David Lloyd George says we must go on or go under. So we go on and go over.

The daylight saving law provides setting the clocks ahead on East-Sunday morning. The simplicity of the plan makes it mysterious to some. And a lot of others can't see the difference it will make.

In order to conserve food 3,000 pet dogs have been killed in London. This is an English move it would not be a bad thing in our old America. In some sections family is kept poor trying to furnish food for the dogs.—Exchange.

General Pershing denies the statement that thousands of soldiers have been in the guardhouse recently. He says that only 134 soldiers have been imprisoned for any cause whatever. That is a little thing like the truth and the reputation of our troops in the rampant fanatics want to take a point?

Four new decorations have been authorized by President Wilson for service in the military service. Hitherto our army has been without means of giving badges to its conspicuously brave members. If the honor tardily bestowed it loses much of its value. Under the new regulations the decorations will be given soon as the deserving one comes to the notice of the president.

GERMANY'S PEACE METHODS.

The soviet congress in Moscow has resolved following the ratification of the peace treaty with Germany. The Germans, however, continue their invasions into the richest territory of the south of Russia. Every time Germany succeeds in concluding a peace with any faction of the Russians she doubles her efforts to gain further control over that unhappy country. In other words, a German-made peace is always an indication of an immediate offensive on the part of Germany against her friend, the old enemy.

WHAT IS TIME?

Timeless Time,
The spirit of the glass and scythe!
Just power can stay him in his silent course
To melt his iron heart to pity?
It is true that our legislators have decided to set the clocks forward an hour to save daylight—yet neither did nor the kaiser has sanctioned such action, and the sun will continue his regular schedule. What is time, anyway? Many philosophers from Spencer to Gergson have tried to tell us, but either none of them knew or else nobody can understand time. Remember the story of the Missouri farmer? He sat on a hill fence, watching his hogs root among the acorns. "Why don't you ask a passer-by, 'it would take some time to fatten them that way.'" "Yes," drawled the bewhiskered southerner, "it would take less time—but what's time to a hog?"

THE COMING DAY.

The great French author, Victor Hugo, prophesied that a day will come when the only battlefield will be the market open to commerce and the mind opening to new ideas. He wrote: "A day will come when bullets and bombshells will be replaced by votes, by the universal suffrage of nations, by arbitration of a sovereign senate, which will be to Europe what the parliament is to England, the diet to Germany, the legislative assembly to France. A day will come when a cannon ball will be exhibited in public museums,

FUTURE DATES

March 23, Friday—Oregon Hopgrowers association meets for dissolution.

just as an instrument of torture now, and the people will be astonished how such a thing could have been. A day will come when these two immense groups, the United States of America and the United States of Europe, shall be seen extending the hand of fellowship across the ocean, exchanging their products, their industry, their arts, their genius, clearing the earth, peopling the deserts, improving creation under the eye of the creator and writing for the good of all, these two irresistible and infinite powers—the fraternity of men and the power of God."

BITS FOR BREAKFAST

The British are holding.
Their lines have been bent.
But they have not been broken.
Germany goes on waging peace in Russia.
The country fair is great; had a big day yesterday, and will have a bigger one today.
The story from Germany of the number of prisoners taken in their drive is likely exaggerated.
But some have no doubt been taken, on both sides, and there have been fatalities. War is no parlor game these days, and never was.

ROLL OF HONOR

The United States is a good natured and long suffering. But she will have to wake up and take some desperate measures, if the German propagandists in various guises do not sing lower.
If this food conservation program goes much further we shall be compelled to live on ham and eggs.—Exchange.
How are you getting along on the last lap of Lent?
Eat mush but don't talk it. That is the demand of the hour.
Russia is paying the price of peace, but she doesn't get the peace.
Some folks have much trouble keeping the wolf from the garage.—Exchange.

Man Wanted for Office

No names have yet been mentioned as candidates for the position of deputy state forester, but it is understood that in making the appointment, State Forester Elliott will name a man who has a technical education in forestry. An appointment is to be made to fill the vacancy caused by the resignation of E. O. Sleske to accept the office of state forester in Texas. Because of the large number of technically educated

Civilian Relief Worker Will Open Course of Instruction in Salem

In connection with a course of instruction that has been outlined by the civilian department of Willamette Chapter, Red Cross, F. P. Foisie of Seattle, division director of civilian relief for the American Red Cross, will speak in Salem Monday afternoon and night. Afternoon address will be for the benefit of those directly interested in civilian relief work and the course will be explained thoroughly by the speaker. The night address will be for the general public.
The address of Mr. Foisie will open the course for Willamette chapter. Mr. Foisie's work covers Oregon, Washington and Idaho. A series of lectures is included in the course as outlined, and the speakers and their subjects as scheduled are:
"Child Welfare," Dr. B. E. DeBusk of University of Oregon.
"Health Problems in Home Service Families," Miss Mabel Cummings of University of Oregon.
"The Normal Family," Prof. C. L. Sherman of Willamette university.
"Community Resources," Dr. Joseph Schafer of University of Oregon.
Mrs. Frederick J. Buell who is head of this department for Willamette chapter is endeavoring to enlist a sufficient number of civilian relief or home service workers to carry on the work in Salem without handicap. The work will increase when wounded soldiers begin to come home from the war. In many cases, doubtless,

It will be necessary to help them obtain employment that is different from that to which they are accustomed, and the course of instruction will take that feature into consideration.

Ruling Favors Kay in Suit of Levi Strauss

In the case of Levi Strauss & Co. against the Thomas Kay Woolen mill Judge Kelly has ruled in Mr. Kay's favor on a motion by attorneys of the plaintiff that the defendant be required to furnish a record of his entire business since April, 1917. Certain letters written to Mr. Kay by the government were produced for the plaintiff, but Mr. Kay had already offered to produce these.

The case arose through a reluctance of the plaintiffs to abide by a government order after the declaration of war requiring all woolen mills to furnish the government 50 per cent of their output. The custom of all woolen mills is to contract goods for delivery in advance, and the Strauss company is demanding the same delivery that would have been made had no order been issued by the government. The Kay mills, upon receipt of the government order, cancelled 30 per cent of all orders, and all firms affected the arrangement with the exception of Levi Strauss & Co.

FORGOT CREAM, BROTHERS DID

Grangers Put Up Pretty Good Meal at That and Had Lots of Fun

STAYTON, Or., March 22.—"Brothers Days" at the grange brought out a large attendance at the lodge rooms Saturday and a good meeting was enjoyed. The brothers who provided and served the banquet forgot the cream and a few more incidentals which go toward making a first class meal, but nevertheless all had plenty to eat and much merriment.

A Maxwell car driven by Mrs. Horace Lilly caught fire on the street Saturday evening, but prompt work on the part of the fire department soon had the flames under control with but little damage to the car. Mrs. Lilly and a party of friends was returning from Salem when the accident occurred.

Mrs. E. T. Mathien went to Lebanon Saturday where she visited several days at the home of her brother, George Buell.

Mrs. Effie Miller was looking after business interests in Mill City several days last week.

J. P. Divley of West Stayton was a business visitor in Stayton Tuesday.

E. S. Titus and Garret Toelle were in Salem Saturday on a brief business visit.

Stayton's business section presented a busy scene Saturday. The grange meeting, the millinery opening and the Red Cross silver tea brought many out of town people in to town.

E. G. Siegmund, who is convalescing from an attack of pneumonia, has recovered his health sufficiently to be removed to his farm home.

Many Stayton people are taking advantage of the savings stamp drive this week as a means of helping to win the war and show their loyalty to the country.

The silver tea given as a benefit for the Red Cross Saturday afternoon was well attended and netted a neat sum.

House to House Campaign Is Made at Mount Angel

MT. ANGEL, Or., March 22.—A house to house thrift stamp campaign was started here this week. On Wednesday afternoon there was a meeting of the women held and committees appointed to canvass the city and vicinity. Thursday the matter was taken up in the schools and children urged to do their bit and try to put thrift stamps in every home.

A mass meeting was held in the city hall Thursday night in the interests of a railroad survey made between here and Sublimity and a committee was appointed to assist in the matter of right of way. The promoters say they have money and will start work April 1.

St. Maries, Idaho, Plans to Deport I. W. W.

ST. MARIES, Idaho, March 22.—Immigration inspector A. F. Richardson tonight had concluded his examination of the eighty-six alleged Industrial Workers of the World held here in the county jail and under guard of state troops, but announced that he could not yet state how many of them would be held with a possible view to deportation or other federal action.

Examination of alleged I. W. W. agitators and organizers in logging camps of this district by state guardsmen continued today. Five camps have been visited so far and two or three men have been held in each. Many of the prisoners not held by the federal authorities will be charged under the state law with criminal syndicalism, according to an announcement by Prosecuting Attorney Holsclaw, who began preparing warrants today.

ALMOST A YOUNG MAN AGAIN

F. R. Whitehurst, R. F. D. 1, Norfolk, Va., writes: "I had been suffering for more than a year, but since taking Foley Kidney Pills I feel almost a young man again." HIS ONLY RECOURSE.

An Ohio man whose son was an applicant for a position in the Federal civil service, but who had been repeatedly "turned down," said: "It's sure hard luck, but Bill has missed that civil service again. It looks like they just won't have him, that's all!"

"What was the trouble?" asked the friend.

"Well, he was kinder short on spelling and geography, and he missed a good deal in arithmetic."

"What's he going to do about it?"

"I don't know," said the father. "Times are not so good for us, and I reckon he'll have to go back to teaching school for a livin'."—Everybody's Magazine.

A Drop On a Touchy Corn

Instant relief! Then corn or callus lifts off with fingers

Just think! You can lift off any corn or callus without one twinge of pain.

A Cincinnati man discovered this ether compound and named it Freezone. Any druggist will sell a tiny bottle of freezone for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful! It dries instantly! It doesn't eat away the corn or callus, but shrivels it up without even irritating the skin.

Hard corns, soft corns, or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. No soreness or smarting. Women should keep a tiny bottle on the dresser and never let a corn ache twice.

After conferring all day with governors of federal reserve banks and chairmen of liberty loan campaign committees, the secretary announced he would meet Chairman Kitchin of the house ways and means committee tomorrow and would make his decision afterward. Some of the bankers and business men participating in the conference today advocated a loan of \$5,000,000,000 or less at 4 1/2 per cent, but the secretary did not disclose his opinion definitely.

Mr. McAdoo told the conference that there is every cause for optimism concerning the outcome of the house ways and means committee tomorrow and would make his decision afterward. Some of the bankers and business men participating in the conference today advocated a loan of \$5,000,000,000 or less at 4 1/2 per cent, but the secretary did not disclose his opinion definitely.

Are You One of the Ninety Per Cent?

Only 10 per cent of the population of the United States are taking any interest in their teeth. Only 10 per cent brush their ivories, use mouth washes and keep in hailing distance of the tusk inspector.

The other 90 per cent don't care a whoop whether their fangs crumble to pieces through decay and fall out or have to be snaked out by a journeyman snag hoister.

Think of 90 per cent of what are supposed to be an intelligent nation letting the most useful apparatus in the human body go to the dickens like a grand piano left outdoors all winter.

A man will keep his face shaved regularly and a woman will zealously brush and comb her hair, but both, like as not, will let a healthy tribe of germs roost in their jaws year after year, keeping house and raising fat families of trouble breeders.

The reason why such a large percentage of human beings ignore their teeth until it is too late is because most of them don't know any better. The Dental Trust doesn't believe in educating the public about tooth caution.

And, then, lots and lots of others fear the dental chair, the forceps and the buzzing dental engine—just as a four-year-old fears papa's slipper. That's because they don't know about painless dentistry—or don't believe in it.

Perhaps you are not in either class. Perhaps you are just putting it off, waiting until you can brave the dentist, prepared to let him stand you on your head and shake the last stray nickel out of your pockets. That's because you don't know of one toothsmith who is willing to defy the Dental Trust and charge a fair price to fit a slim pocket-book instead of demand the dizzy fees, prescribed by the amalgamated porch climbers.
