Mrs. Catt Is Grateful.

Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage association, said tonight:

"It is an incomparable victory which tremendously gratifies though it does not surprise us.

"We have felt all along that the house could be relied on to vindicate itself as the forward-looking exponent of democratic progress which America has the right to expect its great law-making body to be. Now for a minute did we conceive that the American congress would lag behind the parliaments of Europe in the making of democratic history. We turn now to the senate with complete confidence that our measure will be passed by that body within a very short time. From the senate we will start upon our campaign of ratifications, hoping that every state in the union will ratify knowing that thirty-six will, New York among them. We expect most of the 1918 legislatures—there are only a few in session this year—will dispose of the measure favorably at an early date. The legislatures of forty-one states convene next year."

Dr. Anna Howard Shaw, honorary president of the association, said:

"When the name of Lincoln mentioned today the first thought that enters the mind of the world is that he was the emancipator of the slaves. In future generations when the name of Wilson is mentioned the thought of the world will be that the women of the United States were enfranchised during his administration and largely through his assistance. People forget wars and the incidents of war, but they never forget a great forward step in human freedom."
