TOWN AND COUNTY.

THE LADIES' FAIR .- On Wednesday evening last, the ladies of the Congregational Church gave their Annual Fair. which was attended by a throng of the beauty and chivalry of our prosperous city. At an early hour the doors were thrown open, and the hall was soon filled to overflowing. A fair amount of fancy work and infants' clothing was displayed upon tables, ranged around the room, and, judging from the smiling countenances of the "fair" ones who attended them, their sales were rapid, and prices good. In the center of the room a table was placed, laden with all the luxuries and delicacies that could tempt the eye of an epicurean. The principal article offered for sale was a beautiful wreath of wax flowers, set in an elaborately worked frame of shell-work, which displayed the highest order of taste and skill in the one who designed and manipulated its intricate and delicate composition. This picthre -- for it was a picture-was put up by Mrs. Holmes for two large apples. The lottery, and was won by a young man named Frank Egan. Every one present seemed well pleased with the result of the evening's entertainment, and it was not until a late hour that the attendants sought their homes. Much credit is due the ladies for the satisfactory manner in which they conducted the entertainment. The object of the fair was to raise funds to defray the expenses of the Congregational Church, in this city, and about \$85 was was served by the ladies, in the hall, which was well patronized.

NEWSPAPER BORROWERS .- An exchange has the following under this head. We and low prices of grain. We therefore urge think it will apply to a number of our friends in this city:

This wretched class of parasites is again hit off by one of our exchanges, as follows: "Of all things contemptible, a man who will read a paper at his neighbor's lower papers collectively, and editors generally. They always meet the carrier devouring every morsel of news it contains, throw it aside, saying, with a conit is really fit for nothing but waste pa- solation to the naturally weak and feeble to per. And yet week after week they know that they can be so invigorated and seem as anxious to gain possession of the paper, and seem as disappointed at its on-arrival as the good paying subscriber, who ever welcomes it as a pleasant | to have a much better chance of long life, visitor. Strange world, this."

RAHLROAD ACCIDENT .- On last Saturday, as the down freight train on the O. & C R. R. was in a cut, near Marion station. a bull plunged down the bank in too close proximity to the engine to avoid a collision. The locomotive passed over the animal, but the obstruction threw the tender and four or five freight cars off the track. No one was burt, except the bull, and he was made into hash instanter. The train was delayed some time at Salem, in consequence of the accident, and did not reach here until after five o'clock. We believe one of the lecomotive's driving wheels was injured, as she only brought a small train down, and was laid up at the machine shop for repairs. On Sunday | been left far in the rear. It has been the great medical success of the present century, evening the wrecked cars passed here on their way to the shops to be reconstructed

STRUCK A ROCK.-The Dayton, last Tuesday, as she was coming down the river into Rock Island, struck a large rock. making it necessary to beach her. The Shoo Fly was immediately dispatched to her relief, and took off her freight, which escaped damage. The Dayton was brought down and placed in the Dry-dock for repairs. The damage was slight and will be repaired in day or two, when she will again resume her place. The Shoo

A. lecalities, consisting of LOTS, HALF McCully, E-q., President of the late P. T. STORES; also Company, and the new boat on the upper river was to be called the "E. N. Cooke." This has been changed and the lower uncultivated LANDS, located in ALL parts bout is to be known as the "E. N. Cooke." and the upper river boat as the "Alice."

REVERSED.—The case of State vs. Jas. Officer, from this county, was reversed by TORIES, with great care and on the most the Supreme Court, last Friday. The case was appealed by S. Huelat, attorney for Officer, and the county will now have to foot a little bill of expense which was to avenge individual wrongs.

LECTED. And a General FINANCIAL and AGENCY BUSINESS transacted.

BOATS ON THE RIVER. - There are at present three boats ranning on the upper river, the Albany, Success and Shoo Fly. The two former run between here and Salem, and the latter is on the Dayton route, in place of the Dayton, for the present, until she is repaired. They came down with full freights.

Full.-There are about 800 or a 1,000 tons of wheat now laying in the ware-house in this place, awaiting shipment below. One beat cannot keep up with the attend. demand of transportation between here and Portland, as three boats are now bringing down full loads from above.

Extra Trains.-Extra trains were running yesterday, to-day and will to-mor- Members of the Order are invited to attend row for the accommodations of those who may desire to attend the Linn County Fuir. A train leaves Portland at 7:30 a. m., returning, leaves Albany at 5 p. m., ariving at Portland at 8:30 p. m.

Something New .- The steamer Senator took a load of wheat down the Columbia river as far as Columbia City, where she put it on board the San Francisco steamer. Something new to have our boats go so

far away from home. TIME FIXED.-By a private note from the Managers of the Cosmopolitan Benevolent Society's Concert, we learn that the day for drawing has been definitely fixed

for the 27th of November. OUT AGAIN.-The Fannie Patton was taken out of the dry-dock last Wednesday, where she has been for sometime undergoing repairs. She is now ready for the

winter trade. DEPOSITORY .- In consequence of the removal of Mr. Francis to Portland, the Clackamas County Bible Society has appointed Mr. J. M. Bacon its Depositor for

the sale of Bibles and Testaments. Special Service .- There will be a "Service of Song" at the Congregational

Church, on Sunday evening, under the direction of the choir.

It is not too much to say that more than half the people of the civilized world need an occasional tonic, to enable them to support the strain upon their bodies and minds, which the fast life of this restless age occasions. In fact, a pure, wholesome, unexciting tonic is the grand desideratum of the busy millions, and they have the article in Hostetter's Stomach Bitters. Among the great discoveries of modern science, few are of more real values to mankind than this effeetnal remedy for all diseases of the Thront and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that

CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most angerous affections of the Pulmonary Organs vield to its power; and cases of Consumption, cared by this preparation, are public-ly known, so remarkable as hardly to be be-lieved, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By caving Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Thront and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multi-tudes are rescued from premature graves, and saved to the love and affection centred on them. it acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. O No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily Originally the product of long, laborious, and successful chemical investigation, no cost or toil

hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restere the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous.
Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable, Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
