TOWN AND COUNTY.

PROF. CHANEY'S LECTURES .- We have distened to two or three of Mr. Chaney's lectures, in this city, during the past week, and must say that we believe him to be a man of great intellect and scientific abil-He seems very zealous in his cause, speaks with exceeding earnestness and applications. His prominent idea is that of the Old, as well as some parts of the New Testament are allegorical, having reference alone to astromonical and astrological existence. The book of Revelation, especially, he explains in a manner petectly clear to himself, at least, as having reference to the various signs of the Zodiac. The "four beasts" about the throne, he represents as four zodiacal signs, and their "eyes before and eyes behind, he says are clusters of stars which surround those signs. Thus he renders all those passages of the Divine Word. that cannot be interpreted in a literal sense, as having direct reference either to a zodiacal sign or some body of our planetary system. At the conclusion of each lecture he is handed the date of the birth of some person, unknown to bim, when he casts a horoscope, and by means of these same signs, delineates the events. both past and future, of the person. His found somewhat defective in some details, get he hits upon a few prominent features the character he delineates. We are disposed to give this gentleman due credit for his ability, yet we feel that our Lible s plain enough, when thoughtfully read, that our actions on this earth, if mided by its inspired traths and teachings, will bring us, through the mediation our blessed Lord, to that realm of ght and glory promised to all those who to the Master's will. It is our opinion hat this seeking to fathom the wonderons lepths of God's ways is vain, and will being nothing of benefit to us, if it does not lead many into scepticism and infi-

To Plow Makers .- Mr. W. B. Partlow. a gentleman residing two miles east of town, desires us to state that he has two plows one a Moline, and the other one a new style of plow, adapted to our high ridge land. Mr. Partlow also offers \$50 for a plow that will run smoothly, clean the board, and turn over the earth, instead of letting it fall back in the furrow.

MR. PLUMMER'S ENTERTAINMENT.-The entertainment given by Mr. C. B. Plummer, at the Court House, on Saturday evening last, was attended by a large and appreciative audience, who gave evidence of their satisfaction and delight by frequent and gushing applause. Mr. Plummer is too well known in this community to require any commendations from our pen. Suffice it to say, that his imitations, readings, recitations, and eccentricities are ininimitable, and he never fails to enterain his audience, wherever he appears. He will be at Salem during the Fair.

Ayer's Ague Cure, For Fever and Ague, Intermittent Faver, Chill Fever, Remittent Fever Dumb Ague, Periodical or Bilious Fever, &c .. and indeed all the affections which arise from malarious, marsh, or missmatic

No one remedy is londer called for by the necessities of the American people than a sure and safe cure for Fever and Agne. Such we are now combled to offer, with a perfect certainty that it will eradicate ance, founded on proof, that no harm can arise That which protects from or prevents this disorder must be of immense service in the com-munities where it prevails. Prevention is better

than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever et discovered for this class of complaints, but so the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where Feven And Agric prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich.

A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Again is not alone the consequence Fever and Ague is not alone the consequence of the miasmatic poison. A freat variety of disorders arise from its irritation, among which orders srise from its britation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Rowels, Colic, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malatravelling or temporarily residing in the mala-rious districts. If taken occasionally or daily while exposed to the infection, that will be ex-

creted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Herce it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords. For Licer Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.

Long experience has proved them to be the safest, surest, and best of all the Pilis with which the market abounds. By their occasional use, the blood is purified, the corruptions of the sys-tem expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed.
