WOOLEN NOTES

The National Woolens and Trimmings Association in making their annual report, say. The RELATIVE ADVANCE in woolens and trimmings have advanced 175 per cent from 1914 to 1918. This information is authentic and based on present market costs. As an example a suit of clothes selling for \$35 before the recent advances would have to sell at \$55 now, and that price would only care for the raise in cost of materials and not raise in percentage of profit that all business men call good business principles.

I have woolens and trimmings that were bought before the advance that I am willing to make up at original costs, but the supply is limited and if you need a suit of clothes you had better come early. I have the largest and most complete line of woolens in Salem. Come in and let's talk over that suit proposition.
