

STANFIELD ANNOUNCES PRINCIPLES ON WHICH HE WILL WAGE CAMPAIGN

Republican Senatorial Aspirant Is Heard in Address at Community Meeting of Umatilla County Dairying and Agricultural Interests—Statement Covers Wide Scope

STANFIELD, Or., Jan. 10.—Robert N. Stanfield, one of the Republican aspirants for the nomination for United States senator, was the principal speaker at the annual community meeting of the dairying and agricultural interests of Umatilla county today. Part of this address was given over to his first announcement in detail of the principles upon which he will wage his campaign.

Western Press Association Photo
R. N. STANFIELD

- His statement of principles follows:
1. To support the national administration and the heads of the government with all my ability and energy in the speedy and vigorous prosecution of the war to a peace satisfactory to the democracy of the world and compatible with the highest ideals of our civilization.
 2. To support the national administration and the heads of the government with all my ability and energy in the speedy and vigorous prosecution of the war to a peace satisfactory to the democracy of the world and compatible with the highest ideals of our civilization.
 3. To an equitable control and regulation of food supplies, commerce and industry, and the establishment of a primary market in Portland on equal basis with Chicago and eastern ports.
 4. To a nation-wide prohibition and all measures which shall make

isolation and administration with a particular view to its adaptability to the needs of Oregon.

8. To construction by the federal government of a military highway along the Pacific Coast, and federal aid in the construction permanent highways.

9. To see that Oregon participates, all things being equal, in national trade, commerce and industry, and that our state is given recognition in the federal expenditures made necessary by the war.

10. To legislation which shall bring to a settlement public lands question, and the greater development of Oregon's natural resources including the development of water power, reclamation of arid, swamp and logged off lands.

11. To the organization and mobilization of all industrial forces, with a just and proper consideration of the rights of labor, which shall guarantee coordination of American efforts during the war.

12. To legislation that will permit resources of the great west and Alaska to be used, at the same time being careful that these natural resources are used economically.

13. To the removal of the misunderstanding and opposition on the part of the federal authorities which has restricted Oregon's commercial expansion and retarded her industrial development.

14. To the development of Oregon's great shipping ports, through federal improvement of waterways and harbors; the maintenance of a merchant marine on the Pacific ocean, and a just recognition on the part of the federal government of the importance, value, commercial and industrial advantage of Oregon's location, situation and harbor, and shipping facilities.

15. To a policy of conservation and reconstruction which shall insure our national integrity, honor and commerce and the moral and civic purity of our people, which is typified by a conscientious and moral observance, of true Christian civilization.

16. To have that high regard and consideration for the interest and progress of humanity and the nation at large, which should actuate the motives of every public man.

capacity, diligence or understanding than others; but I know, as all know, that there are many things to do which have not been done, and which I think I can help do. For these reasons I offer myself to the people of Oregon as a candidate for United States senator at the Republican primary in May.

Candidate is Native Son.

"I am a farmer and a stock-raiser. I am a native son of Oregon. I have had a modest part in its industrial, commercial and political life. I have had personal contact with some of its problems, and I have had a definite and growing interest in others; and I believe I know as well as another what is needed for development of the state's mighty resources. There should be helpful national legislation, an end of administrative neglect and discrimination, and a vigilant and persistent presentation, before the legislative and executive departments of the federal government, of Oregon's deserts and wants.

"I expect, if elected senator, to serve at all times every proper interest and to be at the command of every citizen with a rightful claim on the government's attention. I hope and expect at all times and in all practical ways to serve the whole public, so that there would no longer be a necessity, when a crisis or emergency arose at Washington of concern to Oregon, for chambers of commerce or commercial clubs, or other bodies of any kind, to feel obligated to protect their interests through private and unofficial representation. I shall also expect by acts to advertise me and my service, and I should not seek undue publicity before either action or accomplishment.

Needed Qualifications Recited.

"I understand full well that the people of Oregon will not elect me senator, or to any office, unless there shall be good reasons for their action. They will not, and of course they will not, grant me their favor because I desire it, or ask it, but they will, and they should, prefer that candidate who it seems to them can serve them best. If the nature of any duty or service is thoroughly studied and well comprehended, it is already partly accomplished.

"A senator should be well informed as to every phase of Oregon's present development, and future prospects; and he should have the wish, the will and the knowledge to act promptly and fearlessly on every occasion. I believe I know what should be done for Oregon, and I know the people know that much can be done that has not been done, and I hope to convince them that I am sufficiently well equipped to perform the important duties of the senator.

In that spirit and with complete confidence in their good judgment and with an abiding faith that their decision will be correct, whether it is for or against me, I submit my candidacy to the Republican voters of Oregon, as later I shall submit it to the whole people if duly nominated.

I would like to cite a few instances of the wrongs done Oregon: Oregon was the first in the nation in supplying volunteers for the national army, but our boys must train at cantonments located in other states. Oregon was prompt in complying with the selective draft, but the training camps are located in other states.

Oregon's patriotism was shown in being first over the top! Liberty bonds were sold here more than in the markets of other states.

Oregon is doing her utmost in building ships for war needs, but the hulls must be taken to other ports for the placing of equipment.

Red Tape is Hit.

Oregon was first in furnishing spruce for aeroplanes, but no aeroplanes are manufactured in Oregon.

Oregon was among the first, if not first, in subscribing her allotment in the Red Cross fund; in raising her soldiers' library fund; in raising her army Y. M. C. A. fund, but Oregon has neither cantonment, training camp, divisional headquarters, navy yards nor military market.

"All these things have taken from the Oregon laboring man the right to participate in the payroll which he and the wealth of his state have provided.

"Oregon whole heartedly complied with the appeals for food conservation and food production, but Oregon's wheat growers and food producers were penalized 20 cents a bushel for living in Oregon.

"The commerce of our ports of the lower Columbia river, the great est ports in the world, is retarded and strangled by red tape and federal indifference, misunderstanding and apparent prejudice. The immense food supply from the great storehouse of the inland empire comes rolling down a water grade to both fresh and tidewater harbors, but for all governmental purposes is diverted over mountain to another port. All purchases of grain and hay for army purposes are made on the basis of Seattle delivery, thereby reducing the Oregon producers' price the amount of the added freight.

Would Use Arid Lands.

"Oregon is one of the largest contributors to the reclamation fund of the United States, yet our arid lands lie idle and undeveloped while other states are richly endowed with appropriations from the fund to which Oregon has so materially contributed.

"Much of the wealth of our forests, mines, rivers and harbors is locked up under a rigid federal perversion that makes development impossible.

"Oregon has been exploited to benefit other sections of the nation and representation in the national congress is needed that will fight incessantly and unflinchingly for Oregon and her people.

"Oregon farmers are forced to go to Spokane where in need of a farm loan from a federal farm loan bank.

"But when you ask 'What's the matter with Oregon?' I reply that 'Oregon is all right, her people are all right. These statements prove it, history proves it and the people arise in their mighty patriotism every day to give some fresh proof

The OREGON

GROWTH OF RED CROSS GREAT

Organization Leaps From Membership of 500,000 to 22,000,000

WASHINGTON, Jan. 10.—Appropriations aggregating approximately \$75,000,000 has been authorized by the Red Cross war council since its creation May 10 last, up to December 28, the council reported tonight in a statement giving the condition of its finances as of the latter date. Of this sum, \$30,000,000 actually has been expended, while collections from the \$100,000,000 war fund subscriptions have amounted to about \$97,000,000.

Officials estimate that at least another \$6,000,000 will be collected from the fund subscriptions and some \$3,000,000 of this fund retained by certain chapters on account of the 25 per cent which each chapter was to receive for local war relief work will bring the total of the fund to about \$105,000,000.

From this sum must be deducted about \$13,000,000 for local chapters' war relief fund in addition to the \$2,000,000 already retained and an estimated sum of \$1,500,000 to be paid to chapters out of the fund yet to be collected.

This would leave available for expenditures out of the war fund about \$88,000,000.

The total amount appropriated for Red Cross work in France is about \$37,000,000.

After certain deductions, are made from appropriations already authorized, there will be available for further appropriations an estimated sum of about \$23,000,000. The estimated balance, including collections yet to be made is \$59,000,000 subject to outstanding authorizations for expenditure.

The Red Cross membership has increased from less than 500,000 last May, to an estimated total of 22,000,000 today, while in the same period the number of chapters has increased from some 555 to about 15,000. In addition to these chapters the Red Cross is working through operating commissions in France, England, Italy, Serbia, Russia and Rumania.

Naval Officer—I say, doesn't poor old Smith look sick! Awfully nice of you, and all that, but why did you chuck him for me?

Flirt—Change of color. I'm sick of khaki.—Passing Show.

Naon Will Not Consider Resignation as Ambassador

BUENOS AIRES, Jan. 10.—Dr. Romulo S. Naon refused to consider his resignation from the post of ambassador to the United States, notwithstanding the fact that the foreign minister, Honorio Pueyrredon, has been using his utmost efforts to prevent Dr. Naon's retirement. It is generally believed, however, that his efforts will be in vain, and the president is said to be considering Dr. Naon's accession.

STUMEZE

The Master Prescription for Stomach Ills

If you suffer from indigestion, dyspepsia, catarrh of the stomach, pain after eating, sour, gassy, belching or too strongly acid stomach, bad breath or bloating, go to your druggist and get a bottle of STUMEZE. This reliable, reconstructive, digestive tonic offers you relief from the ill that beset you.

BREAKS A COLD IN FEW HOURS—TRY IT!

First dose of Pape's Cold Compound relieves all grippe misery

Don't stay stuffed up!

Quit blowing and snuffing! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

HUN WAR BREAD TASTES BADLY

Scientists Said to Be Taking Drastic Measures to Improve Loaf

SAN FRANCISCO, Jan. 10.—Germany's war bread, reported to be adulterated with various flour substitutes, has caused widespread sickness in the Kaiser's empire, according to report from Washington, D. C. received by the United States food administration for California.

The situation in Germany, it was said, was so serious that a committee of scientists had been appointed in Berlin to take drastic measures to remedy it.

The German war loaf, the report stated, emits a disagreeable odor and has an unpleasant taste and flavor and has been the source of a serious intestinal disorder which, it was said, had approached the dimensions of a scourge in Berlin and other German cities.

The British war loaf, according to the report, has improved greatly in quality but still is much inferior to America's war bread.

TODAY, Miss Horgan OF THE Ideal Fireless Cooker Co., will Demonstrate

the uses and possibilities of the "Ideal Fireless Cooker" and the "Ideal Home Canner and Steam Cooker."

WILL ROAST CHICKEN AND FREEZE ICE CREAM AT THE SAME TIME

Freezing ice cream requires a temperature at least as low as 30 degrees, while cooking chicken requires 600 degrees, yet these two processes will be demonstrated in the same cooker at one time. This shows the perfect insulation of the two compartments which act exactly as would two perfect thermos bottles.

ON SATURDAY—Will cook whole meal in one compartment—Meat pudding, vegetable, baked beans.

DOMESTIC GAS MAKERS WILL BE DEMONSTRATED IN CONNECTION
