WOMAN'S DEVOTION TO HOME Home duties to many women appear more important than health. No matter how ill they feel, they drag themselves through their daily tasks, overdo and pay the penalty in headache, dragging-down pains and nervousness; they become irritable, and finally discover that some form of female complaint has fastened itself upon them. When a woman gets into this condition there is one tried and true remedy made from the roots and herbs of the field, Lydia E. Pinkham's Vegetable Compound, which for more than forty years has continued its great work among women in restoring health after many other remedies have failed.

RED CROSS BULLETIN

Willamette Chapter, American Red Cross. Business Office and Supply Department, Room 415 E. S. National Bank Building.

An auxiliary to the Willamette chapter of the Red Cross was organized at Middle Grove, on the Silverton road, last night. Thirty-five charter members were recorded. A musical program was furnished under the direction of Miss Rickett, the principal of the school. The meeting was held in the school house, and the rooms were decorated with flags.

The temporary officers elected are: Chairman, Hand Walker; secretary, Vern Kickett; treasurer, Tom Walker.

NEW CHERRIANS ARE INITIATED

Twelve Received Into Organization at Annual Assembly Last Night

Twelve new members were initiated into the Cherrians at the annual initiation ceremonies which were held at Masonic Temple last night. For the first time the wives and sweethearts of the Cherrians were admitted to witness the outpouring attendant upon affiliation with the order and a ball was combined with the event.

Hal D. Patton, who was elected King Bing at the December election, was crowned and presided over the initiation. The coronation ritual improvised to meet the particular occasion, was read by Dr. H. C. Epley.

The new Cherrians are: Elmo S. White, Lester B. Davis, F. J. Rupert, Charles Miller, T. F. Ryan, L. W. Gleason, R. O. Snelling, E. M. Burke, Don B. Miles, Earl Lerzer, Jenks, Loren R. White and C. B. Clancy.

Mr. and Mrs. Dick Howard. King Bing Patton, was lacking none of his usual wit in conferring the degree upon the neophytes. Rather he was funnier than ever and had the assistance of several vassals who best knew how to apply the instruments of torture.

A pretty part of the program last night was the presentation to Mr. and Mrs. Charles Dick of Portland of the valuable myrtlewood table that was won as first prize by the Cherrians when they competed with other similar organizations at Marsh field two years ago.

Another present-cation last night was that of Jewel to H. N. Stoudenmeyer, leader of the Cherrian band. In appreciation of the services of the musicians, Mr. Stoudenmeyer received the gift and responded.

Miss Ada Miller contributed a number of vocal solos last night accompanied by Mrs. A. A. Schramm. These included "Keep the Home Fires Burning," and while the song was being sung the names of the Cherrians who have enlisted for war service were flashed on the screen.

A motion picture play of comic character followed. At a lull in the dancing Mrs. Charles Maxwell sang and was encored.

Other musicians were distributed about the hall.

The attendance last night was perhaps larger than at any previous annual gathering of the Cherrians. The guests included Governor Withcombe.

Corn Prices Sag As Wilson's Words Come

CHICAGO, Jan. 8.—President Wilson's address to congress brought about considerable selling of grain today chiefly by dealers who drew quick inferences that the outlook for an early peace had been improved. Such optimism, however, did not seem to be shared by the bulk of the trade who held off pending further developments. Prices closed unsettled, a shade to 1/2c net lower for corn, with January \$1.27 1/2 @ 3/4 and May \$1.25 to \$1.25 1/2. Oats showed a net loss of 1 1/2c to 1 3/4c. Provisions finished 10 to 25c down. Until the president's address became a factor, corn prices displayed firmness owing to scantiness of arrivals. As soon, however, as bulletins began to come telling of what the president had said, prices began to sag. No adequate outline of the address, though, was available on change here before the session closed. Prospects of larger hog receipts caused provisions to weaken.

BRITISH CAPTAIN RESENTS WORK OF HUN BOMBS

Baby Crippled in Air Raid—Eight Germans Killed in Revenge

FIVE OF ENEMY BRAINED

Three Later Shot Down with Pistol—Boche Thoroughly Routed

WITH THE BRITISH ARMIES IN FRANCE, Jan. 4.—The full story of a British Captain who was so moved with hatred of the Germans for crippling his child with a bomb, that he attacked and killed eight of them with a club, and withstood a sudden German onslaught by his inspiring leadership, had just been received. The tale has made the Captain's name a byword of gallantry and bravery in the British camp. Here are the facts:

When the Germans delivered their tremendous assault against Masnières and Maroing during their general offensive on November thirtieth, those two towns and the territory about them were being held by a division of English troops. On the staff of the commanding general there was a dashing captain who may be designated as Captain Black for purposes of this narrative.

Baby Hurt in Air Raid. Black was a man of long service and much beloved by all the troops. He had been a jovial companion until recently, when during a German air raid over England his baby girl was crippled for life by a bomb. Black had become bitter against the Germans and had sworn that he would

exact full penalty for the airman's deed.

The captain little knew when he turned in on the night of the twenty-ninth of November how soon he would be able to get his revenge. Next morning the Germans attacked Masnières in force and the brigade to the right of the troops holding the town was forced to fall back. The brigade in the town, however, stood firm and fought the enemy off. Meanwhile waves of Germans had swept by the south of the town and were swarming westward.

Five Germans Brained. Captain Black came out of his headquarters south of Maroing to find five Germans already in possession of a great dump nearby. So quickly had the enemy advanced that they were the first intimation that they were nearby. Black had in his hand a heavy walking stick which was his only weapon. Without a moment's hesitation he charged the dump alone and beat about him so fiercely that he brained all five opponents before they recovered from their surprise. He had made good his vow, but his work was not finished.

Other Germans appeared west of Les Rues Verts, a southern suburb of Masnières. Black collected all the servants available, and with two companies of regulars delivered an attack towards Rues Vertes. The Germans fell back and fierce hand-to-hand fighting followed. Black led his little army from house to house and as often as the Germans made a stand he drove them out, until finally the whole suburb had been cleared with the exception of one machine-gun whose crew of eight men kept pumping bullets into the British ranks.
