Registration Committee for Laymen's Convention Meets Today

A meeting of the registration committee for the Laymen's Missionary convention has been called by Chairman Steaves for 12 o'clock today at the Y. M. C. A. for the discussion of important business. Reports from the various sub-committees on registration representing the several churches of the city will be heard and additional plans perfected to hasten the registration.

Requests for information are pouring in at the headquarters office at the Y. M. C. A. from points throughout Willamette valley and there seems to be no question in the minds of the officials in charge that the convention will be well attended by persons from out of town as well as from Salem proper.

The following telegram has been received from Frank C. Jackson, field secretary for the Laymen's Missionary movement who is now in Bellingham, Wash., where a similar convention was held:

"Just closed convention here. Deep interest and spiritual power manifested. Convention speakers delivered stirring addresses, and advanced practical methods. Definite results are accruing to churches. Nine hundred and fifty registrars and over eleven hundred in attendance. We wish you success in the closing days of preparation for the Salem convention."

"Cheerio, Kid" Hails American in the Ocean

Justice H. L. Benson has received a letter from his son, Mechanic R. W. Benson, Company K, 162nd infantry, now in France, in which he encloses a clipping from the Paris edition of the New York Herald, describing the Americans who were aboard the ill-fated Tuscania. In explanation of some peculiarities in the description, which means well enough, it may be said that it was written by an Englishman, the London correspondent of the Herald. Here it is:

Salts in Hot Water
Clears Pimply Skin

Says we must make kidneys clean the blood, and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed in the blood through the very ducts which would absorb only nutriment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

This Is the Day, Red-Haired Girls

Today is the day the red-haired girl comes into her own. This is the day when brunettes, Albinos, and all other colors, styles, tints and shades from nature's palette must stand aside for auburn, carrot or "brick" tinted bits of feminine attractiveness. For beginning today and continuing the remainder of the week every girl with red hair will be admitted free to "Empty Pockets," a thrilling mystery story of a strand of golden locks. "Empty Pockets" tells the story of red hair from beginning to end. It shows what five maids and red hair did to one poor man. It contains a lesson, a moral, a precept, a laugh and a warning. That's the reason for the free admission. Below is printed a coupon. Cut it out on ye with red hair, and present it at the door of the Liberty.

ed, but he will have the report from the state council of defense relative to the needs in Portland and, if any amount of money is provided by the board, it will be based largely on this report.

"Many calls for assistance have come from various parts of the state," said the governor, "and since the legislature adjourned before war was declared and no appropriation was made for guard work, I want to get the opinion of the emergency board."

Germany is hard to suit. She wanted terms, and when President Wilson sent them the kaiser was not enamored of the display.

Keller Will Have His Abduction Hearing Today

Warden Murphy of the state penitentiary received a telegram from Parole Officer Joe Keller yesterday with the information that Captain Keller will have a hearing in San Francisco today on an abduction charge brought by C. J. Smith. Smith is the convict whom Keller arrested when the prisoner left San Quentin penitentiary. Since Smith has already been returned to the Oregon prison by Warden Murphy there is no complaining witness against Keller in San Francisco and the case against him doubtless will be dismissed.
