pavement on the Pacific highway. The plant has a capacity of 2000 square yards of two-inch paving daily.

C. A. Dunn has arrived from Tillamook county and will have charge of the work. He is connected with the state highway department and has long experience as a road builder.

Engineer Dunn has just returned from Missoula, Mont., where he addressed a state engineers' meeting and has given an entire evening for his speech. Now, Montana goes dry the first of next year and it happens that Mr. Dunn has some attractive loganberry slides in his set of lecture pictures. He told the Montana engineers that the juice of this berry would be a big seller in Montana this year. His pictures of the Columbia River highway and other Oregon roads were enthusiastically received. He added some remarks relative to the farming opportunities in the Willamette valley and the opportunities on stock ranches in eastern Oregon.

"A few nights ago one of my patrons had a small child taken with croup about midnight," writes M. T. Davis, Bearville, W. Va. "They came to my store and got a bottle of Foley's Honey and Tar. Before morning the child had entirely recovered." Use only Foley's for coughs, colds, croup and grip.—J. C. Perry.

"Patience and perseverance will accomplish all things" was the favorite saying of an old farmer. He had just made this remark in a train one day on the way to market when a pompous individual in the next seat turned to him and said: "Nonsense, sir! I can tell you many things which neither patience nor perseverance can accomplish."
