invite attention to the condition of the street and steps, near the reservoir of the Water Works. There is a big leak there, which needs to be stopped.

—Judge Upton has a pretty clear head. He made some righteous rulings at this term, concerning applications for divorces, which we shall endeavor to obtain, for publication.

— Clackamas County has paid Besser & Co., $150 00 for the right to use the Gardner Patent Shakel. It was necessary for the safe keeping of prisoners—and the occasional transportation of a convict to Salem.

—The *Herald* and *Commercial* are hopping mad about the "*situation*" at Washington respecting the O. C. R. R. Of course *those journals* are disinterested parties. Oh, yes!

—A *smaller* transaction than contemptuously sending a few "dead head papers" back to this office by the P. T. Company, was attempted to be played upon the Good Templars, who chartered the *Senator* for a trip to Portland, last Thursday. Comment is reserved.

—We were in error last week in stating that Mr. Barlow had the contract for furnishing the Hose carts and Hook and Ladder Truck for the fire Department. They will not only be *made* by Mr. David Smith but upon a direct contract with him. His shop affords facilities equal to any for the construction of all sorts of vehicles—even baby cabs.

—The St. Paul *Pioneer* assures us that work will be commenced upon the Northern Pacific Railroad this spring. Col. Wm. Crooks, one of Minnesota's most indefatigable workers has taken another large contract on the St. Paul and Pacific R. R., which will lay that track out to the Western boundary of Minnesota.

—We understand that a beast in human form is running at large in Clatsop county on $4,000 bonds for his appearance for a crime worse than incest. We love order, and law—but in the case of this man think a charge of cold lead is deserving, and recommend its application by the father of one of those little girls.

—The Grand Jury did not report that the cells of our old County Prison are illy adapted to the purpose for which they are used, nor that the County should begin to lay up funds for the construction of a new jail—but they truthfully remark in their report, that they found the building "neat and well kept," although "not as commodious and substantial a structure as it ought to be."

—The Editor of the *Advocate* passed up the Wallamet 17 years ago, on the steamer *Canemah*, in the time of Capt. Bennett. Then one boat was sufficient for the trade, making but weekly trips, and these were discontinued from June until the return of the rainy season. Now there is demand for daily trips for almost the entire year, to carry passengers and transport the freight of this valley.

—Mr. J. W. Lewis, Manager of the State Agricultural Society for Clackamas county, has received a superb Silver Cup, from the Secretary of the Society, to be awarded to Clackamas Base Ball Club of this city. The inscription on the cup tells the whole story. It is as follows:

CHAMPION CUP.
CLACKAMAS
BASE BALL CLUB,
Oregon City.

Awarded by the
STATE AGRICULTURAL SOCIETY,
October 1868.

Three cheers for the Clackamas Base Ball Club; Hip. Hip, Hurrah.

—Prof. Kingcade, of this county, has discovered one of the best and most expeditious methods for the subtraction and addition of fractions that it has ever been our lot to investigate. He has but two cases for each, and the rules are so simple that they cannot be misunderstood, but to make them perfectly plain he has taken an example for each, and worked the sums on a card, without reducing them to a common denominator, and without employing division, which he is prepared to send to any who desire to banish from their brain the botheration of fractions, in subtraction and addition. His address is Molalla, Clackamas county.

—Mr. Dean Blanchard, of Rainier, was in town on Tuesday, and he paid us a friendly call. Mr. Blanchard is yet turning out a most excellent quality of lumber for the San Francisco market, and he sometimes finds it inconvenient to procure shipping at home and send abroad for a vessel to come in ballast and receive an outward cargo. He has thus just frighted the *Zephyr*. He is hopeful that the coming emigration may call in at Rainier, as there is valuable land in that vicinity enough to support a large population, stretching back to the Nehalem, from Rainier.

The Wallamet Falls Canal and Lock Company.

The importance to the people of Oregon, of the work to be constructed by this company, can scarcely be overestimated, and we are glad to know that the prospects for their early construction, are every day becoming better. The Wallamet river is a life artery of this State, and must continue, even after the construction of railroads, to occupy a very important relation to the material interests of the people of Oregon. The great want of this country is cheap transportation. We have the soil, climate, timber, minerals, and all the material resources of a great State and a prosperous community. Yet we are in a great measure shut out from the rich markets of the world, for the simple reason that monopolists and speculators have secured our avenues of communication with the outer world.

We are not particularly surprised that this is true, nor are we disposed to complain about it, knowing as we do that it is human nature to do as these speculators have done, yet we feel that the days of their domination are numbered, and that the construction of the Locks on the West side of the river at this place will hasten the day when Oregon, like a young giant, will spring forth "renewed, regenerated and disenthralled." We are not disposed to under-rate the magnitude of the works already constructed by the People's Transportation Company, though the more intelligent members of that Company know they fall far short of answering the purposes for which they were intended; but we do deprecate the spirit which actuates them in attempting to cast odium upon *other men* who are disposed to profit by *their* experience.

The last Legislative Assembly, appreciating the importance of removing obstructions to the free navigation of this river, passed an act appropriating one hundred and fifty thousand dollars, out of funds donated to the State for the purpose of internal improvements, as an inducement to the construction of a canal and locks around the falls; under this act a company has undertaken the work and the day is not far distant when unobstructed navigation of the Wallamet, from its mouth to the head of navigation, will forever prevent its control by one company. Heretofore it has been madness to attempt to sustain an opposition of boats on the river, because the facilities of the P. T. Co. for transporting freight *over the falls* have given them an advantage, which enabled them to carry freights at a rate that would not pay an opposition line. This state of things must continue until the canal and locks are constructed, when the day of high freights, and supercilious behavior, will be at an end. In the mean time we may expect that the project will be frowned upon by the P. T. Co. and their satelites, against whose domination it aims a fatal blow. But the work will go on, and our advice to the P. T. Co. is this: "Make hay while the sun shines;" put up the price of freights, grind the face of the poor, *reward your friends*, and *punish your enemies;* and if other oppositions should be put on, WATER YOUR STOCK *and buy them out.* By this course you may perhaps wring from the people enough to enable you to leave the country, when you can no longer make merchandise of the people's necessities.

Suits for Right of Way.

Of the 21 suits for right of way commenced by the Railroad Company in the the term of court just ended, only one came to a contested trial. In one case where no defence was made, a jury was empaneled to estimate the damages and proper evidence submitted to them. Several cases have been amicably settled, and the majority of those continued to the October term, are cases involving the rights of minor heirs, which could not easily be settled by any other course and have to be continued to give all the parties a proper hearing. In the case of Judge A. E. Wait who owns about 640 acres of land on Baker's Prairie, known as the Beales donation land claim, a determined contest was made, the damages claimed being $1,200. This case occupied over two days. The jury was, at the request of Judge Wait, sent out to view the premises, a large number of witnesses were examined, and as the result a verdict was rendered in favor of the defendant for fifty dollars damages, which in view of the fact that the Company had in writing tendered Judge Wait one hundred dollars rather than resort to litigation, may be considered a decided triumph for the Company. We believe the action of this jury is a good index of the popular sentiment, that the building of railroads through Oregon should not be hindered by factions, opposition and personal desire for gain.

PROTECTION TO NEWSPAPER PUBLISHERS.—The following are the laws of Congress touching the liability of subscribers to newspapers:

1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscription.

2. If subscribers who have not paid, order their papers stopped, the publisher may continue to send them until paid.

3. If subscribers refuse or neglect to take their papers from the office, they are held responsible until they settle the bill and order the paper discontinued.

4. If subscribers remove to another place without informing the publishers, and their papers are continued to the former direction, they can be held responsible.

5. The Courts have decided that refusing to take a paper from the office, or removing and leaving it uncalled for is *prima facie* evidence of intentional fraud on the part of the subscriber.

SADDLERY.—J. H. Schram, of this City, is now manufacturing the best Saddlery and Harness in the State. He will have at least 50 sets of all grades, from fine to common, finished and ready for sale next month, and more than that number of Saddles. He is bound to make a trade with any man who wishes to buy of him. He uses both Oregon and California leather in his establishment, and his work bears a most excellent reputation abroad. We hope that citizens of our own county will think of this, when they want any articles in his line.

RAILROAD ITEM.—While some men are trucks to bear the burdens of the earth, or furnace grates to bear the fires and to be consumed in obscurity, others are driving wheels which give life and motion to all with whom they are connected. Kohn & Fishel, the leading dry goods merchants of Portland are the driving wheels of trade in that city. They conceived and carried on to completion a work nobler than the Pyramids, grander than the gardens of Nineveh, or the walls of Babylon; for their work is not a monument for the dead, neither the gratification of a luxuriant fancy, but it is a new pathway for purchasers, a link to bind the chain of families and the hearts of men.

And all the Favorite
Brands of Flour and Sugar
☞ *The highest market prices paid for country produce.*

PREMIUM
GANG PLOWS.
As the age in which we live demands progress in Farming Implements as well as in all other branches of industry, I have entered extensively upon the Manufacture of the Celebrated
Pfeil Gang Plow!
Better known in Oregon as the WOLGAMOT PLOW. This Plow combines all the desirable points of a perfect implement, being simple in construction, cheap, durable, and of light draft. The only Premiums which were awarded to Gang Plows at the great Implement trial at Mattoon, Sept. 4, 1866, by the State Agricultural Society of Illinois, were awarded to this Plow. The following is an extract from the Report of the Commissioner of Agriculture, for the year 1866, and may be found on page 246 of that report:—
"The Gang Plow made by J. C. Pfeil, Arenzville, Cass county Illinois, is received with no little favor in the west. Almost incredible stories are told of its excellence and efficiency in plowing the prairie fields of Illinois and other States.
"The depth of the furrow is regulated by the crank-axle, which is so arranged that the ploughs can be driven deeper or shallower at the pleasure of the driver, when the team is moving, by means of the lever.
We also manufacture sulkey plows for small boys, or infirm persons who are unable to manage a team of three or four horses.
This gang or sulkey plow, will cut a furrow from 2 to 10 inches deep.
"The committee who tested the draught of this plow with a dynamometer state, that it ran lighter by 140 pounds, than other plows when running at the same depth, and held by the plowman while on foot."
☞ *With this Plow one man can do more work than two men can do with walking Plows, and the same amount of team. Hence, it will be seen that it will more than pay for itself in one season's plowing.*
I will also manufacture the
WEB-FOOT GANG PLOW!
—AND THE—
Web-Foot Walking Plow!
Both patterns of my own invention, for which patents have been applied for, and which have withstood practical tests with the best results, receiving flattering testimonials wherever seen or tried.
☞ *Now, the Farmers of Oregon are invited to give the Oregon City Manufactory a trial. Do not purchase a Plow of any description until you have examined my make and prices, as I am determined to sell at less than importer's rates, by giving you a more durable article, and a guarantee warranting the same.*

ROBINSON'S
Celebrated Magic Soap Powders!
Prepared in 6, 12, and 24 lb. Boxes,
READY FOR WASHING!
—o—
This is cheaper than Common Soap. It removes Paint, Tar, Pitch and dirt of every description; and which has given such general satisfaction, by proving that your washing can be done with one-half the time and labor of the old mode. Thus labor saved is money made; as wash-boards, machines and hard rubbing to wear out clothes, is entirely dispensed with, and the washing for a dozen persons can be done in two hours. Thus the cost of your washing being three-fourths less than by any other process, as you use no other soap.
These Prepared Powders or Soap have not only proved themselves superior for washing any and all kinds of goods, but proved after one year's use not to injure in the slightest degree any fabric of the finest texture; and, also the finest article for the hands, as it makes them soft and white, as well as your clothes. It also keeps your hands from chapping when exposed to the air.
We defy the world to produce its superior for washing any and all kinds of goods. Our object is to save your time, expense, hard labor, and especially the woman who has to wash.
We take pleasure in announcing a few of the many ladies' names—by their consent—who have used our Prepared Magic Soap Powders, from six months to one year:
