trade and the essential materials of manufacture would afford no foundstion for peace. Neither he may rest assured, will separate and selfish compacts with regard to provinces and peoples.

Czernin Sees Way,

Count Czernin seems to see that fundamental elements of peace with, clear eyes and does not seek to obscure them. He sees that an independent Poland, made up of all the indisputably Polish peoples who tie contiguous to one another, is a matter of European concern and must, of course, be conceded in that Belgium must be evacuated and restored no matter what sacrifices and concessions that may involve; and that national aspirations must be satisfied, even within his own empire, in the common interest of Europe and mankind. If he is silent about questions which touch the interest and purpose of his allies more nearly than they touch those of Austria only it must, of course be because he feels constrained, I suppose, to defer to Germany and Turkey in the circumstances. Seeing and conceding, as he does, the essential principles involved and the necessity of candidly applying them, he naturally feels that Austria can respond to the purpose of peace as expressed by the United States with less embarrassment than could Germany. He would probably have gone farther had it not been for the embarrassments of Austria's alliances and of her dependency on Germany.

After all, the test of whether it is possible for any government to go any further in this comparison of views is simple and obvious. The principles to be applied are these;

Principles Are Laid Down. First, that each part of the final setUement must be based upon the essential justice of that partfeular cause and upon such a judgment as are most likely to bring a peace that will be permanent;

Second, that peoples and provinces are not to be bartered about from sovereignty to sovereignty as if they were chattels and pawns in a game. even the great game, now forever discredited, of the balance of power; but that.

Third, every territorial settlement involved in this war must be made in the interest and for the benefit of the populations concerned, and not as a part of any mere adjustment or compromise of claims amongst rival states; and,

Fourth, that all well-defined national aspirations shall be accorded the utmost satisfaction hat can be accorded them without introducing curity of mankind; and the condi- new or perpetuating old elements of tions of peace will touch her as near-ly as they will touch any other na-be likely in time to break the peace tion to which is entrusted a leading of Europe and consequently of the A general peace erected on such

I would not be a true spokesman of the people of the United States if I did not say once more that we entered this war upon no small occasion and that we never can turn back from a course chosen upon principles. Our resources are in part mobilized now and we shall not pause until hey are mobilized in their entirety.

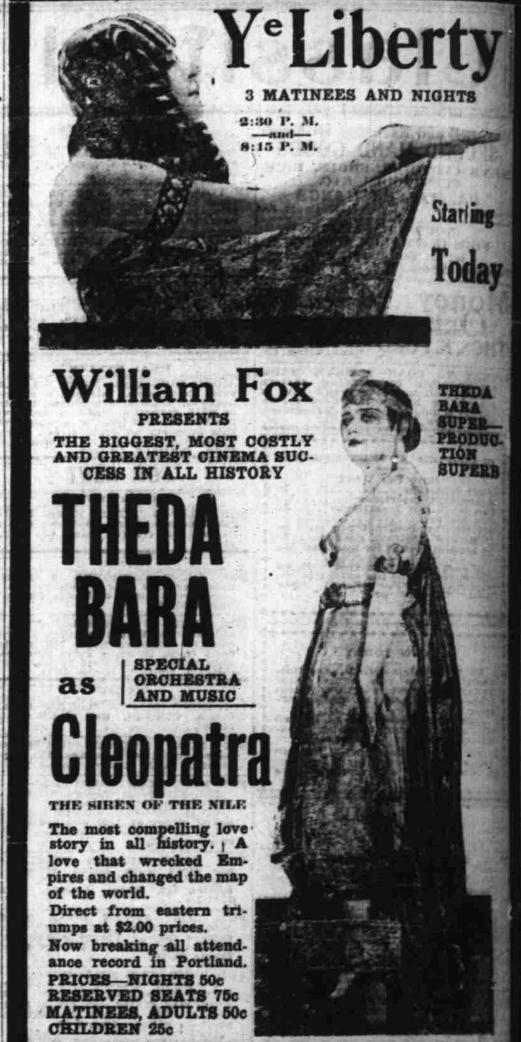

Our armies are rapidly going to the fighting front and will go more and more rapidly. Our whole strength will be put into this war of emancipation—emancipation from the threat and attempted mastery of the army and navy. selfish groups of autocratic rulerswhatever the differences and present partial delays. We are indomitable in our power of independent action and can in no circumstances consent to live in a world governed by intrigue and force. We believe that our own desire for a new international order under which reason and justice and the common interests of mankind shall prevail is the desire of enlightened men eyerywhere, Without that new order the world will be without peace and human life will lack tolerable conditions of existence and development. Having set our hand to the task of achieving it we shall not turn back. I hope that it is not necessary for me to add that no word of what I have N. said is intended as a threat. That is Bigelow, San Francisco; Edgar J. not the temper of our people. The power of the United States is a menace to no nation of people. It will never be used in aggression or for the aggrandizement of any selfish interest of our own. It springs out of freedom and is for the service of freedom.

WASHINGTON, Feb. 11.—Representative Slayden of Texas, president of the American Peace society, issued a statement tonight saying the president's address was an impressive appeal for justice and would do good in the theater of war if carried to the people behind the lines. . He recalled that when the pope advised peace negotiations, he said it would make talk about peace which would not. cease until a treaty had been signed, and added: "We are rapidly moving toward that event."
