

One Pair of Eyes for Life

How essential that we give them proper consideration which most of us do not. We work them 15 to 16 hours a day, and after years of such abuse we are annoyed because we cannot see as well as we once could. The right pair of glasses will help the eyes greatly and the glasses are here.

Scotsman Is Delighted With Outlook for Crops

John MacNeill, a Scotsman, who owns about 100 acres of land near Albany, of which twelve acres are in prunes, was in the city yesterday to pay a visit to his old time friend, John Thorburn, United States inspector, quartermaster department, in charge of textiles inspection in the states of Oregon, California, and Washington. He had much to say about the crop prospects in his neighborhood.

"There will be a very large crop of prunes in our part of the country," said Mr. MacNeill, "and it will only be a question of getting farm help at harvest time."

Mr. MacNeill and Mr. Thorburn both came from the same part of Scotland, in days gone by, and it transpired during the conversation that Mr. MacNeill's father was the farm manager for the Earl of Eglington, and owned the Isle of Barra, of the West Hebrides group, an extent about thirty by thirty-five miles. It was here that the celebrated Ayrshire cattle and Clydesdale horses were bred. Many of these celebrated dairy cattle are now in the pastures of Linn, Benton, Marion, Polk and Yamhill counties, and make good dray herds, while the fame of the Clydesdale stock is world-wide.

Before returning home yesterday Mr. MacNeill, who is a thorough, sure enough "foot man," said he was struck with the idea of employing "farmerified" this season on the farms of the valley, especially in the Loganberry vineyards, or to ride binders and harvesters run by traction engines, in fact he grew quite enthusiastic over the plan.

CATARH

Quickly Ended by a Pleasant, Germ-Killing Antiseptic

The little Hyomel inhaler is made of hard rubber and can easily be carried in pocket or purse. It will last a lifetime.

Into this inhaler you pour a few drops of magical Hyomel.

This is absorbed by the antiseptic gauze within and now you are ready to breathe it in over the germ infested membrane where it will speedily begin its work of killing catarrhal germs. Hyomel is made of Australian eucalyptol combined with other antiseptics and is very pleasant to breathe.

It is guaranteed to banish catarrh bronchitis, sore throat, croup, coughs and colds or money back. It cleans out a stuffed up head in two minutes.

Sold by Daniel Fry and druggists everywhere.

Complete outfit, including inhaler and one bottle of Hyomel, costs but little, while extra bottles, if afterward needed, may be obtained of any druggist.

Farmers Enlarge Orchards Fruit Inspector Reports

Fruit Inspector S. H. Van Trump said yesterday afternoon that he had spent most of his time the first part of the week visiting farms and prune orchards south of the city, making a trip about eight miles out and return.

"The farmers in that section seem to be very much encouraged over the prospects of good big crops this year, especially in the line of prunes. One man alone has planted thirty acres of new prune trees, and I found that others are enlarging their orchards. Several farmers have planted loganberry vineyards, and expect to do well in that line.

"It is not a potato raising country, but is all right for fruit and grains."

Linn County Man Files Declaration of Candidacy

Union Inspection Urged by Oregon Confederation

Inspection of all cars of onions shipped out of the state is urged in an application received by the public service commission from the Oregon Confederated Onion Growers' association. The association asks that grades to be designated as No. 1, No. 2 and boiler grades be established and that all sacks of onions weigh 100 pounds net. The applicants believe that inspection should be made by the potato inspectors and that the ruling requiring inspection be made compulsory.

Business Looks Good to General Passenger Agent

"Business is good—never saw it any better," said General Passenger Agent John M. Scott of the Southern Pacific lines in Oregon.

Mr. Scott spent yesterday in the city visiting the merchants and generally making himself agreeable to

all. He is known to all his friends as "the man with the big smile on his face," and it is quite characteristic of this genial passenger man.

Mr. Scott was accompanied on his trip by J. A. Ormondy, check clerk in his office, and both said the state, never looked better, taken as a whole, for the production of large crops this coming season.
