SOLDIER EAGER TO BE IN FRAY

Private Leonard Hamilton, With Canadians, Writes Letter to Father

Another Marion county soldier who is eager to be at the Boche is Private Leonard Hamilton, son of J. M. Hamilton, who lives near Salem. He hadn't had his chance yet when he wrote his father recently, but said he wanted the other boys to leave a few of them for his company to get. Hamilton is with the Canadians. The letter, which was written from Seaford, Sussex, England, follows:

"Hello, folks, how are you? Feeling fine, I hope, and enjoying life as you should. I said one time I was going to get so far away that it would take a dollar's worth of stamps to send a postcard to anyone I knew. Well, it seems the farther away I get the less postage, for soldiers do not have to pay postage, and I am nearly half way around the old marble now. They say it's only about sixty-five miles from here to the front.

"We have been here only a few days. Had a safe voyage across the Atlantic and across England to Seaford on the channel. The weather here is just fine, just like July weather there. And this is a pretty country—that is, what I have seen of it. We have been in quarantine ever since we landed and will be until next Thursday. You've seen pictures of those old train coaches with side doors and compartments. Well, they are still in use.

"I expect we'll get a leave after a while, but I haven't decided yet where I'll go. Did think I would like to take a trip up through Scotland or a lick at the Harney stone.

"There has been some severe fighting over at the front the last few days as you will perhaps read about before you receive this letter. The Germans just came on in masses and were mowed down like hay with the machine guns and artillery. I guess this is about their last offensive. They say they squealed like pigs when the boys fixed bayonets and charged their lines.

"There isn't a more happy-go-lucky bunch of men in the world than the Canadian soldiers, and they don't back us. The United States wouldn't take back their old boot-tails so they joined the Canadian army and they make the best soldiers for they have seen service and are of the rough and ready sort. We are made up of all nationalities, that is the C. M. G. C.—Yankees, English, Irish, Swedes, Scotch, with two or three darters. Some mixture, but all fine fellows.

"Well, dad, don't know how long we'll be here in this camp, before we move on. Hope they leave a few Boches for us to get."

Humors Come to the Surface in the Spring as in no other season. They don't run themselves all off that way, however, but mostly remain in the system. Hood's Sarsaparilla removes them, wards off danger, makes good health sure.

PERFORMANCES IN MORNING.

LONDON, March 13.—Two London theaters will try the experiment of giving a matinee performance beginning at 11:30 a. m. The reason given for the innovation is that at the present time "the streets are crowded in the morning with people who have nothing to do." Many of these people it is said are workers in munition factories, where the late night trick finishes about 10 a. m. Others are "late workers" whose employment begins about the middle of the afternoon.

CAMP'S FEEDING PORKERS.

FORT BLISS, Tex., April 17.—Garbage collected from the army camps and the kitchen doors of the fort is fattening hogs in the El Paso valley and helping win the war. The garbage contract is awarded by the quartermaster department and daily trips are made by the swine growers to get this waste from the army kitchens for the hog ranches in the valley.

SCHOOL PAPER LIMITED.

COPENHAGEN, March 31.—The Prussian minister of education has issued regulations designed to effect the greatest possible economy in the use of paper in the schools. BEST FOR CHILDREN.

Experience proves that Foley's Honey and Tar is the best family medicine for children for coughs, colds, croup and whooping cough. Mrs. M. E. Schlarb, 556 Oakland Ave., Ashland, Pa., writes: "When my little girl gets a cold I give her a dose of it and it always relieves her. I cannot praise it too highly." J. C. Perry.

LLOYD A. LEE WRITES HOME

Private Lloyd A. Lee, one of the Salem lads in France, writes to O. B. Gingrich of Salem an enlightening letter on soldier life in France. An interesting part of the letter is that about the surprise given him when George J. Watson of Salem happened in upon him at camp. Private Lee is a son of A. A. Lee of Salem. His letter follows:

"I have been quite busy lately and even when work is finished I do not often feel like writing. Therefore your letter has suffered along with others, though I have thought of you often and even started a letter a couple of times. When I note the date of your sheet I feel quite guilty even though during the past ten months I have written more letters than I would in 100 years at the rate I turned them out in civilian life. People have been very good to me. No one has forgotten me, except at times the postman, for there are often long periods without mail.

"This morning because of the rain we did not drill. I should explain that for the past few weeks every one has been required to take exercise and drill three times each week. We have the hands to help out so that it is not at all bad. The idea is mainly to make sure that everyone has at least a certain amount of exercise. A good thing, too, for so many men here who are working inside.

Let a Vacuum Cleaner Do Your Cleaning in 1918

Start the New Year with a Vacuum Cleaner and you will make it a truly happy New Year—a year of lightened housework, of brighter, cleaner home life.

When you sweep with a broom, a large part of the dust and dirt is thrown into the air—to settle again on the floor and furniture. Only a fraction of it is actually removed permanently from the floor.

But when a Vacuum Cleaner is used all the dust and dirt is deposited in a dust-tight bag. NONE is tossed into the air—to make more work later on.

That is why it is unnecessary to use a Vacuum Cleaner as often as you use a broom. Phone or write for a free demonstration today.
