That weapon is believed to lie in a pooling of the army reserves of all the allies' armies, permitting overwhelming concentrations at selected points of attack.

Many Merchants Seem to Think That Misrepresentation of Values in Advertising is Permissible

and will be excused by the buying public because it has become such a common practice that nobody believes the exaggerated statements anyway.

WE BELIEVE THAT THE PUBLIC IS INTELLIGENT ENOUGH TO REALIZE THAT THERE IS ONLY ONE STANDARD OF HONESTY and that a merchant who will try to deceive in his advertising will try to deceive in his store.

FICTITIOUS VALUES and IMAGINARY REDUCTIONS fill the advertising columns nowadays. During our entire business career, we have depended upon QUALITY OF MERCHANDISE and prices made possible by our spot cash plan of business to attract trade. CAREFUL BUYING, ECONOMICAL BUSINESS MANAGEMENT and an earnest desire to sell on the closest possible margin of profit, explains why we undersell other stores. We never buy an article until we are convinced that it will prove satisfactory to the wearer.

You will find a wonderful range of styles and qualities to select from in every department.
