Why You Should Try Chiropractic

It is not my purpose to condemn Doctors of Medicine, Surgeons, Osteopaths, Christian Science, Magnetic Healers or any other profession offering relief or cure for bodily ailments or disease.

If you have resorted to them and secured relief from your sickness, they are entitled to the full measure of credit. If, on the other hand, you are still suffering from the same ailment, the Chiropractor offers you a service which he claims is based upon true scientific principles. By a simple process of a djustment he restores normal nerve force or vitality and nature itself is thereby enabled to resume its natural healthy condition.

If you have tried Alleopaths, Homeopaths, Patent Medicines, Surgeons, Osteopaths, and others without the desired relief, it is a duty you owe yourself to try Chiropractic.

The Chiropractor uses no drugs, no knife, no electricity. It is not within the range of possibility that his adjustments injure you. On the other hand thousands upon thousands attest absolute and permanent cure by Chiropractic.

There are hundreds of people in Salem whom I have restored to perfect health by spinal adjustments. I will be glad to refer you to them and I am sure they will advise you to try chiropractic. Chiropractic removes the cause of disease—nature performs the cure.
