

**ATHON COMPANY
MAKES BIG HIT**
Features Winsome Little Effie Johnson at Bligh Theater

The Athon Company, featuring winsome little Effie Johnson, one of the cleverest leading women of the Pacific coast, made a huge hit with local theatre goers last night when they played "The Power of Gold," probably the strongest play in favor of the laboring man, that has ever been written. The plot deals with the eight hour problem in a startling way, and shows in a vivid manner how the laboring man is fast coming into his rights. It is safe to say that the house rang with more genuine applause last night, than has greeted a company here in years. The Athon company are each one artists in their line and should draw crowded houses during their five night stay in Salem. By special request of the union labor men they will play the same bill this afternoon and evening, and it might not be amiss to state that if you are going better come early for indications point to a record breaking show. Tonight there will be all new pictures, featuring William Desmond in "The Sudden Gentleman," a Triangle super-production.

chancellor is expected to extend over three days. Unofficial advice from Copenhagen are to the effect that Leon Trotsky, the Bolshevik foreign minister has declared that, although he has departed from Petrograd, the peace negotiations at Brest-Litovsk would continue during his absence. Trotsky is reported to have informed the chief German delegate at Brest-Litovsk that his visit to Petrograd was merely for the purpose of reporting to the congress of workmen's and soldiers' deputies. No fighting of any importance is taking place on any of the battle fronts. **Austrian Minister Resigns.** AMSTERDAM, Jan. 21.—The Austrian ministry has resigned, according to a Vienna dispatch to the Berliner Morgen Post. Count von Toggenburg, minister of the interior, has been charged with the task of forming a new cabinet. The brief Vienna dispatch does not make it absolutely clear which of the ministries has resigned, the imperial ministry, of which Count Cernin is the head, holding the portfolio of minister of foreign affairs, or the minor body of which Dr. Von Seydler is president. But the fact that Count von Toggenburg, who held the post of minister of the interior in the Von Seydler cabinet, has been asked to organize a new ministry, would indicate that it is the latter.

Labor Disturbances Political. WASHINGTON, Jan. 21.—Labor disturbances in Austria are described as political rather than economic in official dispatches received here today. The demands made upon the government in the statement of the committee of directors of the Socialist party of Austria are as follows: First—Normal assurances that the negotiations at Brest-Litovsk will not run the risk of failure because of territorial exigencies of any kind. Second—Complete reform in the provisioning system. Third—An immediate proposal of a bill establishing universal equal direct suffrage in the communal elections. Fourth—Annulment of the measures which have been taken to militarize the work of the factories and which have deprived the laborer of all his rights. Von Seydler in a long statement declared that the government would do its utmost to obtain a general peace, and that it did not wish for an increase of territory at the expense of Russia. Regarding Poland, he asserted that Austria-Hungary

**DON'T SCOLD, MOTHER!
THE CROSS CHILD IS
BILIOUS, FEVERISH**

Look at Tongue! If Coated, Clean Little Stomach, Liver, Bowels.
Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.
When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.
Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember, there are counterfeiters sold here, so surely look and see that yours is made by the "Hawthorn Fig Syrup Company," "Back back with contempt any other fig syrup."

freedom in such voting, unprejudiced by the occupying army. **Military Necessity Claimed.** "The government," Dr. von Seydler said, "had of course to refuse Russia's demand for evacuation of the occupied region. The refusal was not due to a desire of occupation or to restrict the Polish people's rights of self-determination, but exclusively because of the continuance of the war on the other fronts and the unsettled internal conditions in Russia, we could not evacuate these military interests without endangering our military interests."
"We hope with good will on the Russian side all these questions may be successfully arranged, because the monarchy is inspired by no selfish aim."
In conclusion, Dr. von Seydler said the government had no desire but to treat the legislative bodies with complete frankness in the course of the negotiations and in no way to restrict their constitutional influence.

**Farmers Are Plowing and
Good Crops Are Promised**

The farmers in Marion county some of them at least—a few miles south of the city—not far from Sidney were plowing yesterday in fields already three inches high with winter grain, down only a few weeks ago, rye, timothy and alfalfa are in bloom in many places.
It was a sight good for sore eyes, and if there is any dependence to be placed in the old Indian signs, the winter of discontent in the Willamette valley has about closed, and with the lengthening days, and no sudden cold snaps, it is predicted by those who know what is what in this part of the valley that there will be a bumper crop of all kinds of fruit that will more than make up the short crop of 1917.

BY PRESIDENT**

or facilitate the war tasks of the government has come out of such criticism and investigation. I understand that reorganizations by legislation are to be proposed—I have not been consulted about them and have learned of them only at second hand and their proposal came after effective measures of reorganization had been thoughtfully and maturely perfected, and inasmuch as these measures have been the result of experience, they are much more likely than any other to be effective, if the congress will but remove the few statutory obstacles of rigid departmental organization which stand in their way.
Baker's Ability Upheld. "The legislative proposals I have heard of would involve long additional delays and turn our experience into a blank page. My association and constant conference with the secretary of war have taught me to regard him as one of the ablest public officials I have ever known. The country will soon learn whether he or his critics understand the business in hand."
"To add, as Senator Chamberlain did, that there is inefficiency in every department and bureau of the government, is to show such ignorance of actual conditions as to make it impossible to attach any importance to his statement. I am bound to infer that the statement sprang out of opposition to the administration's whole policy rather than out of any serious intention to reform its practice."
In his reply Senator Chamberlain said:
Chamberlain Has Explanation. "In my New York speech I had not prepared the address and spoke twenty minutes extemporaneously without notes," he pointed out that from Bunker Hill to the present time we had had no military organization or policy. The press report of my address was correct. But my argument was directed to the military establishment and not to other departments of the government, although it was broad enough to be subject to that interpretation. But those hearing it knew I referred merely to the military establishment and that the senate military committee had inserted, through the bills for a war cabinet, and a director of munitions to work out changes in the establishment.

"I explained that these bills were not administration measures. I did not misrepresent them."
Secretary Baker's efforts to better his organization have my utmost approval. He has made much improvement. But the inherent weakness of his reorganization is that no body has legal authority. There is the council of national defense, the war industries board and the clearance committee—all purely voluntary organizations—between the president and the army. The war cabinet and director of the munitions would be created by law with definite legal powers and duties, respectively, to map out and direct war policies and to have charge of war supplies. By this plan we would substitute a strong for the only weak link in the chain of organization, the "People's Will to Guide."
"I regret very much that the administration is not with me. But I am acting under my oath and will have the approval of my own conscience even if not of the administration."

"The people are entitled to be let into the committee's confidence. If the people do not want it, that will be all right. It's their war."
Tonight the president had a conference with Senator Martine, Democratic floor leader, several other senators and gave them his opinion about Senator Chamberlain's bill. It is understood there was a general discussion of congressional investigations and criticism of executive departments. The first test of strength on the committee proposals probably will come Thursday when Senator Chamberlain announced he would demand reference of the war cabinet bill to his committee. Senator Swanson, acting chairman of the naval committee, will oppose the motion on the ground that the naval committee should be consulted before the bill is brought before the senate.
Chairman Chamberlain said tonight that he would like for the measures to lie over for several days until their provisions and design become better understood. Hearings on the committee's investigation will be resumed tomorrow.

Aderman Wilson when the latter attacked the proposal to increase salaries in the street department. He declared that a comparison with the police and fire departments was unfair.
"Why, I have seen the employees of the street department come in from their work wholly unrecognized," said Uruah. "Their own families wouldn't know them. No one would know they were human beings unless they could be seen walking. I don't consider the increase pay unreasonable. The men are all experts in their lines and they are the backbone of the department."
The vote to increase was seven for and four against.
The council last night set January 20 as a date for hearing the protest of Mrs. W. P. Lord and Montague Lord against the South High street improvement.
Old Committees Stand.
Mayor Keyes announced that all of the aldermanic committees that have served for the last year will continue to serve during the present year.
H. H. Stanton, chairman of the special comfort station committee of the city council, announced informally that the station has been completed and was opened for the public at 10 o'clock yesterday morning. The committee was given a special vote of thanks by the council.

The following bids were received on feet of hose for the first department, underwriters' specifications and were referred to the committee on fire and water: United States Rubber company, \$1.45 a foot; O. B. A. G. Long, Portland, four bids, \$1.90 cents, \$1.10 and \$1.05. American Manufacturing company, San Francisco, \$1.10.
Lot L. Pearce & Son four bids, \$1.90 cents, \$1.60 cents and \$1.10. Bowers Rubber works, two bids, \$1.10 and \$1.
Race Makes Elaborate Statement. City Recorder Earl Race has prepared for the alderman, and left on each desk last night, a neatly printed financial statement of the city for the year ending December 31, 1917, the first of its kind that has ever been published. It was the item of \$2,228,577 delinquent street assessments shown in the statement that caused the council to take action regarding the payment of all such assessments by February 10.

The statement shows the city's total resources to be \$235,774.83. Under the heading of receipts and expenditures of the general, street and sewer funds for 1917 the state shows the actual running expenses of the city for 1917 to have been \$164,637.30. Property owned by the city is valued at \$386,500. Its provision of \$153,284.85 to meet the current and fixed expenses for 1918, while the budget estimate is \$152,465. Street improvements for the year totaled \$80,217.60, and in addition the city has been granted a quit claim deed of A. N. and Lula Bush to a tract of fifty-seven acres of land in the city limits to be used for a public park.
Routine Work Accomplished. The street committee recommended the offering of the city's street paving roads to a construction company for \$1750.

The engineer was instructed to prepare plans for the repair of the city paving plant.
The Coast Bridge company petitioned to be allowed to lay a track on the pavement from the Oregon Electric tract at Mission street to the river bank, thence to Center street for hauling materials of construction for the new intercounty bridge. The petition was allowed, the time to be at the pleasure of the council on condition that a bond of \$1000 be given by the company.
Bids on 500 feet of fire hose were referred to the fire and water committee with power to act.

An ordinance providing for the assessment of abutting property to cover the cost of improving Fifth street from D street to Highland avenue was given third reading and passed.
A similar bill covering the cost of the Washington street improvement was passed.
J. N. Knowland, janitor who is to be in charge of the new comfort station, was clothed with police authority to prevent disfigurement of the new building, and the chief of police was instructed to give him a star.

**NEW RATES ARE
RECEIVED HERE**

**Increase in Demurrage
Charges Made Known Formally to Shippers**

Effective yesterday, an order from William G. McAdoo, director general of transportation, increasing the demurrage rates on freight cars, has been received by A. A. Mickel, local agent of the Southern Pacific company. The order in part, signed by R. C. Mulholland, manager of the Pacific car demurrage bureau, reads as follows:
All agents in California, Oregon, Arizona and New Mexico:
On order of director general of transportation, Hon. William G. McAdoo, on cars received on and after 12:01 a. m. of January 21, 1918, demurrage rate will be as follows: The period of the expiration of the free time allowed, demurrage will be charged as follows:

- \$3 per day for the first day or fraction of a day.
- \$4 per car for the second day or fraction of a day.
- \$5 per car for the third day or fraction of a day.
- \$6 per car for the fourth day or fraction of a day.
- \$7 per car for the fifth day or fraction of a day.
- \$8 per car for the sixth day or fraction of a day.
- \$9 per car for the seventh day or fraction of a day.
- \$10 per car for the eighth day or fraction of a day.
- \$10 per car for the ninth day and each succeeding day or fraction thereof until car is released.
- Please inform all shippers and consignees in your city or town through local press or otherwise, of this change at once, and at that time earnestly solicit their co-operation. It is our policy to appeal to their patriotism for prompt loading and unloading of cars at the earliest possible moment, regardless of free time, thereby avoiding these new increased demurrage charges. These rates were put in effect to decrease car detention and are not to be considered as a license to hold cars over the free time by merely paying demurrage. In other words, emphasize the fact that it is the car that is wanted, not additional revenue as demurrage.

With the Draft Board

The monotony of the work of the selective war draft board was yesterday somewhat relieved when Sheriff Needham brought in from a farm near Turner John Trachael, whom it had been learned had paid but little attention to his questionnaire—in fact had made no reply to it at all. When the man arrived in the office and went over his papers with the sheriff he was able to give a good account of himself.

**Bolsheviki Dissolves
Constituent Assembly**

PETROGRAD, Jan. 2.—After an all night session the central executive committee early this morning proclaimed a decree abolishing the constituent assembly.
"It has killed itself," the committee announced, "by opposing the wishes of the laboring masses represented by the Bolshevik members. The Bolsheviks will not announce any substitute for the constituent assembly."
The all-Russian congress of soviet is expected to meet tomorrow, but the meeting may be postponed to enable more delegates to attend. This body is looked to as one which will either declare itself a sovereign body or designate the means for creating one.

**DR. BELLINGER
DIES AT FORT**

**Officer of Army Medical Department Succumbs to
Pneumonia**

Two wee babies have been left war orphans in Salem. They are Jane Elizabeth Bellinger, seven months old and Ivan Bellinger, Jr., two years old. Their father, Lieutenant Ivan Bellinger, died last week at Ft. Riley, Kansas. The body arrived in Salem last night at 10:30 o'clock, followed by the young widow, Mrs. Olla Belle Cook Bellinger.
The sodder husband and father was a well-known young physician at Sweet Home before his enlistment early last summer. With his wife and children he came to Salem about the first of October, awaiting his call. Commissioned as a lieutenant he left December 9 for Ft. Riley, Kansas.
He was there only a short time when he was taken ill with pneumonia. His wife and a brother, Allen Bellinger, were called to the camp fort and had been with him for a fortnight or more. Last week, favorable telegrams were received here, and hopes were held for his recovery.
A telegram, announcing his death was received by Salem relatives Sunday night. The telegram was sent from Denver when the funeral party was en route to the west. The time of the death was not given in the message. While in the east, Mrs. Bellinger left her two little children with her parents, Mr. and Mrs. W. H. Cook, 168 North Twelfth street. The widow and brother were accompanied home from Portland last night by Paul Hauser and Lloyd Hauser and Mrs. Grouver Bellinger, wife of Dr. Bellinger of the state tuberculosis hospital. Dr. Bellinger is a cousin of Lieutenant Bellinger. The body was taken to the Rigdon funeral parlors.

OF INDIGESTION OR
SOUR, ACID STOMACH**

Instant Relief! "Pape's Diapiespin" Ends Your Stomach Distress—Try It!
Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if you just ate and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiespin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.
Millions of men and women today know that it is needless to have dyspepsia. A little Diapiespin occasionally keeps the stomach sweetened and they eat their favorite foods without fear.
If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiespin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing.

The date of the demonstration will be announced later.

Neator of Chicago, president of the Woman's Trade Union League, member of the defense council's woman's committee, and former president of the Glove Workers' union.

In a statement announcing the appointments, Secretary Wilson said: "The popular demand for a national labor administrator was in effect granted today when Secretary of Labor Wilson gave the administration a comprehensive war labor program and appointed a national labor board of six men and one woman to be known as the advisory council, to assist him.

"This is in accordance with the recent action of the council of national defense, with the approval of the president, in placing in the hands of the secretary of labor the formulation and execution of a war labor administration. It gives to the department of labor full power to deal with every phase of the war labor problem, including the distribution, transportation, housing and training of workers, and effects that centralizing and unification that has been sought by the government, labor, capital and the public.

"Unity of action between the various departments is assured by the intention of Secretary Wilson to later increase the council by the appointment of representatives from the war, navy and agricultural departments and the shipping board.

"The labor administrator and his advisory council will at once take in hand the questions of standardization of labor policies; the providing, distributing and maintaining of a stable and adequate supply of workers; labor dilution and training; priority demands, the adjustment of disputes and the safeguarding of employment living and housing conditions. The advisory council will study all phases of the problem, make recommendations and pass for additional machinery and supervise their execution.

"The United States employment service, now a separate bureau, is already being expanded to take care of the task of economic distribution of workers."
