OREGON CITY GRAMMAR SCHOOL,-This institution, under the anspices of Prof. J. A. Sellwood, assisted by Misses Barclay and Barlow, opened on Monday last, with some thirty scholars, which number was some angmented to forty, and it is now receiving daily accessions. We all feel and know the advatages derived from education, and should not allow an opportunity like this to pass without giving our children the benefit of an acquisition which molds man's or woman's character. We bespeak for this school a liberal patronage by our citizens. such a one as will make it a flourishing institution of which our people may well

NORTH PACIFIC RAILROAD MAP .- We have been presented by Gen. James Tilton, Chief Engineer of this division of the North Pacific Railroad, with a very fine map, showing the route of the road from oh in Minnesota to its termini Olympia and Seattle-on the Pacific slope. The map also shows the various isothermal liges, gives a full description of the country, and also points out the quality of the soil and for what products it is best adapted. It also gives profiles of the elevation of the Union Pacific and the Northern Pacific Railroads, which show that the alti tude of the mountain is much greater, and the ascents and descents much more abrupt on the Union Pacific than on the North Pacific Road. It is a valuable work. and we hereby return the General our

False Alarm.—Our quiet town people were disturbed last Saturday night about 111 o'clock by the cry of "fire." It was caused by sombody igniting a lot of old oxes in the rear of Franz's bafber shop. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING. nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and vet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
