Business Summary Is Issued by Board, Showing Working Out of System

WASHINGTON, April 25 .- The ederal farm loan system has been in active operation just a year, and has demonstrated that it is a success, according to a business summary issued by the farm loan board. About 2800 national farm loan associations have been incorporated, representing about four associations to each five counties in the country. The associations have an average of twenty members, representing a total membership of about 56,000 farmer borrowers.

"None of the banks, of course, received any appreciable income from their business during the first half of the year, but during the last half the business of the Spokane federal land bank, for example, was sufficiently profitable to come within about \$10,000 of wiping out the excess of expenses incurred in the first half, and the volume of business on its books assures it a handsome surplus for the second year.

These stock subscriptions of borrowers, in the case of several of the banks, are now so large that, in accordance with the provisions of the act, the retirement of the original stock of the banks, which was principally subscribed by the government, will begin within a few months."
