Prominent ship- Switzerland. owners in Scandinavian countries the same German spirit toward Holhave stated their belief that many land, which Germany seems detersinkings were inspired only by the mined to prevent receiving food supintention to get rid of neutral ton- pliesh except upon German terms." nage so as to increase the relative value of German shipping available at the end of the war. Examinations of the captains of torpedoed ships before the marine courts in these countries bear out this belief. the testimony repeatedly showing that vessels were attacked far outside the zone.

Dutch Threat Cited.

concluded with the United States, is illustrated by the German veto ber of listening posts. placed upon the temporary modus The Netherland along with elev unable to sail because of the refusal of Germany to permit an equivalent amount of tonnage leaving Dutch harbors, the obvious plan of the German authorities being to gather all Dutch ships into home harbors and then prevent any of them sailing by threats to torpedo any vessel leaving Holland waters. To relieve the food situation in Holland the war trade board has finally authorized the trans-shipment of the food in question from the two Dutch steamers to the Holland liner Nieuwe Amsterdam, which is sailing shortly.

"The present campaign of threats and intimidation against the Scandinavian neutrals now carried on in the semi-official North German Gazette and other organs of the German press is obviously intended to frighten the northern neutrals from completing agreements which benefit the neutrals quite as much as the United States and its associates.

Swiss Ship Torpedoed.

"Now success of the earnest efforts cf the United States government to rush shipments of bread grain to Switzerland is threatened by the action of German submarines which, according to now fully confirmed reports from Swizerland, have made a start on a new policy of ruthlessness by sinking the neutral Spanish steamer Sardinero, secured with great difficulty to carry food to that country. The torpedoing of the Sardinero carrying nearly 4000 tons of cereals for Switzerland can by no stretch of the imagination be brought within the scope of Germany's proclaimed submarine policy. White Portugal Onions ... 2.25 lb. since the vessel was engaged, not in an enemy, but in a supposedly safe trade for a neutral state; was en rone to a port to which Germany had explicitly promised to leave open a saf- passage and was torpedoed outside the prohibited zone.

"To add to the deliberateness o the offense, the Sardinero was destroyed after the submarine com mander had made a thorough examination of the ship's papers and convinced himself of the nature and destination of the cargo, so that no plea of a 'mistake' can be entered by Germany. The evident Intent and result of the act was to prevent Switzerland, whose urgent and imrediate need of food is well known to Germany from receiving the American grain; to destroy a Spansh ship for after-the-war trade and to raise by this much the relative value and importance of each Ger-

man ship after the end of the war. Supplies Guaranteed. "By the Swiss-American agreement of December 5, the allies guaranteed to Switzerland for its admit tedly urgent needs an eight months' supply of 240,000 tons of cereals. subject to the assumption that Germany would safe-conduct the supply ships as specified in its proclamation on ruthless submarining which provided a safe route to the Mediterranean port of Cette and promised that submarines would not molest such vessels. To accelerate delivery and provide for immediate necessities before grain from the Argentine, the natural source of supply, could reach Switzerland, the trade board even procured from the
