### Address of Democratic Congressmen to the People of the United States.

To the People of the United States: Our presence and official duties at Whasington take enabled us to become fully a quinted with the actions and designs of those who control the Radical party, and we feer called upon to u ter a ferr words of warn ing against the alarming strides they have made toward the centralization of power in the hands of Congress and the Executive. The time and attention of the Radial leaders have been almost wholly diected to devising such legislation as will in their view, best preserve their ascendency, and no regard for the wise re-

Let us, in conclution, earnesily beg of you not to aid the present attempts of Radical partisans to stir up strite in the and, to review the issues of the war or to bstruct the return of peace and prosperiy to the Southern States, because it is has that they seek to divert the attention it the country from the corruption and -xtravagance of their administration of ublic affairs, and the dangerous and proligate attempts they are making towards he creation of centralized military Gov rnments.

In the five years of peace following the var the Radical Administrations have exended \$1 200,000,000 for ordinary purposes alone, being within \$200,000 000 of the aggregate amount spent for the same purpose in war and in peace during the seventy-one years preceding June 30. 1851, not including, in either case, the sum paid upon principal or interest of the public debt. It is triffing with the inteligence of the people for the Radical leaders to pretend that this vast sum has been ionestly expended. Hundreds of millions of it have been wantonly squandered. The expendatores of the Government for the fiscal year ending June 30 1861, were only \$62,000,000, while for precisely the same purpose-civil list, army, navy, pensions and Indians -- \$164 000 000 were expended during the fiscal year ending June ' 30, 1870.
