### Complaint Made to School Board About Manner of Handling Sickness

### SIMPLE DRESS IS URGED

### Woman's Club Would Have High School Girls Taboo Silk Hose

The Salem school board held its regular meeting at the high school last night. A large part of the evening was devoted to routine business, including the auditing and approval of a long list of bills against the district.

It was voted to apply the amount of several hundreds dollars to outstanding bonds, and the action of the clerk in issuing warrants for teachers salaries for the month of March was ratified.

The clerk reported negotiating a loan of \$12,000 from local banks for immediate use in taking care of payrolls, and this action was ratified.

Diseases Not Quarantined.

A matter of past unpleasantness was brought to the front again through a communication from the state health officer with regard to the failure to effect immediate quarantine of contagious disease. The fact was brought out that children affected with mumps and German measles had been sent away

from the schools but had not been placed in quarantine. Inasmuch as it was evident that the city physician, through pressure of business or for other reasons, could not promptly handle all the cases developing, it was suggested that the question be left over to the next meeting, and that in the meantime steps be taken to have the school physician constitute a deputy of the city physician in order to facilitate dealing with contagious diseases appearing in the schools.

A communication was received from Labor Commissioner Hoff, calling attention to the fact that the janitors of the city school are being compelled to put in ten or twelve hours a day in violation of the state law providing for an eight-hour day. The janitor of the high school was present and on his own testimony it was shown that it would be impossible for the janitor of any building to perform all his duties within an eight-hour day. A member pointed out the fact that if the state law was made to apply to janitors it would compel the employment of a double force. The matter was finally disposed of by a motion to the effect that the clerk should endeavor to secure from the Attorney-General, through the city and state superintendents of schools, an opinion as to whether the state law applies to janitors in public schools.

Waste Of Time Deplorable.  
Max O. Buren brought up the matter of student body and assembly meetings, which as now conducted he declared, leads to a great deal of waste time with non-essentials.

"I have attended meetings of the student body" declared Mr. Buren. "Where forty minutes of time was taken up with announcements and speeches regarding school functions and sports. In fact, it appeared as though there was a deliberate attempt to occupy as much of the school periods as possible. I am willing that the students should make all the speeches they wish, but they should be compelled to make them on their own time. It is costing us \$10 to \$15 an hour to maintain the schools, and this sort of thing is not only wasting the time of the teachers but is taking time from study periods."

There was a cross-fire of discussion on this point, along with some good-natured badinage, which resulted in the adoption of a tentative resolution that all such meetings in the future should be confined to the last

period of the day, no meeting to be convened before 9:00 o'clock.

Women Would Reform Dress  
A committee of women from the Salem Woman's club, presented a set of resolutions regarding the much-debated question of dress among the girls of the high school. The resolutions pointed to the fact that "the unregulated habit of dress among seniors and juniors tends to extravagance"—that uniformity in dress has been found practical and conducive of democratic relations among students—that high-heeled shoes, silk hose, low necked gowns, etc., are not suitable for school wear, either from the point of economy or health. It was suggested that a uniform dress suitable for adoption would consist of navy blue woolen for winter and white cotton goods in summer, the form of garb to be left to the majority wishes of the girls, especially the dresses for seniors in the senior year.

Board Approves Resolution.  
The resolution met with open approval by the board, but it was deemed advisable to take the subject up with the students through the teachers and endeavor to secure their willing co-operation.

A committee from the Richmond school appeared before the board with a statement regarding the street in front of that school building, which was said to be impassable in winter because of unfathomed mud. The committee asked the co-operation of the board in making improvements, and it was voted that \$75 be appropriated to assist the abutting property owners in graveling that stretch of highway.

# PERCY CUPPER IS CANDIDATE

### Declaration of Candidacy for Water Superintendent Is Filed

Percy A. Cupper, assistant state engineer, yesterday filed declaration of his candidacy for the Republican nomination for superintendent of water division No. 1. Should he be nominated and elected he would succeed James T. Chinnoek, incumbent, who will not again be a candidate. H. E. Atry of St. Helens is a candidate for the nomination.

Mr. Cupper's platform reads as follows:  
"Continue to use in the public interest my nine years' experience in this work gained while assistant state engineer which, with legal and engineering training and familiarity with every phase of the work, qualifies me for the position of water superintendent. Technical training and experience is required for this work which involves property rights worth millions of dollars. To see the other fellow's problem as he sees it, to help solve it with due regard for other's rights and to assist in Oregon's development has always been my aim."

Charles A. Brand of Roseburg yesterday filed his candidacy for the Republican nomination for representative of the fourth representative district in the state legislature.

"I'm on speaking terms with a dozen editors," said the budding author. "Does that get you anything?" "Occasionally it gets me a type-written letter of regrets instead of a printed rejection slip."—Birmingham Age-Herald.

## PERFECT CONFIDENCE

### Salem People Have Good Reason For Complete Reliance

Do you know how—  
To find relief from backache;  
To correct distressing urinary ills;  
To assist weak widneys?  
Your neighbors know the way—  
Have used Doan's Kidney Pills;  
Have proved their worth in many tests.

Here's Salem testimony.  
Mrs. Emily Edwards, 1107 S. Thirtieth St., says: "I couldn't speak too highly in praise of Doan's Kidney Pills for I have never found anything equal to this old, reliable kidney medicine for regulating the kidneys and stopping backache. I am only too glad to tell others who are subject to backache, as I used to be, that Doan's Kidney Pills are very reliable and effective for that trouble."

plished by a "drunken mob masquerading under the guise of patriotism" recalls the stories told shortly after the hanging to the effect that the participants in the mob were recruiting from saloons in this city and Maryville, near here.

According to reports, Praeger had been warned to stay away from Maryville. When the attitude of the miners became threatening he came to Collinsville. Several miners followed him, it is said and, in a saloon near the outskirts of Collinsville, told the patrons of Praeger's alleged disloyalty.

The men are said to have gone shouting up the street, gathering recruits from every saloon. By the time the city hall was reached a crowd of 350 or more had assembled.

The saloons were closed while the first demonstration over Praeger was in progress, more than an hour before he was taken from the city hall and hanged.

BERLIN, via London, April 8.—The official communication from general headquarters today reads: "On the battle front on both sides of the Somme the fighting activity remained limited to artillery duels. Local attacks by the British in Hangul wood and by the French near Grivesness failed with heavy losses."

"On the southern bank of the Oise our successes of Thursday forced the enemy to evacuate parts of his positions between Bichancourt and Barisis on the night of April 6-7. Yesterday we continued our attacks and threw the enemy back to the western bank of the Ailette after having captured Pierremande and Folembray.

"Enemy columns retreating from Bichancourt along the Oise were attacked on the flank by our machine gun fire from the north bank of the river and were shot down with the heaviest losses.

"Our troops advancing on the eastern border of Coucy wood and by way of Barisis, stormed a hillock northeast of Polembray and advanced as far as Varnueil. The number of captured prisoners has increased to more than 2000.

"Captain von Richtoffelen achieved his seventy-seventh and seventy-eighth aerial victories."

# Your Money And My Business

Whenever you find it necessary to spend a considerable sum for a needed outlay you give careful consideration to the expenditure. You want to get the most you can for your money. Right here is where my proposition appeals to the thinking person.

I offer dentistry of the highest class figured on the basis of any other commodity, that is to say: so much cost, with a reasonable, (not an unjust) profit added. I have no fancy frills, no expensive membership in dental societies, no professional camouflage, no hazy ideals of social distinction to maintain—but treat my work as a business proposition. Take it from me, my business is based on wisdom and common sense. The work done in my business stays put. Your money goes farthest. I'm satisfied with the profit on a dozen cases the average dentist must have on one. A large volume of business enables me to do a large number of cases at a small profit on each. And mark this: quality dentistry, not cheap dentistry. If I were endeavoring to sell cheap dentistry at a cheap price I would be offering nothing new nor different from the ordinary dental advertiser, but in selling high quality dentistry, without pain, at painless prices, by skillful, experienced specialists, I am able to cut a big slice off the average dental fee, in most instances do better work, and still leave a big surplus for you to tuck into your jeans, and give you a sensible, businesslike protective guarantee good in any Painless Parker office.

Graduate dentists, trained nurses, polite attendants, careful consideration combine to give a perfect service. Your investigation is invited. Examination, estimate, chart of the work at no charge to you and no obligation to have work done. No students employed. Prompt attention any day 8:30 to 6:00. No long waits. Closed Sundays.
