STABBING AFFRAY.—Last Saturday a boy about 17 years of age, named Nathan Hillery, stabbed another boy several times in the back with a pocket knife, inflicting severe though not dangerous wounds. The boys had some trouble about an old watch, and took this means to settle the flifficulty. It is a sad state of affairs when boys of this age carry their little troubles to an extens which becomes criminal, and we hope that these boys may grow wiser and better as they grow older, or they may be the cause of bringing their parents to an unhappy grave, and themselves either to the penitentiary or gallows.

Concert.-Our citizens were treated with a rare musical entertainment last Saturday and Monday evenings by the Viewstemps Bros. and the Taylor Family (Mart. Taylor.) The music by the two brothers was excellent, and the humor displayed by Mart. Taylor kept the house In a constant roar. The Hall was crowded to its atmost capacity both evenings, and bur citizens have looked happier and counger ever since, owing, no doubt, to he hearty laughs they had. We cannot particularize any part of the performance. but suffice it to say that it was the best that has ever Been in this city since our tesidence here. We hope they may have browded houses wherever they go.

Pain is supposed to be the lot of us poor mortals, as inevitable as death itself and liable at any time to come upon us. There- DIFFERENT KINDS of MEN'S BOOTS fore it is important that remedial agents should be at hand to be used on an emergency, when the seminal principle lodged in the system shall develope itself, and we feel the excruciating agonies of pain, or the depressing influence of disease. Such a remedial agent exists in the Pam Killer, whose fame has made the circuit of the globe. Amid the eternal ices of the polar regions or beneath the intolerable and burning sun of the tropics, its virtues are known and appreciated. Under all latitudes, from the one extreme to the other, suffering humanity has found relief from many of its ills by its use. The wide and broad area over which this medicine has spread, attests its value and potency. From a small beginning, the Pain Killer has pushed gradually along, making its own highway, solely by its virtues. Such unexampled success and popularity has brought others into the field, who have attempted, under similarity of name, to usurp the confidence of the people and turn it to their own selfishness and dishonesty, but their efforts have proved fruitless, while the Pain Killer is still growing in public lavor.
