BY JULIA A. SHEARMAN. O'er the smoky track of the railroad, Stretching in from afar, Borne by the snorting iron horse, In the dusty, crowded car. From the city's noise and glare I come Once more to a realm of peace. Where the din is all hushed in silence And the turmoil seems to cease. Yesterday-hosts of pale, careworn men, Threading the crowded street, With eyes that scarce see the blue of heave For watching the weary feet. To-day,-the sweet, happy, careless birds, Warbling from tree to tree, Drinking in life with each balmy hour And breathing out melody.

IN THE COUNTRY.

Yesterday-sad looking, patient beasts, Dragging their straining loads, Forced by the whip and the cruel rein Over hot and dusty roads.

To-day-herds of well fed cattle Grazing beneath the trees, Or chasing each other in frolic

While snuffing the sweet, fresh breeze. Yesterday-rows of gaudy windows

Flaunting their showy wares, And groups of unnatural women Parading their silly airs.

To-day-sweet Nature's own drapery Hanging in exquisite grace, Green grasses for carpets, and flowers For delicate woven lace.

And across the road at the window A fair young face I can see, 'Tis Sally, the farmer's fair daughter, Watching, yes, watching for me. With her sleeves rolled above her elbows And hands that can work with a will, I'll match her with any town damsel Decked out on Broadway to kill. Breathing freely amid this beauty I'll forget the city's ways, Sheltered here alike from its labor, From its censure and its praise.
