3. That the so-called reconstruction measures attempted to be carried out by the present party in power is a melarious scheme, revolutionary in design, treasonable in execution, one which it acquiesced in as a rightful exercise of authority will establish a most dangerous precedent and imperil the safety and prosperity of our form of government, and that the present Senators in the Congress of the United States from this State in supporting those measures have misrepresented the wishes and outraged the sentiments of the peaple of Oregon.

4: That the systematic efforts made by that party to extend to the African, the Indian, and the Chinamen all the civil and political rights and privileges enjoyed by the white race, evinces a design on the part of its leaders to destroy the high estimate placed upon that invaluable heritage and render desputism less objectionable
