BY THE SEA.

Backward and forward, under the moon. Swings the tide, in its old-time way : Never too late, and never too soon ; And evening and morning make the day.

Backward and forward, over the sands. And over the rocks, to fall and flow :

And that one has seen a face we know.

They have speed the good ship on her way, Or buried her deep from love and light But here, as they sink at our feet to-day, aright?

Are blended now in one solemn tone: And only this song of the waves I hear, " Forever and ever His will is done."

Backward and forward, to and fro, Swings our life in its weary way : Now at its ebb, and now at its flow; And evening and morning make the day.

Sorrow and comfort, peace and strife, Pain and rejoicing, its moments know; How, from the discords of such a life, Shall the clear sweet music flow !

Yet to the car of God it swells.

Sweeter than chimes of vesper bells, " Forever and ever His will is done." Andy Johnson's Washington Sere-

HEARTLESS DESERTION. Young Lady of Seventeen Cruelly Left amongst Strangers, Pennilos and Alone.

From the Omaha Republican.

It is seldom, indeed, that we are called upon to chronicle a case like the following, wherein appears all "the ingredients of a sensational article." Everything of this class is and ever will be, entirely eschewed by the editors of this journal. The manufacturing of romance, and "exciting scenes" has become altogether too common among the reportorial corps of our new Northwest.

There arrived in Omaha, on last Wednesday, Mr. Wm. F. Petit, and his family, from Owatonna, Minn., en route to Santiago, in Southern California. His daughter, Lizzie Petit, was accompanied by her affectionate lover, Mr. Crosby Whoolet, a young man who in childhood had been her playmate, and in manhood her constant companion.

During the transfer of passengers from the eastern to the western depot, the young couple were placed in one omnibus, while the family were all transported in another. The conveyance containing the happy pair accidentally broke down while on its way to the Union Paeific depot. The result was, the separation of Mr. Petit and family from his daughter and her lover. The latter having been left in Oma-

Whoolet at once escorted Miss P. to the Morrison House, and secured rooms for both. The day was passed in visiting the different points of attraction in our beautiful city, but when night came the young man sallied forth from the iotel to "see the elephant," since when he has not been heard from. He had in his possession the ticket and checks for baggage belonging to his "to-be bride," and about 500 dollars in money. The young lady becoming alarmed at his protracted absence, yesterday sent for the Marshal and had a search instituted for his whereabouts. A detective reports having seen him in a keno bank at a late hour Wednesday night, and it is possible that the young man has met with foul play, but the general impression is that he must have lost his little worldly store of greenbacks, and either left the city in a state of listraction, or, having been lucky in his gambling scheme, was inveigled to some secluded spot and ne met with foul play.

The former theory is more probble than the latter; but, be it as it may, detectives are at work, looking up the case. Her father has already been telegraphed to, and will either return, or send his daughter money to pay her way to the Golden Gate.
