British Rule Alarms American Manufacturers

LONDON, Jan. 2 .- The representatives of American manufacturers in England are much alarmed over a bill pending in parliament providing that if the proprietor of a word trademark so uses his mark as to lead the public to regard it as the name of an article it shall be removed from the register of trade-

It is pointed out that if the bill were passed many American articles which have become popularized through name trademarks, would probably be imitated under the same name and that Americans would have no redress, thus entailing untold loss to them financially if not the ruin of their business in Eng-

Federal Agents Continue to Round Up Suspicious Characters

NORFOLK, Va., Jan. 2.- Department of justice agents and naval patrols continued today to round up suspicious persons on this side of the Elizabeth river as the result of yesterday's mysterious fires in Norfolks' business district and the city of Portsmouth across the river, prac-tically was placed under control of the naval authorites as a precautionary measure.

Norfolk authorities today seemed less inclined to attribute yesterday's fires to an enemy plot to destroy the city in an attempt to cripple war activities here, but federal agents and the naval patrols did not relax their vigilance. A score of persons unable to give satisfactory accounts

Experienced Business Men to be at Head of Important Divisions

WASHINGTON, Jan. 2,-General reorganization of the ordnance bureau, with experienced business men at the head of important divisions under the chief of ordnance. was announced tonight by the war department.

The new plan under which it is proposed to make the bureau a great working unit modelled semewhat after the British ministry of munitions, was outlined to the senate military committee recently by Major General Crozier, chief of ordnance, while he was being sharply questioned concerning delays and deficiencies in supply rifles and cannon. It now has been approved by Secretary Baker and put into effect.

Good Contests During Coming Season

SAN FRANCISCO, Jan. 1 .- Although Mars is making up the schedules and occupying the box office, spring sports on the Pacific bid fair to go along with the same old swing as of yore.

The swimming fans may expect to see Miss Fannie Durack, the wonderful Australian swimmer, contesting, for the elusive 500 yard title with the Frances Cowells and the Mabel Greens of the Pacific slope. There is talk already of importing fast wimming teams to Honolulu and ice versa. Although Pacific Coast conference regattas have been cut lown in numbers, the trackmen will more than make up the dearth of rowing. The basketball artists of stanford university and the universities of California, and Nevada and many minor institutions are already whipping a schedule into shape. Baseball will continue to be a ma

jor sport in the colleges despite the draft. It is figured that the retrenchments forced on the professional leagues by the war will make the fans all the more anxious to turn

Goats Are Said to Prevent

El Paso, Tex., Dec. 29.—Goats are a means of fire prevention in the na-tional forests, W. R. Chapline, of the United States Forestry service told the executive committee of the Na-tional Monair Growers' association which was in session here recently. Mr. Chapline gave the committeemen an outline of the facts as he had developed them in extensive stdies of the use of goats in the forest re-served. His theory as advanced to the goat growers was that the mo-hair growing animals would keep the on the forest reserves as a means of out. increasing the nation's food supply In in war time.

BRITAIN TO PAY FULL WAR DEBT

Bonar Law Denounces Rumor Country Will Repudiate Liabilities

London, aturday, Dec. 25.-Great Britain will not repudiate her war debt, declares A. Bonar Law, the chancellor of the exchequer, in an open letter which he has caused to be published and in which he denounced rumors that the country would fail to meet some of the liabilities incurred in the war.

In his letter the chancellor states: "I am glad to have an opportunity of dealing with the rumors that are, I find, current throughout the country with regard to the possibility of abilities.
