

LITTLE FINGERS.
Busy little fingers,
Everywhere they go;
Rosy little fingers,
The sweetest that I know.
Now into my work-box,
All the buttons finding,
Tugging up the knitting,
Every spool unwinding.
Now into the basket
Where the keys are hidden,
So mischievous-looking,
Knowing it forbidden.
Then the mother's tresses,
Now her neck enfolding,
With such sweet caresses,
Keeping off the scolding.
Darling little fingers!
Never, never still;
Make them, Heavenly Father,
One day do Thy will.
The Health of our Girls.

How many perfectly healthy women of thirty-five, or even of twenty-five, do any of us know? Could they not all be told on our fingers? And oh, how wearisome is life to a broken down mother, with the wants and cares of life clustering about her, while she has no strength to meet them!
The cause and fault lie largely with the mothers. They are chiefly responsible for this sad condition of our American women. The remedy must be in paying more attention to the health of our little girls. That should be the great consideration, next to our moral training. The intellectual culture must give place to that most important matter, or the saddest results will surely follow. If the cultivation of a sound, vigorous constitution is made the main object of the first fifteen or sixteen years, there will be a vast flood of suffering swept away from our land in the next generation. The present school system for young ladies is a terrible drain on the life force, and a thorough change should be demanded by mothers before entrusting their girls to their tender mercies. The overflowing spits of our boys drive them to vigorous outdoor sports, which largely counteract the influences of the poisoned heated air in ill-ventilated school-rooms, and the overtaxing of brain by the multiplicity of lessons. But a girl's habits and the general sentiment of "good society," tender in her case entirely the other way. Hearty plays are "unladylike," and what well-bred girl will risk acquiring such a reputation? This sentiment works its deadly mischief, but it may in a measure be counteracted by giving our girls domestic employment. This may be varied, and is very healthful, because of the multitude of muscles brought into action. Besides, it is a lesson which will be life-long service to them. Early instill into their minds the principle that work is noble, and honorable—that to be a useless drone in the world's busy hive is despicable. Teach them to live for a purpose, and to consider all right knowledge as so much gained toward the great end. No one can tell where or when the little lesson, learned so thoughtlessly at the time, may come in use, nor how great may be their value.

But with all their requirements, let "a sound mind" in a sound body" be your study and aim unceasingly, and if God spare your life you will not fail to see your reward.—Country Gentleman.

Grant and Porter have settled the little misunderstanding, and are now as loving as two sick kittens. "Verily, verily, I say unto you, Porter, my boy, you shall be admiral!" "Bro, Grant, unassuming, unassuming, noble Grant, I'll tell you no more tales out of school—to Gideon Welles, the scamp!"

The Iuka (Miss.) Gazette says there is a man living in Itawamba county by the name of John Owens, who was 111 years old on the 15th day of October last. He was born in North Carolina and has resided in this State for the last forty years. He has been twice married, the last time when he was 94 years old.

The revolutionary party at Rome, on the 9th inst, raised a tumult which at one time threatened to end in the sack of the Vatican. It was quelled by the *gas-acetone* and military with some difficulty.

ADDRESS
TO THE
NERVOUS & DEBILITATED
WHOSE SUFFERINGS
HAVE BEEN
Protracted from Hidden Causes,
AND WHOSE CASES REQUIRE
Prompt Treatment
to render existence desirable.

If you are suffering or have suffered, from involuntary discharges, what does it do to your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys frequently get out of order? Is your urine sometimes thick, milky or sticky, or is itropy on solid? Or does a thick scum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? Do your spirits dull and dragging, given to fits of melancholy? If you do not lay to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia, or liver complaint?

NOW, READER,
self-abuse, venereal diseases badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, MAKE THE MAN.
Did You Ever Think
that those bold, defiant, energetic, persevering, successful business men, are always those whose generative organs are in perfect health?
You never hear such men complain of being melancholy, or nervous, or palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are all ways polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks or other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only
RUIN THEIR CONSTITUTIONS,
but also those they do business with or for. How many men, from badly cured diseases, drop the objects of self-love and excesses, have brought about that state of weakness in these organs that has reduced the general system so much, as to induce almost every other disease—

IDIOCY, LUNACY,
PARALYSIS,
spinal affections, suicide, and almost every other form of disease which humanity is heir to, and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right organ to them.
Diseases of these organs require the use of a Diuretic.

HELMBOLD'S
FLUID EXTRACT
BUCHU
is the great Diuretic, and is a certain cure for disease of the Bladder, Kidneys, Gravel, Dropsy, organic Weakness, Female Complaint, General Debility, and all diseases of the Urinary Organs whether existing in Male or Female, from whatever cause originating, and an infallible cure for Gonorrhoea, Gleet, and all other diseases of the Urinary Organs.
If no treatment is submitted to, Consumption or Lassa may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of Posterity, depends upon prompt use of a reliable remedy.

DR. JULIEN PERRAULT,
Dr. of Medicine of the Faculty of Paris, Graduate of the University of Queen's College, and Physician to the St. John Baptist Society of San Francisco.
Dr. Perrault has the pleasure to inform patients and others seeking medical and dental advice that he can be consulted daily at his office, Armory Hall Building, North East corner of Montgomery and Sacramento streets, San Francisco, Rooms Nos. 9, 10, 11, first floor, up stairs, entrance on either Montgomery or Sacramento streets.
Dr. Perrault's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical debility, the result of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life, and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, and compulsory single life, often have their sources in causes, the germ of which is planted in early life, and the bitter fruits tasted long afterwards; patients laboring under this complaint, will complete one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of memory, general debility, loss of the Urinary on going to stool or making water, Intellectual Faculties are Weakened, Loss of Memory, Ideas are clouded, and the mind is unable to concentrate its powers, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that slight sinking or weakened attention, sleep disturbed by dreams; melancholy, sighing, palpitation, faintings, coughs and slow fever, and all these symptoms, and mental pain, and numbness of the legs. Some of the common symptoms are pimples in the face, and scaling in different parts of the body. Patients suffering from any of these cases, should apply immediately to Dr. Perrault, either in person or by letter as he will guarantee a cure of Nocturnal Emissions and impotence, or eight weeks.
Patients suffering from venereal disease in any stage, Gonorrhoea, Gleet, Stricture, Bubon, etc., Dr. Perrault's diploma are in his office, where are patients can see for themselves that they are under the care of a regular educated practitioner. The best medicines given are those of the Dispensary.
Patients suffering under chronic disease, cannot and examine for themselves. We invite investigation to claim, not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promise. We particularly request these who have tried the services of a doctor, and that advertised physician, to wear out and discarded, to call upon us. Low charges and quick cures.
Patients suffering from any complaint incident to their sex, can consult the doctor with the assurance of relief.
Permanently Monthly Pills.
Dr. Perrault is the only agent in California for Dr. J. C. Murray's Monthly Pills. Their immense sale has established their reputation as a female remedy unapproached, and for in advance of every other remedy for suppression of the menses, and all other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail express to any part of the world, secure from confiscation.
Persons at a distance can be cured at home, by addressing a letter to Dr. Perrault, at his office, 10 and 11, Sacramento Street, P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., and enclosing a fee of \$5.00.
All communications confidential. 1876
