

ENGLAND AFTER MANY MORE MEN

Man Power During Period America Is Preparing Causes Concern

LONDON, Jan. 3.—Compulsory rationing is to be put into effect in England at an early date, according to Lord Rhondda, the food controller, speaking at Silverton today. He prefaced this announcement by saying that he was afraid that compulsory rationing would have to come, and that it was on its way, and then declared that his department had completed a scheme and that as soon as the sanction of the cabinet had been received it would be carried out.

Lord Rhondda warned his hearers that there would continue to be a shortage though the conditions would improve steadily.

"There is nothing alarming in the situation, he said. "You have only to tighten your belt. The people of this country are undergoing nothing like the privations in Germany. There they have less than a pound of meat a week."

The food controller pointed out that the import of butter in November and December, 1917, amounted to only 3,000 tons as compared with 30,000 tons in November and December, 1915. However, there had been an enormous increase in the production of margarine in England and by June the capacity of the factories would be four times what it was in 1915.

Referring to the meat shortage Lord Rhondda said he did not want to threaten; he did not want to commandeer cattle, but that machinery would be there to carry the cattle to market when the time came.

Lord Rhondda said he did not want to threaten; he did not want to commandeer cattle, but that machinery would be there to carry the cattle to market when the time came.

TRY "CASCARETS" FOR LIVER AND BOWELS IF SICK OR BILIOUS

Tonight! Clean your bowels and stop headache, colds, sour stomach.

Get a 10-cent box now. Turn the rascals out—The headache, biliousness, indigestion, the sick, sour stomach, and biliousness—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in ten bowls. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

TRAINS CUT OUT

(Continued from page 1)

congestion. This would involve extra wages, which the railroad administration is said to be willing to pay on the basis of "time and a half" now maintained by railroads for overtime.

The railroad brotherhoods' demands for 40 per cent higher wages, refused by the railroads just before the government assumed management, were not pressed today but will be taken up tomorrow. Mr. McAdoo has not expressed his views on the subject of higher wages, but most of his advisers and executive assistants advocate such a course as a means of retaining employees.

Mr. McAdoo now is considering whether express companies should be taken over for government operation and has received from his legal advisers opinions on the proper procedure in case he decides this is necessary to maintain the highest efficiency.

MEXICO NEEDS BIBLES, BEANS

Bruce Evans Says Bibles Unnecessary—Divinity of Bible Explained

"The man who is always talking against the Bible is using the weapon of Sampson."

"You no more can get spiritual help from a critical study of the Bible than you can get music out of a piano with a screw-driver."

The Bible has stood every test, according to Bruce Evans, the energetic evangelist, at the Baptist church last night. The speaker set forth about ten reasons why he believed the Bible to be divine. Evans said it depends a great deal the way a man approaches the Bible. You can find something in it to bolster up every new fad in religion if you are willing to twist the meaning to serve your purpose," said Bruce.

One of the greatest crimes ever committed in the name of religion has been the dividing of the Christian forces in the communities and planting a church in the corner of every street. The fault has been in the approach of the Book.

Perhaps the best point Evans made was the personal influence of the Bible. What Mexico needs is not bibles and bayonets—it needs Bibles and beans," Evans speaks tonight.

Cancer Cured in 11 days

Miss Margaret Russell, 1135 N. Fifteenth St., Salem, Or., explains wonderful cure.

To Those Afflicted With Cancer: I deem it a great privilege to be able to testify to the absolute cure of cancer on the side of my nose from which I suffered for three years.

Only July 14, 1916, I applied to Dr. C. S. Stone for treatment. He applied a paste for four days and then a simple ointment. In just eleven days after the first treatment the cancer fell out. The place soon healed and is now sound and well.

—Miss Margaret Russell, Salem, Or., Nov. 5, 1917.

FREIGHTER AFIRE HELD HOPELESS

Vessel With Cargo of 7500 Tons Doomed—Crew Thought Safe

A PACIFIC PORT, Jan. 3.—The situation of the Japanese freighter Shinyo Maru No. 2, in whose hold a fire has been raging since last night, was described as hopeless, in a cablegram received by the marine department of the chamber of commerce here tonight. Assistance was near, the message said, and it was expected here that the crew of approximately 50 men would be removed from the blazing vessel without loss of life.

All day long the Shinyo had been racing at full speed against the spread of the flames toward a Pacific port, where it was expected that the fire might be combated successfully. Tonight as she was almost within sight of her goal, it seemed certain, according to the advice, that she would be destroyed, together with her cargo of 7,500 tons of steel, cotton and other merchandise. The fire had been reported out of control of the crew today.

Naval vessels were rushing to her aid today and it was understood the assistance spoken of in the message received tonight referred to these boats.

The cause of the fire remained a mystery here. The Toyo Kisen Kaisha, charterers of the vessel had received no direct communication from the boat subsequent to the first message last night which told of the outbreak of the flames. Company officials expressed the opinion that this message undoubtedly had been the last sent from the vessel, and that wireless equipment on the boat had been rendered useless by the fire.

The Shinyo left this coast for Oriental ports December 21. She was laden to her full capacity. She was built in 1911 and is 456 feet long, with a beam of 47 feet and a gross tonnage of 5,909 tons. She is owned by the Kishimoto Steamship company, of Osaka, Japan.

Workmen's government can never enter negotiations," Hon. Delegates Return.

LONDON, Jan. 3.—Notwithstanding the unfavorable reception of their proposals by the Bolsheviks and the Russian suggestion that the negotiations be continued in a neutral country, preferably at Stockholm, the delegates of the central powers are returning to Brest-Litovsk on the assumption that the congress will resume its sessions at the appointed time. Count Czernin, the Austro-Hungarian foreign minister, departed from Vienna this morning, accompanied by a large staff of diplomats. The Turkish delegation set forth from Constantinople on Tuesday intending to visit Berlin on the way to Brest-Litovsk.

SEED SUPPLY IS IMPORTANT

Sufficient Quantity Must Be Assured for Full Crop Production

WASHINGTON, Jan. 3.—If normal production of the nation's food and feed crops is to be had this year, prompt action to protect the seed supplies is necessary. Secretary Houston warned congress today in asking for an urgent deficiency appropriation for government purchase and sale of seed to farmers at cost.

"There is urgent and immediate need for at least \$6,000,000 and it is probable that an additional appropriation will be required in the near future," said the secretary. "The seed situation presents many difficulties. Two general areas have suffered severely from drought during the season—the southwest, including a large part of Texas and a part of Oklahoma and a considerable portion of the northwest, including large sections of North Dakota and Eastern Montana. These regions represent a large part of the grain producing area of the United States. The seed situation in the north half of the corn belt is more serious than it has been for many years."

It is important that seed supplies of soy beans and white and navy beans are available for the next planting season, the secretary said.

COAL COMPANY OFFICIAL HELD

Five Other Officials Charged with Violating Price-Fixing Law

PITTSBURG, Pa., Jan. 3.—With the president of one coal company under arrest charged with violating the price-fixing order of the United States fuel administration, warrants have been issued, it was learned tonight, for the arrest of five other coal company officials, apartment of justice agents estimated that additional warrants may be issued within the next 48 hours.

Complaints of violation of the government order fixing the price of coal are said to have been under investigation for some time by department of justice agents. Open violation of the order is said to have been revealed.

SALES FOR WAR SAVINGS GREAT

Treasury Department Forecasts Success of Plan; First Month Ends

WASHINGTON, Jan. 3.—Although complete figures are unavailable, reports received at headquarters of the national war savings committee here today at the end of the first month of the war savings campaign show that sales are growing rapidly and that the campaign is meeting with an enthusiastic and patriotic response.

"Sales for future months, it is expected, will show a material increase over the first month's returns," said an announcement from the treasury department. Much of the time since the opening of the campaign December 3, has been spent in perfecting organization. This work is now practically completed.

"The constantly increasing number of agencies and the splendid spirit of co-operation which is being shown by both business and social organizations is highly encouraging. Practically every railroad, express and steamship company has joined in the campaign, supplementing the sales of stamps an every post-office, bank and trust company in the country and by 200,000 postmen working under the direction of Postmaster General Burleson.

"A comprehensive plan for establishing over-the-counter sales of stamps wherever possible is being worked out and plans for obtaining the cooperation of school children, Boy Scouts, fraternal and religious organizations, labor unions, chain stores, farmers' unions, theaters and motion picture houses and four million speakers are being rapidly put into effect."

GOVERNOR SAYS NO DISTURBANCE

Appeal for Protection from Wisconsin Rioting Brand-ed Falsehood

MADISON, Wis., Jan. 3.—Governor Philipp of Wisconsin tonight denounced as falsehoods published statements to the effect that loyalists in the state had been forced to appeal to him for action to protect citizens against rioting and possible bloodshed. In part the statement reads as follows:

"I am glad to see that some of our more advanced medical authorities are investigating the philosophy of administering bitro-phosphate. It is a case of nervous exhaustion, anemia, emaciation, and in delicate run-down conditions generally. It is a case of New Hampshire Medical Society that one of our most eminent practitioners is able to cite cases treated, upwards of 70 years ago, who regained the feeling of youthful energy of middle life from its use. Let men and women who are handicapped by the lack of nerve energy take a little bitro-phosphate after meals for a while and you will see some of their troubles disappear, and in many instances the return of good health, strength, power of endurance and a more youthful, robust appearance. My advice to doctors everywhere (especially the younger members of the profession) is—prescribe more bitro-phosphate and you will get some astonishing results."

NOTE—Bitro-phosphate mentioned above can be obtained in tablet form, with or without a physician's prescription at the drug counters of all good druggists. It is sold under a guarantee of satisfaction or money back.

ARGUMENT GIVEN FOR SUFFRAGE

Suggestion Women Vote on Measure Before Congress Acts Opposed

WASHINGTON, Jan. 3.—Arguments by officials of the National American Woman Suffrage association occupied all of the first day of the hearing by the house suffrage committee on the constitutional amendment resolution, which the house has agreed to consider next Thursday. Opponents of the measure will be heard tomorrow and representatives of the Woman's Party will make their statements Saturday.

Dr. Anna Howard Shaw, the honorary president and Mrs. Carrie Chapman Catt, president of the suffrage association, were the principal speakers today. They vigorously opposed a suggestion by Representative Clark of Florida that before congress acts the question be submitted to a vote of the women of the country, declaring that this method was illegal and unnecessary and would put congress in the position of saying that it recognized woman's right to vote, but had proposed the most difficult method of having that right recognized.

WASHINGTON, Jan. 3.—Although complete figures are unavailable, reports received at headquarters of the national war savings committee here today at the end of the first month of the war savings campaign show that sales are growing rapidly and that the campaign is meeting with an enthusiastic and patriotic response.

"Sales for future months, it is expected, will show a material increase over the first month's returns," said an announcement from the treasury department. Much of the time since the opening of the campaign December 3, has been spent in perfecting organization. This work is now practically completed.

"The constantly increasing number of agencies and the splendid spirit of co-operation which is being shown by both business and social organizations is highly encouraging. Practically every railroad, express and steamship company has joined in the campaign, supplementing the sales of stamps an every post-office, bank and trust company in the country and by 200,000 postmen working under the direction of Postmaster General Burleson.

"A comprehensive plan for establishing over-the-counter sales of stamps wherever possible is being worked out and plans for obtaining the cooperation of school children, Boy Scouts, fraternal and religious organizations, labor unions, chain stores, farmers' unions, theaters and motion picture houses and four million speakers are being rapidly put into effect."
