LOGANBERRY BY-PRODUCTS OF PROSPERITY

The loganberry industry will help to bring a glass factory to Salem—eventually. It may be soon. It will be before very long, if there is the proper functioning of the team work the importance of the industry warrants and deserves.

The bottles used in the loganberry juice industry now come from the East, excepting a very few that are secured in San Francisco. There are two glass factories in San Francisco, and one in Washington. The silica sand for the two factories in San Francisco is shipped from Indiana and other states beyond the Mississippi.

The loganberry industry alone, even as already developed, would almost keep a fair sized glass factory busy turning out bottles. The necessary supply of bottles will grow as the industry grows. Then there is the item of boxes. They should all be made in Salem. They now come from various points. The above are only two of the loganberry by-products of prosperity possible for Salem.

There can be no growth without the co-operation of the people who ought to grow the loganberries. The problems increase; those Dutch ships, for instance. Germany is welcome to her Russian "white man's burden."

The by-products of the loganberry industry will be great. But there must be more loganberries planted to secure the greater benefit of the by-products.

It has been decreed by the scientists that the frying pan must go. Its place is to be taken by the casserole. But how is the thick, brown gravy that our mothers used to make to be concocted in the casserole? What a lot of things these experts and scientists do not know!

Senator Chamberlain comes from that same Oregon the United States snatched from Great Britain nearly three-quarters of a century ago, with the slogan, "Fifty-four, forty, or fight." He is full of American ginger.—Los Angeles Times.

Tammany Hall seldom misses a trick in organization. With women voting in New York, they have appointed a woman captain in each election district in the big city, and an auxiliary county committee consisting of women. And so for every active "Tammany tiger" we are to have a Tammany tigress—no, no, that is ungallant; let us say tigressette.

Herr Ballin, head of the Hamburg-American line, will understand the possible significance of the president's request to congress for authority to acquire titles to the Hamburg-American and North German Lloyd steamship companies' piers at Hoboken, and the prompt action of congress. Already the government uses the piers for war purposes and the federal alien property custodian asked for authority to sell these Ger-

people that is with thee; for this thing is too heavy for thee; thou art not able to perform it by thyself alone." President Wilson wants no war cabinet. Later on, when his hands become heavy, he may change his mind. Aaron and Hur were the first historic special war cabinet, and they "held up the hands of Moses." And when they let them down A-malek prevailed.—Los Angeles Times.

BOLSHEVIK IDEALS.

Schuyler Merritt, the new congressman from Stamford, said at a dinner: "As one of the heads of a large manufacturing concern, I am much interested in the Bolsheviki propaganda among the Russian factories. 'I am afraid the Bolsheviki ideas won't go. I heard the other day of a Russian employer who said mildly to a delegation of striking Bolsheviki hands: 'I can understand your demands for an increase of 900 per cent in wages, but why do you insist on my reducing your hours of work from ten to two?'"

IN THE HOLY LAND.

Apparently the age of miracles in the Holy Land is not yet past. A dispatch from Constantinople announced a few days ago that the Turks had blown up the great bridge across the River Jordan near Jerusalem to check the British advance; and a London dispatch Friday afternoon reported that the British troops were safely across. A new Joshua must have been on the job.

FAITH AND CONDUCT.

A professor of an American university declared, in a recent speech, that it was the German philosophy, as advocated by corrupt and corrupted teachers of a decadent government, that brought about the present war and that this philosophy is diametrically opposed to every principle that democracy holds dear. That fact, of course, has been pointed out many times before by the greatest teachers of the world, and yet there are people who, unthinkingly, continue to say that what one believes has nothing to do with what he is or what he does.

LET WELL ENOUGH ALONE

The Oregon Voter in the March 16, 1918, issue says: "We think it will be wise to reelect Governor Withycombe because he has made a good record as governor, and this war time is disturbed enough already without making any unnecessary changes in important public office." The Voter is absolutely right. Governor Withycombe has made a record as a war governor second to none in the United States. There is no cause for a change. Now is the time to let well enough alone.

BITS FOR BREAKFAST.

More spring weather. Holland is unafraid. And she cannot help herself, anyway, if her ships are taken from her. President Wilson is about to give his views on the Russian situation. He can only clear up our relation to it. Time alone will clear up the situation itself. If there is anything rotten in the air service department, it should be cut out, and the sooner the better.

Between the Russian situation, the Dutch ships, and about a million other problems, President Wilson is having a busy old time. He surely has no dull moments—it is just one blessed thing after another with him. To employ a colloquialism, the khaki men in France are "getting there with both feet."

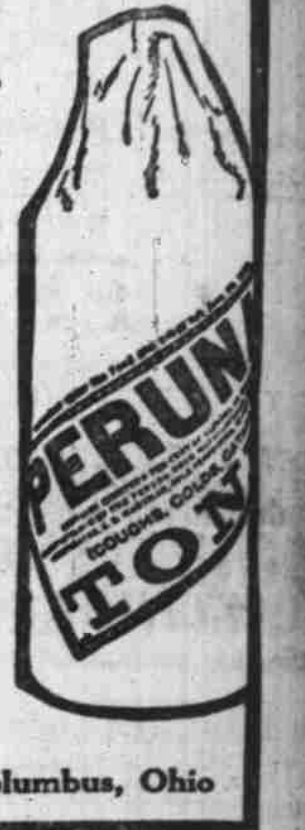

It was a happy thought to fix upon April 6, the first anniversary of the declaration that a state of war existed with Germany, as the date for offering the third liberty loan. Back east, where they are in season afflicted with hay fever, the people have no trouble at all pronouncing the names of the Russian towns the Germans have been capturing.

Wonder what the soldiers in the camps of previous wars did without the movies? The English forces are approaching Hit. May their batting average be more than 300. Why worry? The United States Steel paid \$61,000,000 in income and excess profits taxes. Suppose you had that bill to meet.

John D. Rockefeller's income tax bill will amount to \$19,000,000. So there are some backsets to being a very rich man. We know of several friends who will not have to pay that much.—Exchange. Food riots are reported in Christiania, indicating that the post of the innocent bystander in this war is one of danger. It is a serious question how long neutrally will continue in Norway and Sweden. The entire world will soon be afire.

Coughs, Colds and Grip

Are symptoms of a weakness that is shown by inflamed membranes. Peruna helps clear away the waste, restores the appetite, aids digestion, and builds up the strength. Then the new, rich blood removes the inflammation, restores the tone of the membranes, and the cold is gone. As a tonic following severe colds or influenza it will be found a valuable aid to complete recovery.

Forty-four Years of Success Have made Peruna foremost in the preparedness of the American home to meet the ills of the body. Your home might be the better by using Peruna. Tablet or Liquid Form. Health and How to Have It. A new book of common sense treatment of many ills, with hints on how to stay well. Distributed free by druggists, or will be sent direct on application. Read it and profit.

EDITORIALS OF THE PEOPLE

(The Statesman is pleased to print communications upon topics of general interest at any time. There is scarcely any limit to the topics of "general interest." It is asked only that correspondents refrain from personalities and use care that nothing be written of a libelous nature. Letters must have writer's name and address, though not necessarily for publication.—Ed.)

GIDEON STOLZ FOR MAYOR.

Editor Statesman: I understand that our present mayor, Mr. Walter Keyes, has concluded that he cannot accept another term for the office which he has acceptably filled, and I take the opportunity of proposing as a suitable man as his successor, Mr. Gideon Stolz.

an organization designed to heal wounds—not to make them. President Meyers of Willamette chapter at a meeting at the commercial club a few nights ago read from a paper official announcement of the fact that our government had made arrangements with the German governments whereby food, clothing, etc., can be supplied to Americans held prisoner in their country and in return Germany is granted similar privileges in communicating with their citizens imprisoned in our country. Now this work is to be done through the Red Cross only.

STUMEZE PUT THIS MAN BACK TO WORK

This is to certify that Mr. R. L. Wolfe, 230 Ash St., San Diego, California, purchased three bottles of STUMEZE. Mr. Wolfe stated that his stomach was giving him so much trouble he was unable to work; but since taking STUMEZE he is entirely relieved and able to resume his duties (Signed).

HE RATTLED THE SLATS OF THE DENTAL TRUST!

And he's still jarring the so-called "ethical" tooth-cobblers by selling dentistry that is so different so much better and so fair in price that he has now the most efficient and best appointed offices of their kind in the Pacific Northwest. The enormous patronage of the Painless Parker offices, not only in Portland, Salem and Tacoma, but also in thirteen other large cities is strong enough endorsement of the work done by this organization. The Painless Parker system is to bring dentistry to everybody's doors. Tooth-grief multiplies like tar-weed. While you are going about your business, suffering from a decayed tooth or a nagging nerve, putting off the day when you will visit the fang-fixer, you are only making the matter worse and more costly for yourself.

PAINLESS PARKER DENTIST Hours 8 to 6. Closed Sundays. STATE AND COMMERCIAL STS. SALEM, OREGON. Nineteen offices located as follows: San Francisco (2), Oakland, Stockton, San Diego, Santa Cruz, Los Angeles, Fresno, Bakersfield, Sacramento and San Jose, Calif.; Portland, Salem and Eugene, Ore.; Tacoma and Bellingham, Wash.; Brooklyn, N. Y. (2) New York City, N. Y.

NERVOUS PROSTRATION

May be Overcome by Lydia E. Pinkham's Vegetable Compound—This Letter Proves It.

West Philadelphia, Pa.—"During the thirty years I have been married, I have been in bad health and had several attacks of nervous prostration until it seemed as if the organs in my whole body were worn out. I was finally persuaded to try Lydia E. Pinkham's Vegetable Compound and it made a well woman of me. I can now do all my household work and advise all ailing women to try Lydia E. Pinkham's Vegetable Compound and I will guarantee they will derive great benefit from it."—Mrs. FRANK FITZGERALD, 25 N. 41st Street, West Philadelphia, Pa.

A BIBLE LESSON. President Wilson is not the first ruler in the world to apparently insist upon being the whole thing. Jethro, the father-in-law of Moses, had to warn him when there came a war and his hands were heavy. Moses thought he could be the whole works, but he had to have assistance. When war came his hands became heavy and they were held up by Aaron and Hur. And Jethro said to Moses: "What is this that thou doest to the people? Why sittest thou thyself alone? Thou wilt surely wear away, both thou and this
